Cinema, Audiences and Modernity Daniel Biltereyst,Richard Maltby,Philippe Meers,2013-03-01 This book sheds new light on the cinema and modernity debate by confronting established theories on the role of the modern cinematic experience with new empirical work on the history of the social experience of cinema going film audiences and film exhibition The book provides a wide range of research methodologies and perspectives on these matters including the use of

oral history methods questionnaires diaries audience letters as well as industrial sociological and other accounts on historical film audiences The collection s case studies thus provide a how to compendium of current methodologies for researchers and students working on film and media audiences film and media experiences and historical reception The volume is part of a new cinema history effort within film and screen studies to look at film history not only as a history of production textual relations or movies as artefacts but rather to concentrate more on the receiving end the social experience of cinema and the engagement of film cinema history from below The contributions to the volume reflect upon the very different ways in which cinema has been accepted rejected or disciplined as an agent of modernity in neighbouring parts of Europe and how cinema going has been promoted and regulated as a popular social practice at different times in twentieth century European history

Co-determination in the Swedish Office Dennis Doxtater, 2024-11-07 Originally published in 1994 as part of the Ethnoscapes Current Challenges in the Environmental Social Sciences series reissued now with a new series introduction *Architecture Ritual Practice and Co-determination in the Swedish Office* is a case study of Swedish office buildings and examines how they have been influenced by spatial aspects of traditional culture in Scandinavia It suggests a theoretical framework for

architecture by casting the ritual form of Swedish offices into three distinct modes of expression *Urban Interstices: The Aesthetics and the Politics of the In-between* Andrea Mubi Brighenti, 2016-02-11 Bringing together a team of international scholars with an interest in urban transformations spatial justice and territoriality this volume questions how the interstice is related to the emerging processes of partitioning enclave making and zoning showing how in between spaces are intimately related to larger flows networks territories and boundaries Illustrated with a range of case studies from places such as the US Quebec the UK Italy Gaza Iraq India and South east Asia the volume analyses the place and function of interstitial locales in both a disciplined urban space and a disordered space conceptualized through the notions of excess danger and threat Warning not to romanticize the interstice the book invites us to study it as not simply a place but also a set of phenomena events and social interactions How are interstices perceived and represented What is the politics of visibility that is applied to them How to capture their peculiar rhythms speeds and affects On the one hand interstices open up venues for informality improvisation challenge and bricolage playful as well as angry statements on the neoliberal city and enhanced urban inequalities On the other hand they also represent a crucial site of governance even governance by withdrawal and urban management where an array of techniques ranging from military urbanism to new forms of value extraction are experimented At the point of convergence of all these tensions interstices appear as veritable sites of transformation where social forces clash and mesh prefiguring our urban future The book interrogates these territories proposing new ways to explore the dynamics events and visibilities that define them **Erik Gunnar Asplund** Malcolm Woollen, 2018-07-16 Taking

an interdisciplinary approach weaving together art philosophy history and literature this book investigates the landscapes and buildings of Swedish architect Erik Gunnar Asplund Through critical essays and beautiful illustrations focusing on four projects the Woodland Cemetery the Stockholm Public Library the Stockholm Exhibition and Asplund s own house at Stenn s it addresses the topic of buildings accompanied by landscapes It proposes that themes related to landscape are central to Asplund s distinctive work with these particular sites forming a collection that documents an evolution in his design thinking from 1915 to 1940 The architect himself wrote comparatively little about his design intentions However through close reading and analysis of the selected projects as landscapes with architecture author Malcolm Woollen argues that reflections of the history of Swedish landscape architecture and the intellectual climate in the late nineteenth and early twentieth centuries are evident in his work and help to explain the architect s intentions This book is a must have for academics advanced students and researchers in landscape architecture and design who are interested in Nordic Classicism and the works of Erik Gunnar Asplund

Missing in Malmoe Torquil MacLeod,2013-11-29 When a British heir hunter fails to return home after a trip to Sweden and Inspector Anita Sundstroem s ex husband asks her to find his missing girlfriend she doesn t want to get entangled in either affair But when both mysteries take a sinister turn she finds herself inextricably involved and on a course which ultimately leads to tragedy

Human Mobility in Coastal Regions Allan M. Williams,2012-12-31 The broad aim of this book is to examine human mobility urbanization relationships as the unit of analysis within the framework of the natural environment of the coastal areas with a focus on unfolding major conflict categories themes The book does not address the question of how urbanization shapes mobility this lies outside the project specification that this book is based on as approved by the EU Therefore the analysis of how different urban forms such as the compact city shape mobility are not considered here Instead the book has four specific research objectives that structure this overview chapter and the national case studies presented in the remainder of the book I To analyze the relationships between migration and urban change II To analyze the spatial and temporal balance between permanent versus temporary populations in the core v ring v coastal zone III To analyse how human mobility shapes key aspects of urbanization IV To consider the main human environmental conflicts resulting from human mobility The final section reflects on the implications for human environmental conflicts of the changing relationship between mobility and urbanization in the case studies

The Nordic Civil Sphere Jeffrey C. Alexander,Anna Lund,Andrea Voyer,2020-01-07 The civil sphere is a distinctively democratic field in modern societies one that sustains universalizing cultural aspirations and organizational structures and that has tense and uncertain boundaries with other spheres of social life like the economy religion family and state Unlike the latter which are more particularistic and hierarchical in character the civil sphere defines itself in terms of solidarity the feeling of being connected with every other person in the collectivity The utopian ideals of democratic solidarity shape every modern society even if they are often compromised by the messy realities of social life This volume uses the theory of the civil

sphere to shed new light on Nordic societies while at the same time drawing on the distinctive experiences of the Nordic nations to reflect on and advance the theory of the civil sphere Nordic societies have long been admired for creating a distinctive form of social democracy but this admirable achievement has not been well conceptualized theoretically Most attempts to explain Nordic social democracy focus on material and organizational factors This volume by contrast emphasizes the cultural foundations and characteristics of social democracy demonstrating how civil sensibilities are necessary for the creation of an egalitarian and democratic state Nordic civil spheres however are not only pro civil but also white in color European in ethnicity secular in character and gender equal in a subtly restrictive manner Such primordialization of state civility is vividly on display in the sometime tense relationships that develop among natives and foreigners in Nordic countries relationships that expose the primordial undersides of the social democratic codes and civil values that constitute the Nordic civil sphere A major contribution to the theory of the civil sphere and to our understanding of the cultural and normative underpinnings of social and political life this volume will be of particular interest to students and scholars of sociology and politics

Labour, Unions and Politics under the North Star Mary Hilson, Silke Neunsinger, Iben Vyff, 2017-05-01 Denmark Finland Iceland Norway and Sweden today all enjoy a reputation for strong labour movements which in turn are widely seen as part of a distinctive regional approach to politics collective bargaining and welfare But as this volume demonstrates narratives of the so called Nordic model can obscure the fact that experiences of work and the fortunes of organized labour have varied widely throughout the region and across different historical periods Together the essays collected here represent an ambitious intervention in labour historiography and European history exploring themes such as work unions politics and migration from the early modern period to the twenty first century
