A Literary Field Guide to Southern Appalachia

Rose McLarney, Laura-Gray Street, L. L. Gaddy, 2019-10-15 Getting acquainted with local flora and fauna is the perfect way to begin to understand the wonder of nature. The natural environment of Southern Appalachia, with habitats that span the Blue Ridge to the Cumberland Plateau, is one of the most biodiverse on earth. *A Literary Field Guide to Southern Appalachia*, a hybrid literary and natural history anthology, showcases sixty of the many species indigenous to the region. Ecologically, culturally, and artistically, Southern Appalachia is rich in paradox and stereotype-defying complexity. Its species range from the iconic and inveterate, such as the speckled trout, pileated woodpecker, copperhead, and black bear, to the elusive and endangered, such as the American chestnut, Carolina gorge moss, chucky madtom, and lampshade spider. The anthology brings together art and science to help the reader experience this immense ecological wealth. Stunning images by seven Southern Appalachian artists and conversationally written natural history information complement contemporary poems from writers such as Ellen Bryant Voigt, Wendell Berry, Janisse Ray, Sean Hill, Rebecca Gayle Howell, Deborah A. Miranda, Ron Rash, and Mary Oliver. Their insights illuminate the wonders of the mountain South, fostering intimate connections. The guide is an invitation to get to know Appalachia in the broadest, most poetic sense.

The New Encyclopedia of Southern Culture Martin

V. Melosi, Charles Reagan Wilson, 2014-02-01 From semitropical coastal areas to high mountain terrain, from swampy lowlands to modern cities, the environment holds a fundamental importance in shaping the character of the American South. This volume of *The New Encyclopedia of Southern Culture* surveys the dynamic environmental forces that have shaped human culture in the region and the ways humans have shaped their environment. Articles examine how the South's ecology, physiography, and climate have influenced southerners, not only as a daily fact of life but also as a metaphor for understanding culture and identity. This volume includes ninety-eight essays that explore both broadly and specifically elements of the southern environment. Thematic overviews address subjects such as plants, animals, energy use, and development, and natural disasters. Shorter topical entries feature familiar species, such as the alligator, the ivory-billed woodpecker, kudzu, and the mockingbird. Also covered are important individuals in southern environmental history and prominent places in the landscape, such as the South's national parks and seashores. New articles cover contemporary issues in land use and conservation, environmental protection, and the current status of the flora and fauna widely associated with the South.

Stories of Rootworkers & Hoodoo in the Mid-South Tony Kail, 2019-10-14 Separate fact from fiction in this history of African healers spiritualists and conjurers in the mid southern United States Men and women who carried the mantle of

African healing and spirituality in the Mid South were frequently accused and attacked for their misunderstood culture. The same healers and spiritual workers feared by outsiders were embraced and revered by families who survived because of their presence. From Tennessee to Mississippi, ancient formulas and potions were integral parts of the African American community. Follow author Tony Kail as he takes us down the back roads of rural counties where healers formulated miracles in mojo bags and into the cities where conjurers spoke to the spirits of the dead. If true mystery and fascinating cultures move you, you'll be thunderstruck by this book. Vast numbers of Africans were brought to this region in chains from their native lands, moved cross country from the Atlantic coast and inland from Jamaica, Haiti, and the Caribbean. They brought with them their religious and faith healing practices. Tony Kail, cultural anthropologist and ethnographer, writer and lecturer, brings his nearly three decades of study of ancient faith healing, hoodoo, and herbal beliefs to bear in this remarkable work.
