Great American Priorities:

The Great American Mission David Ekbladh, 2011-08-08 The Great American Mission traces how America's global modernization efforts during the twentieth century were a means to remake the world in its own image David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism's ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U S led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization's mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources and perspectives The Great American Mission offers new and challenging interpretations of America's ideological motivations and humanitarian responsibilities abroad

How Do We Make the Greatest America Dok Kyu Pak, 2019-12-09 There is a crime and a social disorder in any nation's society But I hope the first class countries like America do not have that This book tries to cultivate conflicts disputes in the great America These are the result of redistributing social production cleansing political power and re arranging people's duties and rights Conflicts disputes reproduce and develop all human social cultural and economic values These raise awareness of human ethics and moral norms and challenge existing forms This challenge is human life force Conflicts disputes criticize social cultural artistic social order and values and seek higher values in all sectors Therefore this book wants to be positive romantic and future oriented Therefore there is a contention in this book that conflicts with American law tradition or social practice but it is motivated by conflict I have not escaped from the intention of building the great America under any circumstances Logical contradictions also have a productive purpose Because this book is dialectic

Legislative Priorities and Recommendations of the National Service Organizations United States. Congress. House. Committee on Veterans' Affairs, 1981 *The 100 Greatest Americans of the 20th Century* Peter Dreier, 2012-06-26 A chronological collection of brief biographies on important figures for social justice in American history including Franklin D Roosevelt Fannie Lou Hamer and Bob Dylan *The Great American University* Jonathan R Cole, 2010-01-12 Although America's universities have become the envy of the world for their creative energy and their production of transformative knowledge few understand how and why they have become preeminent This groundbreaking book traces the origins and the evolution of our great universities It shows how they grew out of sleepy colleges at the turn of

the twentieth century into powerful institutions that continue to generate new industries and advance our standard of living Far from inevitable this transformation was enabled by a highly competitive system that invested public tax dollars in university research and students while granting universities substantial autonomy Today America s universities face considerable threats Even greater than foreign competition are the threats from within the United States Under the Bush administration government increasingly imposed ideological constraints on the freedom of academic inquiry Restrictive visa policies instituted after 9 11 continue to discourage talented foreign graduate students from training in the United States The international financial crisis which has depleted university endowments and state investments in higher education threatens the vitality of some of our greatest institutions of higher learning In order to sustain and enhance the American tradition of excellence we must nurture this powerful yet underappreciated national resource *Speechwriting in Perspective* Thomas H. Neale, Jean M. Bowers, 2003 Writing for the spoken word is a special discipline it requires that speechwriters products be written primarily although not exclusively to be heard not read Speeches are better cast in simple direct and often short sentences that can be easily understood by listeners Rhetorical devices such as repetition variation cadence and balance are available to and should be used by the speechwriter It is important for speechwriters to analyse audiences according to factors such as age gender culture profession and income level size of audience political affiliation if any and on the occasion for or purpose of the speech Most effective speeches do not exceed 20 minutes in length After researching a topic speechwriters must prepare an outline from which the speech will be developed They should strive to maintain a clear theme throughout the speech Most speeches will have a three part structure consisting of an introduction a body and a conclusion The accepted style of contemporary American public address is natural direct low key casual and conversational This puts the listeners at ease and promotes a sense of community between the audience and speaker Punctuation should reflect the sound structure of the speech reinforcing the rhythm and pace of actual speech Clarity of expression is as important a consideration in speech grammar as rigid adherence to the rules for written law This book presents the essentials of speechwriting Preface *Speechwriting in Perspective A Brief Guide to Effective and Persuasive Communication* Thomas H Neale Public Speaking and Speechwriting Selected References Jean M Bowers Index **Lining the All-American Canal** United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on Water and Power Resources, 1989 *United States of America, Government, Religion, Christianity, Law, Illegalities; God 1st Priority~ His Rightness, Provided Rights, Holy Bible; Not Self-Idol Selfishness.* Anthony Sheffield, 2017-03-09 Every concerned citizen will enjoy and be very encouraged by the good and accurate historical records of the United States of America Lies have infiltrated so vastly and so deeply into the society that even the educational institutions have become deceived and warped so that the students are then receiving passed down versions that are as said lies Some folk are deceived innocently some willingly some know it and want it Many folk are so busy with all the cares of life that they passively accept it A false peace

has set in and yet it is not peace as we are so alertly observing Values of the heart need care as to whether they are right values and those values are then displayed by posts of the government Every citizen needs to know what the true historical experience and record is what governmental structure was established in the USA what it is all about and how it really is and operates Because we are all interested in the spiritual activity of life then we will be so inspired therein This is a very different and correct account of the real USA Government its history and its establishment

All-American Canal Lining Project, Imperial County, California United States. Bureau of Reclamation. Lower Colorado Region,1991 Reagan's Legacy in a World Transformed Jeffrey L. Chidester,Paul Kengor,2015-04-06 Reagan s Legacy in a World Transformed offers a timely retrospective on the fortieth president s policies and impact on today s world from the influence of free market ideas on economic globalization to the role of an assertive military in U S foreign policy to reduction of nuclear arsenals in the interest of stability

A Domestic Priority United States. Congress. House. Select Committee on Children, Youth, and Families,1988 California. Court of Appeal (6th Appellate District). Records and Briefs California (State)., **The Great American Canals** Archer Butler Hulbert,1904 **The New Nationalism--How The Next Great American Debate Will Restore Our Country By Recasting Our Politics** Harlan Field,2012-07-10 In this book Harlan Field boldly asks modern Americans to leave behind their old politics which have placed America s greatness in jeopardy and exhorts us to pursue a new political strategy that will assure America s great tradition for its future generations As we enter a new millennium Harlan observes we stand poised to discard the crowning achievement of the last thousand years the modern Nation State The only known entity that is capable of preserving Freedom and opportunity for the individual justice for the masses a healthy environment a stable society and a vibrant economy is falling victim to the seemingly invincible juggernaut of Globalism The five cardinal prerogatives of a free people are all being surrendered with little debate and even less thought The rights of a sovereign people to formulate their own independent foreign policy to raise and command a national army to admit or exclude aliens to levy tariffs on goods of foreign manufacture and to coin their own money are under attack all over the world through such peculiar pretenders to legitimacy as the North American Free Trade Agreement NAFTA the General Agreement on Tariffs and Trade GATT and the European Union E U W e no longer can even remember what makes a group of people into a nation A common culture a common heritage a common language shared goals shared sacrifice shared progress This book is a must read for our politicians on the left and on the right lest because of party politics America is made to give into a secondary role on the world stage of ruthless politics and demagoguery

The Gospel from Patmos Jon Paulien,2007 Congressional Record United States. Congress,1995 India's Contribution to the Great War India,1923 Journal of the Senate of the United States of America United States. Congress. Senate,1976 Don't Play Away Your Cards, Uncle Sam Olof Murelius,2002-01-01 Hannah Arendt wrote that America was the greatest adventure of European man Times have changed and stale anti American sentiment flowing west from the European continent has

replaced the flood of Europeans crossing the Atlantic in search of the American Dream In Olof Murelius one encounters a European observer who grasps what so many Europeans now miss the adventure that is still America Don t Play Away Your Cards Uncle Sam is a spirited account of the growth of a nation Murelius s work cuts a broad swathe through American history from the Founding Fathers to Bill Clinton accentuating America s many and varied accomplishments It is a gloriously unapologetic battle cry to America to cast off any lingering national self doubt and will delight readers seeking a conversation with the best of Old Europe about the American way of life *Weekly Compilation of Presidential Documents*
