**The Graphic Art of Federico Barocci** , 1978      **Federico Barocci and the Oratorians** Ian F. Verstegen, 2015-07-01

In 1586 Federico Barocci delivered his Visitation of the Virgin and St Elizabeth to the Chiesa Nuova in Rome For the next quarter century Barocci dominated the art scene in Rome there was no other artist from whom it was harder to get work and no other artist charged such high prices Having two important altarpieces in the Chiesa Nuova and two additional commissions discussed was an impressive feat for an artist living exclusively in Urbino Why did the Oratorians monopolize Barocci s talents in Rome and why does it seem that Barocci was their first choice when considering artists to decorate their church What was it about Barocci s art that appealed to Oratorian sensibilities and their vision of the artistic program for decoration of their church This book examines the relationship between Barocci and the Congregation of the Oratory arguing for a distinct physiognomy of Oratorian patronage and exposing the function the Oratorians expected of religious imagery in contrast to other groups of their time While explaining Oratorian patronage it thus deals with a thorny question in social science how can a collective body have unified intentions and actions The result is a contribution both to the history of Italian painting and to art historical methodology      *Siting Federico Barocci and the Renaissance Aesthetic* Peter Gillgren, 2017-07-05

Focusing on what he calls the performative gaze the author explores the artistic world of the Urbino painter Federico Barocci 1535 1612 in the context of Renaissance culture Through analysis of Barocci s works Gillgren also

sheds new light on Renaissance aesthetic communication generally The first part of the book discusses the poetics of Early Modern painting based on contemporary theories of Reception Aesthetics hermeneutics and phenomenology but grounded in Renaissance culture itself through numerous examples from Early Modern painting The author discusses works by such artists as Botticelli Raphael Titian Vel uez and Poussin from the point of view of their spectator status The second part deals specifically with the art of Federico Barocci showing in detail how his works relate to aspects of the gaze and to their intended spectators Gillgren s method is unusual in that he takes care to set the images within their original physical contexts lighting space framing materials angle of viewer approach as much as possible through careful analysis of early descriptions of now destroyed or modified chapels The third section of the volume contains a brief catalogue of Barocci s paintings presented in a chronological order with a full bibliography and with details about the painting s original locations

**Patronage and Dynasty** Ian F. Verstegen, 2007-03-01 This collection of essays offers a thorough study of the patron artist relationship through the lens of one of early modern Italy s most powerful and influential historical families Contributors present a longitudinal study of the della Rovere family s ascent into Italian nobility The della Rovere was a family of popes cardinals and powerful dukes who financed some of the world s best known and greatest artwork The essays explore the issue of identity and its maintenance of carving a permanent spot for a family name in a rapidly changing atmosphere Although these studies depart from art patronage they uncover how the popes cardinals dukes and signore of the

della Rovere family constituted their identity Originally a nouveau riche creation of papal nepotism the della Rovere first populated the ranks of cardinals under the powerful popes Sixtus IV and Julius II Within the framework of later papal relations the family negotiated its position within the economy of Italian nobles *Master Drawings from the Yale University Art Gallery* Yale University (New Haven, Conn.).
