**The Oxford Handbook of the Archaeology and Anthropology of Hunter-Gatherers** Vicki Cummings, Peter Jordan, Marek Zvelebil, 2014-04-24 For more than a century the study of hunting and gathering societies has been central to the development of both archaeology and anthropology as academic disciplines and has also generated widespread public interest and debate The Oxford Handbook of the Archaeology and Anthropology of Hunter Gatherers provides a comprehensive review of hunter gatherer studies to date including critical engagements with older debates new theoretical perspectives and renewed obligations for greater engagement between researchers and indigenous communities Chapters provide in depth archaeological historical and anthropological case studies and examine far reaching questions about human social relations attitudes to technology ecology and management of resources and the environment as well as issues of diet health and gender relations all central topics in hunter gatherer research but also themes that have great relevance for modern global society and its future challenges The Handbook also provides a strategic vision for how the integration of new methods approaches and study regions can ensure that future research into the archaeology and anthropology of hunter gatherers will continue to deliver penetrating insights into the factors that underlie all human diversity

**Deep Change** Gerald Ponder, David Strahan, 2005-11-01 This book presents cases of schools Part One and programs at the district level and beyond Part Two in which reform while driven by high stakes accountability became larger and deeper through data driven dialogue culture change organizational learning and other elements of high performing cultures Commentaries on cross case patterns by Ann Lieberman and Michael Fullan and a chapter on now what first steps provide implications for initiating deep change that results in improved student learning outcomes even in challenging activity settings

Hunter of Themes Karen Link Rosenflanz, 2005 Krzizanovskij summed himself up in one of his notebooks I am known for being unknown Yet he was an authority on Shakespeare and Shaw a noted scholar and the author of very popular dystopian and phantasmagoria short stories Rosenflanz examines the life and work of this Russian modernist whose imagination used the Russian formalism and futurism then current in new and rich ways whose skill with the pun rose even to the aural level and whose life's goal was to resurrect the idea of word as thing in all its permutations as words as things as things words and as words things even unto words as prophecy which Rosenflanz interprets as recollections of the future Krzizanovskij's being known for being unknown is perhaps rooted in the fact that he was so far ahead that others could not recognize him as leading the charge

**Theme and Space** A.G.F. van Holk, 2023-04-12 Since the appearance of Lotman's Poetics of the Artistic Text 1970 and Universe of the Mind 1990 and Eco's Introduction to Semiotics 1972 the investigation of the working of signs in language the arts and the sciences has witnessed an ever increasing impact on our understanding of human culture In this book an attempt is made at developing a linguistic model for the semiotics of culture and to apply this to the analysis of a number of Russian and Polish dramatic texts mostly from the nineteenth century In the

first five chapters such well known plays as Ostrovskij's *The Thunderstorm* Turgenev's *A Month in the Country* and Gogol's *The Inspector General* are discussed alternatively with Stowacki's *Fantazy* and some of Fredro's comedies Special chapters are devoted to the performance of drama and to some urgent issues concerning the structure of semiotic space The last and most lengthy chapter presents an outline of so called text linguistics here conceived as a variety of case grammar duely revised for application to the analysis of drama and its non verbal context The book addresses itself to readers familiar with Slavic languages and interested in the relation between language and literary themes and the place of drama in culture

Simulating Societies Nigel Gilbert,Jim Doran,2018-05-15 The most exciting and productive areas of academic inquiry are often where the interests of two disciplines meet This is certainly the case for the subject of this book originally published in 1994 which explores the contribution that computer based modelling and artificial intelligence can make to understanding fundamental issues in social science *Simulating Societies* shows how computer simulations can help to clarify theoretical approaches contribute to the evaluation of alternative theories and illuminate one of the major issues of the social sciences how social phenomena can emerge from individual action The authors discuss how simulation models can be constructed using recently developed artificial intelligence techniques and they consider the methodological issues involved in using such models for theory development testing and experiment The introductory chapters situate the book within social science and suggest why the time was ripe for significant progress before defining basic terminology showing how simulation has been used to theorize about organizations and indicating through examples some of the fundamental issues involved in simulation The main body of the text provides case studies drawn from economics anthropology archaeology planning social psychology and sociology The appeal of this path breaking book was twofold It offered an essential introduction to simulation for social scientists and it provided case study applications for computer scientists interested in the latest advances in the burgeoning area of distributed artificial intelligence DAI at the time

