Cured by Watching & Talking Under the Guide of a Counselor or by Oneself YingJie Song, 2024-07-15 Obesity anxiety cheating anger bipolar disease schizophrenia etc could show up as a disease on surface they mean nothing else except there is something wrong in one's mind As to what is wrong it is really hard for ordinary people to know as often the problem is lurking in subconscious mind which is beyond one's recognition Human as a species has existed for quite a long and long time and established various mechanisms to cope with major disasters and conflicts When one is facing powerful disaster and could not do anything about it the problem would fade into subconscious mind of the person as it is a survival mechanism for the individual and the species otherwise the person involved could not survive the disaster Unawareness does not mean the problem is gone and it would not affect the life and work of the individual When condition is right the unsolved problem or conflict would show up as various illnesses At that point psychological counseling comes to play a significant role as at the moment we still lack of basic understanding of mind and its working mechanism though medicine has already made quite a progress Through psychological counseling the potential problem could be found the unreleased anger or fear or stress could be released thus the person could walk on a road of recovery Traditional psychological counseling based on communication between the client and the counselor in this book a new method with a name of Image Arrangement is developed based on Family Constellations of Bert Hellinger which could act as an X ray machine of mind to uncover the potential problems in subconscious mind without reliance on group activities or small things as representatives in one's subconscious mind At the

same time based on their practices the authors develop 21 sets of golden sentences for curing to write and recite in one's heart to solve twenty one common psychological problems Of course there will be a huge difference in the effects under the guide of a counsellor and by oneself with the method Thus if possible one should seek professional help to achieve maximal effect Through Image Arrangement one could give back the misaligned responsibility to the original owner and be only to himself that is a proved way to solve many psychological problems *Packing Grandma's China* Lana M.
