Fata Morgana:

The Fata Morgana Leo Frankowski, 2000-08-01 Doomed Paradise The ancient tales of European Man carefully recorded by pious monks and hedge wizards alike are insistent about the Western Isles One of the tales of Doubting Thomas the apostle has it that he Christianized these islands and stayed there until the end of his days The Arthurian legends clearly state that Arthur's father Uther came from the Western Isles Ancient and Medieval maps agree in showing them as being off the Western Coast of France Lyonesse was a part of the Western Islands as was the City of Ys Avalon and the Land of Dahout Up until the time of the First Crusade there are records of pilgrims visiting the Holy sites of the Western Islands The remains of mercantile records of those days hint of trade with the islands of the west Irish records and legends which are generally regarded as reliable back to pre-Christian times have many references to great floating islands being pushed by ocean currents and winds alike past the Emerald Isle and sometimes becoming snagged there for a time The Icelandic Eddas make similar references Modern sailors and travelers sometimes sight great many tiered cities near the ocean's horizon but these people are rarely believed It is easier for modern technocentric man to believe in an optical illusion the Fata Morgana This book is about two modern hardheaded engineers who find the Western Islands At the publisher's request this title is sold without DRM Digital Rights Management When I teach science fiction I use Frankowski's books as an example of how to do it right Gene Wolfe
