

# What does 'grassroots' mean, anyway?

**Grassroots** means coming from, led by, and accountable to the people most impacted by a problem.

In the case of our ecological crisis, **those most impacted are frontline communities or those bearing the brunt of the impacts from extractive industries** and most directly affected by climate chaos, often Indigenous Peoples, women, peasant farmers, and youth.

Grassroots organizing has been a central strategy of almost every major social and economic transformation in world history. It builds people power and creates change across geographies and sectors.

**A Review of Deviant Nonprofit Groups** David Horton Smith, 2019-10-07 This book studies the deviant form of Nonprofit Groups NPGs mainly volunteer based associations but occasionally paid staff based nonprofit agencies A Deviant Nonprofit Group DNG is defined as a Nonprofit group that deviates significantly from certain moral norms of the society Smith Stebbins Dover 2006 p 68 The aim is to develop and present an empirically grounded theory with eighty three hypotheses about many of the key analytical features or operational and structural characteristics of DNGs Such DNGs were usually voluntary associations with memberships and usually run by volunteers not nonprofit agencies without memberships and usually run by paid staff Smith 2017a The total theory may be termed a Grounded General Theory of DNG Operation Structure The book is based on an extensive review and qualitative content analysis of about 260 published research documents representing twenty five common language vernacular purposive goal types of DNGs vs analytical theoretical types which do not exist in detail Moral norms are the broad emotionally charged customary directives concerning what is right and wrong by which members of a community or society implement their institutionalized solutions to problems significantly affecting their valued way of life Stebbins 1996 pp 2 3 All the grounded hypotheses reported here were supported by empirical evidence for at least one often two of the two or three specific DNGs studied for all DNG types in source documents Indeed all reported hypotheses were supported by most of the twenty five DNG types studied giving significant qualitative validity to the author's Grounded General Theory of DNG Operation Structure Such support suggests these hypotheses are valid at least sometimes for most DNG types and deserve further investigation Collectively the hypotheses of the present theory can be seen as a new theoretical paradigm for studying NPGs that helps bring analytical order to a previously chaotic realm of nonprofit sector deviant rule breaking phenomena

**Work and Leisure in the Middle East** Robert A. Stebbins, 2017-07-05 Community involvement and leisure are rarely mentioned in mass media coverage of the Middle East and North Africa Yet leisure and community involvement form a part of life in the region and are becoming increasingly significant as modernization becomes pervasive This work seeks to examine how the interconnection of work and leisure operates in a culture far removed from North American or European traditions Robert A Stebbins argues that the Middle East is a region in the throes of a developmental crisis one of cultural underdevelopment He indicates that while leisure and community involvement may be labeled as largely trivial activities they in fact involve a nexus that crosses with the labor process Discussing activities as diverse as theater and falconry rotary clubs and brutal leisure such as acts of terrorism and revolutionary violence Stebbins offers a variety sufficient enough to confirm that cultural development through leisure work and community involvement has been possible To provide the background for this argument Stebbins explains what community involvement is how it fosters cultural development and offers a look at contemporary leisure and work in a changing economic climate This is a unique look both at community involvement in the Middle East and how it has affected the cultural political and religious crisis The book concludes by proposing that a new view of work and leisure may serve to override social divisions and traditional impediments to cultural development