**The Life and Poems of Anne Hunter** Caroline Grigson,2009-05-01 Anne Home Hunter 1741 1821 was one of the most successful song writers of the second half of the eighteenth century most famously as the poet who wrote the lyrics of many of Haydn's songs However her work which included many more serious lyrical and romantic poems has been largely forgotten This book contains over 200 poems some published in her life time under her married name Mrs John Hunter some attributed only to a Lady and most importantly many transcribed from her manuscripts housed in various archives and in a private collection which are now collected for the first time Hitherto Anne Hunter has been known almost entirely through her Poems published in 1802 in her Introduction Isobel Armstrong argues that she saw this book as a definitive representation of her poetry Besides her consummately skilful lyrics and songs it contains serious political odes and reflective poems The unpublished material amplifies and extends the

work of 1802 The introduction is followed by a long biographical essay by Caroline Grigson The daughter of Robert Home an impoverished Scottish Army surgeon Anne Hunter spent her adult life in London where she married the famous anatomist John Hunter with whom she lived in great style latterly as a bluestocking hostess until his death in 1793 The book includes many new details of her long life her friendship with Angelica Kaufman who painted her portrait see cover and the bluestocking Elizabeth Carter The account of Anne s life as a widow describes her relationships with her family her niece the playwright Joanna Baillie and her friends especially those of the famous Minto family as well as the Scottish impresario George Thomson Of especial interest is the discovery of a previously unrecorded visit that Haydn made to her during his second London visit when she was living in Blackheath Expertly researched which Grigson s book sets Anne Hunter s oeuvre in the political and social context of the time and will be required reading to scholars of literature and music alike

**William Hunter's World** Nick Pearce, 2017-07-05 Despite William Hunter s stature as one of the most important collectors and men of science of the eighteenth century and the fact that his collection is the foundation of Scotland s oldest public museum The Hunterian until now there has been no comprehensive examination in a single volume of all his collections in their diversity This volume restores Hunter to a rightful position of prominence among the medical men whose research and amassing of specimens transformed our understanding of the natural world and man s position within it This volume comprises essays by international specialists and are as diverse as Hunter s collections themselves dealing as they do with material that ranges from medical and scientific specimens to painting prints books and manuscripts The first sections focus upon Hunter s own collection and his response to it while the final section contextualises Hunter within the wider sphere A special feature of the volume is the inclusion of references to the Hunterian s web pages and on line databases These enable searches for items from Hunter s collections both from his museum and library Locating Hunter s collecting within the broader context of his age and environment this book provides an original approach to a man and collection whose importance has yet to be comprehensively assessed

*Saints and Animals in the Middle Ages* Dominic Alexander, 2008 A thorough investigation of the saint and animal topos its origins growth and development

*Animals and Women* Carol J. Adams, Josephine Donovan, 1995-11-14 *Animals and Women* is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense Offering a feminist perspective on the status of animals this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species Furthermore it demonstrates that such a focus does not distract from the struggle for women s rights but rather contributes to it This wide ranging multidisciplinary anthology presents original material from scholars in a variety of fields as well as a rare early article by Virginia Woolf Exploring the leading edge of the species gender boundary it addresses such issues as the relationship between abortion rights and animal rights the connection between woman battering and animal abuse and the speciesist basis for much sexist language Also considered

are the ways in which animals have been regarded by science literature and the environmentalist movement A striking meditation on women and wolves is presented as is an examination of sexual harassment and the taxonomy of hunters and hunting Finally this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse and that to deny this connection is to participate in the continued mistreatment of animals and women

Amy Beach, Passionate Victorian Adrienne Fried Block, 1998 This biography admirably fills that gap fully examining the connections between Beach's life and work in light of social currents and dominant ideologies Adrienne Fried Block has written a biography that takes full account of issues of gender and musical modernism considering Beach in the contexts of her time and of her composer contemporaries both male and female Amy Beach *Passionate Victorian* will be of great interest to students and scholars of American music and to music lovers in general

