Lopez, Robyn P. Angliss, 2001 **Identifying and Comparing Important Areas for Marine Sustainable Use and Conservation** Sofie Van Parijs, Joseph Appiott, Leslie New, Piers Dunstan, Giuseppe Notarbartolo di Sciara, 2024-05-24 The ocean is under increasing threat from the expansion of human activities The combined impacts of these threats as well as the potential impacts of climate change and ocean acidification have placed thousands of species at risk of extinction and have impaired the structure function productivity and

resilience of marine ecosystems Currently some parts of the world's oceans are significantly impacted yet are without any form of effective management Only a small proportion of the oceans are within protected area systems Globally measures are being taken to increase protection and sustainable management but application is uncoordinated and not always effective In order to support effective policy action by countries and competent international and regional organizations it is critical to build a sound understanding of the most ecologically and biologically important ocean areas that support healthy marine ecosystems so that the necessary steps to ensure the long term function and resilience of these systems can be taken

**Pathologic Findings in Stranded Marine Mammals: A Global Perspective** Gregory Dana Bossart, Alvin Cyril Camus, Debra Lee Miller, Stephen Raverty, 2022-02-09 This project is posthumously dedicated to Dr Gregory Dana Bossart Whether you knew him as colleague mentor friend family member or simply knew of him you could not help but be awestruck by his dedication intelligence thoughtfulness work ethic and passion for scientific inquiry especially for conservation of the marine environment Many of his publications were seminal in marine mammal health including infectious environmental and zoonotic diseases As we collected manuscripts for this special Frontiers edition it was heartwarming to hear the comments from contributors So many research scientists field biologists and veterinarians could easily have given up and said I just can't do this now especially with the added challenges posed by the current COVID 19 pandemic Instead contributors from around the world were determined to contribute to this collection because of their inspiration and shared commitment with Greg's vision The love and admiration within the marine community for Greg is phenomenal With that said we would be remiss if we did not say a few words about Greg as a mentor and friend Greg had a knack for helping students realize their abilities and pursue their own independent contributions to the marine mammal community He shared in their successes and worked tirelessly to facilitate their aspirations Greg would involve students early career scientists and colleagues in projects introduce them to collaborators and promote them and their work Greg was a genuinely caring person When he asked you how are you doing he honestly wanted to know He was always there ready to listen and provide guidance If you were to ask Greg what was most important to him in life he would say God family and marine life and one could argue that he had a special fondness for manatees He believed in the beauty of nature and that God had a hand in all of it He was in pursuit of

ensuring that we all share this earth responsibly and sustainably We miss Greg dearly but honor and celebrate him as we carry on in our pursuits      **Beaufort Sea Planning Area Oil and Gas Lease Sale 124** ,1990
