The Melanesian World Eric Hirsch, Will Rollason, 2019-03-28

This wide ranging volume captures the diverse range of societies and experiences that form what has come to be known as Melanesia. It covers prehistoric, historic and contemporary issues and includes work by art historians, political scientists, geographers and anthropologists. The chapters range from studies of subsistence, ritual and ceremonial exchange to accounts of state violence, new media and climate change. The Melanesian world assembled here raises questions that cut to the heart of debates in the human sciences today with profound implications for the ways in which scholars across disciplines can describe and understand human difference. This impressive collection of essays represents a valuable resource for scholars and students alike.

Grass roots art of New Guinea [Sydney, Pacific Publications] E. F. Hannemann, *The Traditional Pottery of Papua New Guinea* Patricia May, Margaret Tuckson, 2000-01-01. This book is the most comprehensive and authoritative survey of the traditional pottery of Papua New Guinea ever produced. The authors have made a thorough analysis of pottery making throughout Papua New Guinea based on eight years of field work. They proffer a first hand account of clay preparation, pottery formation and firing techniques interwoven with information on the functions of pottery and the various approaches to decoration.

Religions of Melanesia Garry Trompf, 2006-09-30. Melanesia boasts over one quarter of the world's distinct religions and presents the most complex religious panorama on earth. The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways. As the first bibliographical survey to comprehensively cover the entire region, *Religions of Melanesia* is an invaluable research aid for anyone interested in this growing field. Trompf's work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources. This survey covers 2188 entries organized topically and regionally. Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root. Regional coverage includes Irian Jaya, Papua New Guinea, Solomon Islands, Vanuatu, New Caledonia and Fiji.

Symmetries of Culture Dorothy K. Washburn, Donald W. Crowe, 2021-02-17. This groundbreaking collaboration between an anthropologist and a mathematician constitutes both a collection of symmetrical pattern designs from many cultures and a monograph on pattern design and the classification of symmetrical patterns. Intended for art historians, anthropologists, classical archaeologists and others interested in the study of material culture, it can also serve as a reference and inspiration for the use of symmetrical patterns in art and design. This richly illustrated study brings to light dozens of intriguing examples of symmetrical designs: for instance, in a Zulu loincloth, a Japanese chopstick case, a New England quilt, a Tibetan Plaque of a Thousand Lamas, a Hawaiian water gourd. The same pattern found in a fantastical

drawing of lizards by M C Escher is echoed in a Fijian basket lid and an Egyptian wall mosaic Publishers Weekly This extremely useful guide to classifying plane pattern designs is extensively illustrated with carvings textiles baskets tiles and poetry which are used as examples of various symmetry patterns American Anthropologist An impressive book both in terms of its physical appearance and its content will undoubtedly become the major reference on the analysis of patterns in terms of symmetry properties Antiquity **Pacific Islands Monthly** ,1985 The Art of Oceania Louise Hanson,F.