Nine Visits to the Mythworld Ghandl of the Qayahll Llaanas, 2023-10-28 In the Fall of 1900 a young American anthropologist named John Swanton arrived in the Haida country on the Northwest Coast of North America intending to learn everything he could about Haida mythology He spent the next ten months phonetically transcribing several thousand pages of myths stories histories and songs in the Haida language Swanton met a number of fine mythtellers during his year in the Haida country Each had his own style and his own repertoire Two of them a blind man in his fifties by the name of Ghandl and a crippled septuagenarian named Skaay were artists of extraordinary stature revered in their own communities and admired ever since by the few specialists aware of their great legacy *Nine Visits to the Mythworld* includes all the finest works of one of these master mythtellers In November 1900 when Ghandl dictated these nine stories the Haida world lay in ruins Wave upon wave of smallpox and other diseases rapacious commercial exploitation by fur traders whalers and miners and relentless missionization by the church had taken a huge toll on Haida culture Yet in the blind poet's mind the great tradition lived and in his voice it comes alive Robert Bringhurst's eloquent and vivid translations of these works are supplemented by explanatory notes that supply the needed background information

**Studies in Byzantine, Islamic and Near Eastern Silk Weaving** Anna Muthesius, 2006-12-31 This volume complements Anna Muthesius two earlier ground breaking volumes in the field of silk as material culture *Studies in Byzantine and Islamic Silk Weaving* and *Studies in Silk in Byzantium* The publication highlights the fact that similar patterns of selection were at work in the acquisition of silks by secular and ecclesiastical bodies These patterns of selection were governed not only by fashions of the time but by access to international trade routes leading to the Great Silk Road linking the Near East to the Mediterranean The surviving silks prove that Mediterranean Near Eastern silk trade flourished continuously and for centuries prior to the thirteenth century contrary to what has previously widely been assumed It also highlights the crucial role of the Caucasian silk routes in accessing the Great Silk Road in the early period and the contribution of Georgian and Armenian silk weaving after the thirteenth century Above all the book demonstrates how important it is to assess the impact of Near Eastern silk manufacture and distribution in relation to Byzantine and Islamic

Woodburn,2024-11-01 All that is central to the dynamic process in human society is evident in the study of hunter gatherers peoples whose subsistence way of life reflects the original form of human adaptation This is the thesis of these wide ranging volumes in which internationally leading scholars consider hunter gatherer peoples in Africa Asia Australia and North America and reflect theoretically on the hunter gatherer condition Volume 1 Hunters and Gatherers History Evolution and Social Change Volume II Hunters and Gatherers Property Power and Ideology **Hunters and Gatherers in the Modern World** Megan Biesele,Robert K. Hitchcock,Peter P. Schweitzer,2000-04-01 In an age of heightened awareness of the threat that western industrialized societies pose to the environment hunters and gatherers attract particularly strong interest because they occupy the ecological niches that are constantly eroded Despite the denial of sovereignty the world s more than 350 million indigenous peoples continue to assert aboriginal title to significant portions of the world s remaining bio diversity As a result conflicts between tribal peoples and nation states are on the increase Today many of the societies that gave the field of anthropology its empirical foundations and unique global vision of a diverse and evolving humanity are being destroyed as a result of national economic political and military policies Although quite a sizable body of literature exists on the living conditions of the hunters and gatherers this volume is unique in that it represents the first extensive east west scholarly exchange in anthropology since the demise of the USSR Moreover it also offers new perspectives from indigenous communities and scholars in an exchange that be termed south north as opposed to north north denoting the predominance of northern Europe and North America in scholarly debate The main focus of this volume is on the internal dynamics and political strategies of hunting and gathering societies in areas of self determination and self representation More specifically it examines areas such as warfare and conflict resolution resistance identity and the state demography and ecology gender and representation and world view and religion It raises a large number of major issues of common concerns and therefore makes important reading for all those interested in human rights issues ethnic conflict grassroots development and community organization and environmental topics Planning for Adaptive Teaching in the Primary Curriculum Charlotte Mosey,Jack Stothard,2025-08-22 How do I plan for Adaptive Teaching in the primary National Curriculum Do different subjects need a different Adaptive Teaching approach How do I anticipate the needs of the children in my class and plan for them in all curriculum subjects Planning for Adaptive Teaching in the Primary Curriculum helps you to answer these questions It is a practical guide for trainee and beginning teachers showing you how to begin develop and perfect planning for Adaptive Teaching The book covers the foundation principles of Adaptive Teaching and outlines why it matters It includes a chapter for every curriculum subject because what works in mathematics might not work in PE Throughout examples of good practice ideas and suggested topics are included to help you to build a range of strategies to use for planning and teaching
