*Explaining Mormonism* Gregory Steven Dundas,2022-08-04 Explaining Mormonism is a thoughtful and wide ranging discussion of the Mormon belief system Unlike previous surveys of Latter day Saint beliefs Explaining Mormonism not only outlines Mormon doctrines but provides an in depth exploration of some of their most distinctive doctrines regarding the nature of God the purpose of life the value of suffering and even human sexuality The author himself is a self described skeptic both by nature and by nurture who nevertheless converted to

Mormonism as a young man He takes the reader on an exciting journey through one of the world's most controversial and perplexing religions For Latter day Saint readers Explaining Mormonism will aid in strengthening their faith through its in depth examination of the compelling logic behind the Mormon world view For the skeptical outsider it situates Mormon beliefs in a broad context of history theology philosophy and social science and demonstrates Mormonism's ability to provide bold and compelling answers to the most fundamental questions of human existence And for the serious student of Mormonism it furnishes insights that only an insider can bring to some of the Latter day Saints most peculiar teachings

Orientation to the History of Roman Judaea Steve Mason, 2016-12-09 No field of study is livelier than the history of Roman era Judaea ca 200 BC to AD 400 Bold reinterpretations of texts and new archaeological discoveries prompt us constantly to rethink assumptions What kind of religion was Judaism How did Jews and Christians relate to Roman imperial power Should we speak of Judaism or Judaisms How should the finds at Qumran affect our understanding Did Paul and other early Christians remain within Judaism Should we translate Ioudaioi as Jews or Judaeans These debates can leave students perplexed this book argues because the participants share only a topic They are actually investigating different questions using disparate criteria In the hope of facilitating communication and preparing advanced students this book explores two basic but neglected problems What does it mean to do history if history is what we wish to do And how did the ancients understand and describe their world It is not a history then but an orientation to the history of Roman Judaea Rather than trying to specify which questions are good ones or what one should think about them the book offers new perspectives to help unleash the historical imagination while reckoning squarely with the nature of our evidence *Willing's Press Guide and Advertisers' Directory and Handbook*, 2001
