Henry William Dulcken

Great Australian Explorers:

The Australian Explorers George Grimm,2024-02-05 Persons who have yet to make their acquaintance with the early history of New South Wales will learn with surprise that the colony had been founded for almost a quarter of a century before the Blue Mountain barrier was crossed For so long a period it was scarcely possible to proceed more than forty miles from Sydney in any direction Many a despairing look must those early settlers have cast on the frowning ramparts of the range which leaving only a narrow margin between itself and the sea threatened to convert the cradle of the colony into a Procrustes bed to which its dimensions would have to conform in the future as they had done in the past This sense of confinement was the harder to bear that it was met with in a land of freedom and many a time did the caged eagle dash itself with fruitless rage against the bars of its prison A record of the unsuccessful attempts to get beyond the main range would form a heroic chapter of our history and one too of which we might well feel proud if there is any truth in the saying that in great undertakings it is glorious even to fail Within four months after the arrival of the first fleet our annals present a picture of Governor Phillip and party struggling laboriously westward to the gorges of the mountains

The History of Australian Exploration from 1788 to 1888 Ernest Favenc, 1888 Issued under the auspices of the governments of the Australian colonies

The Cartographic Eye Simon Ryan, 1996-09-13 The Cartographic Eye is about the mythologies of land exploration and about space and the colonial enterprise in particular An innovative investigation of the presumptions aesthetics and politics of Australian explorers texts it concentrates on the period 1820 1880 Simon Ryan looks at the journals of John Oxley Thomas Mitchell Charles Sturt and Ludwig Leichhardt and shows that they are not the simple unadorned observations the authors would have us believe but are complex networks of tropes The Cartographic Eye scrutinises and undermines the scientific and literary methodology of exploration Its insightful analysis of the tendencies of colonialism will
