**Resultsoriented government shaping the government to meet 21st century challenges ,** *The FBI* Edward V. Pekar, 2005 The Federal Bureau of Investigation FBI is the Nation s premier law enforcement organisation responsible for gathering and reporting facts and compiling evidence in cases involving federal jurisdiction It has broad jurisdiction in federal law enforcement and in national security and is a statutory member of the US Intelligence Community From its official inception in 1908 the FBI s mission jurisdiction and resources have grown substantially in parallel with the real or perceived threats to American society culture political institutions and overall security In 2003 the organisation has approximately 26 000 employees about 12 000 of whom are Special Agents The FBI has had many successes in countering criminal and hostile foreign intelligence and terrorist activity in its storied history However in its zeal to protect US national security the FBI occasionally exceeded its mandate and infringed upon the protected rights of US citizens Currently the FBI is undergoing a massive reorganisation to shift its culture from reaction to crimes already committed to detection deterrence and prevention of terrorist attacks against US interests The FBI continues to be a major domestic and international force in the war against terrorism This new book covers such issues as Can the FBI sufficiently adapt its law enforcement culture to deter detect and prevent terrorism Should some of the FBI s criminal jurisdiction be devolved to state and local law enforcement Should a statutory charter for the FBI be developed and Does the

planned co location of the FBI s operational Counterterrorism Division with the newly formed Terrorist Threat Integration Center provide an opportunity for foreign intelligence entities to engage in domestic intelligence activities
