Focusing The Familiar A Translation And Philosophical Interpretation Of The Zhongyong:

Focusing the Familiar Roger T. Ames, David L. Hall, 2001-08-31 The Zhongyong translated here as *Focusing the Familiar* has been regarded as a document of enormous wisdom for more than two millennia and is one of Confucianism's most sacred and seminal texts. It achieved truly canonical preeminence when it became one of the Four Books compiled and annotated by the Southern Song dynasty philosopher Zhu Xi 1130-1200. Within the compass of world literature, the influence of these books, the *Analects of Confucius*, *Great Learning*, *Zhongyong*, and *Mencius* on the Sinitic world of East Asia has been no less than the Bible and the Qu'ran on Western civilization. With this new translation, David Hall and Roger Ames provide a distinctly philosophical interpretation of the Zhongyong, remaining attentive to the semantic and conceptual nuances of the text to account for its central place within classical Chinese literature. They present the text in such a way as to provide Western philosophers and other intellectuals access to a set of interpretations and arguments that offer new insights into issues and concerns common to both Chinese and Western thinkers. In addition to the annotated translation, a glossary of terms gives in concise form important senses of the terms that play a key role in the argument of the Zhongyong. An appendix addresses some of the more technical issues relevant to the understanding of both the history of the text and the history of its English translations. Here the translators introduce readers to the best contemporary textual studies of the Zhongyong and make use of the most recent archaeological discoveries in China to place the work within its own intellectual context. *Daxue and Zhongyong (A Bilingual Edition)*, 2012-12-15 For the past eight hundred years, the study of Confucian doctrine has been largely dominated by the crucial works known as the Four Books: the *Analects*, the *Mencius*, the *Daxue*, and the *Zhongyong*. In their original forms, the *Daxue* and *Zhongyong* were two of the more than forty chapters of the larger *Li ji* (Book of Rites), only gaining prominence thanks to the Song Neo-Confucian scholar Zhu Xi. In this groundbreaking text, Ian Johnston and Wang Ping have translated both of these versions of the *Daxue* and *Zhongyong*, one version as chapters of the *Li ji* that contain the influential commentary and notes of Zheng Xuan and Kong Yingda, and the second after they were reorganized into standalone works and reinterpreted by Zhu Xi. Johnston and Wang also include extensive explanatory and supplemental materials to help contextualize and familiarize readers with these supremely influential works. **The Bloomsbury**

Ames, 2022-10-01 Over the years Roger T Ames and his collaborators have consistently argued for a processual understanding of Chinese natural cosmology made explicit in the Book of Changes It is this way of thinking captured in its own interpretive context with the expression continuities in change biantong that has shaped the grammar of the Chinese language and informs the key philosophical vocabulary of Confucian philosophy Over the past several centuries of cultural encounter the formula established by the early missionaries for the translation of classical Chinese texts into Western languages has resulted in a Christian conversion of Confucian texts that is still very much with us today And more recently the invention of a new Chinese language to synchronize East Asian cultures with Western modernity has become another obstacle in our reading of the Confucian canons This volume a companion volume to A Sourcebook in Classical Confucian Philosophy employs a comparative hermeneutical method in an attempt to explain the Confucian terms of art and to take the Confucian tradition on its own terms Dao Companion to the Analects Amy Olberding, 2013-10-24 This volume surveys the major philosophical concepts arguments and commitments of the Confucian classic the Analects In thematically organized chapters leading scholars provide a detailed scholarly introduction to the text and the signal ideas ascribed to its protagonist Confucius The volume opens with chapters that reflect the latest scholarship on the disputed origins of the text and an overview of the broad commentarial tradition it generated These are followed by chapters that individually explore key areas of the text s philosophical landscape articulating both the sense of concepts such as ren li and xiao as well as their place in the wider space of the text A final section addresses prominent interpretive challenges and scholarly disputes in reading the Analects evaluating for example the alignment between the Analects and contemporary moral theory and the contested nature of its religious sensibility Dao Companion to the Analects offers a comprehensive and complete survey of the text s philosophical idiom and themes as well as its history and some of the liveliest current debates surrounding it This book is an ideal resource for both researchers and advanced students interested in gaining greater insight into one of the earliest and most influential Confucian classics **Neo-Confucian Self-Cultivation** Barry C. Keenan, 2011-05-02 Approximately fifteen hundred years after Confucius his ideas reasserted themselves in the formulation of a sophisticated program of personal self cultivation Neo Confucians argued that humans are endowed with empathy and goodness at birth an assumption now confirmed by evolutionary biologists By following the Great Learning eight steps in the process of personal development Neo Confucians showed how this innate endowment could provide the foundation for living morally Neo Confucian students did not follow a single manual elaborating each step of the Great Learning instead they were exposed to age appropriate texts

commentaries and anthologies of Neo Confucian thinkers which gradually made clear the sequential process of personal development and its connection to social order Neo Confucian Self Cultivation opens up in accessible prose the content of the eight step process for today's reader as it examines the source of mainstream Neo Confucian self cultivation and its major crosscurrents from 1000 to 1900 *Confucius Now* David Jones, 2015-11-02 Written by the most important scholars in contemporary Confucian studies these approachable essays focus on the relevance of Confucius's ideas to modern living with special attention given to the Analects his seminal text Topics covered include tradition and creativity grief and mourning the doctrine of correcting names Confucian kungfu and moral cultivation **All Under Heaven** Tingyang Zhao, 2021-06-29 In this succinct yet ample work Zhao Tingyang as one of China's most distinguished and respected intellectuals provides a profoundly original philosophical interpretation of China's story Over the past few decades the question where did China come from has absorbed the thoughts of many of China's best historians Zhao keenly aware of the persistent and pernicious asymmetry in the prevailing way scholars have gone about theorizing China according to Western concepts and categories has tasked both Chinese and Western scholars alike to rethink China To this end Zhao introduces what he terms a distinctively Chinese centripetal whirlpool model of world order to interpret the historical progression of China's All Under Heaven Tianxia identity construction on the central plain of China In this book Zhao forwards a novel and compelling thesis on not only how we should understand China but also until recently how China has understood itself Philosophies of Place Peter D.
