Hydrocarbon Explor Hist E C Europe:

History of the European Oil and Gas Industry J. Craig, F. Gerali, F. MacAulauy, R. Sorkhabi, 2018 The history of the European oil and gas industry reflects local as well as global political events economic constraints and the personal endeavours of individual petroleum geoscientists as much as it does the development of technologies and the underlying geology of the region The first commercial oil wells in Europe were drilled in Poland in 1853 Romania in 1857 Germany in 1859 and Italy in 1860 The 23 papers in this volume focus on the history and heritage of the oil and gas industry in the key European oil producing countries from the earliest onshore drilling to its development into the modern industry that we know today The contributors chronicle the main events and some of the major players that shaped the industry in Europe The volume also marks several important anniversaries including 150 years of oil exploration in Poland and Romania the centenary of the drilling of the first oil well in the UK and 50 years of oil production from onshore Spain The Official History of North Sea Oil and Gas Alex Kemp, 2013-03 Written by the leading expert in the history of UK energy this study provides new in depth analysis of the development of UK petroleum policies towards the North Sea based on full access to the Government's relevant archives *Historical Pollution* Francesco Centonze, Stefano Manacorda, 2017-08-05 This volume examines legal matters regarding the prevention and fighting of historical pollution caused by industrial emissions Historical pollution refers to the long term or delayed onset effects of environmental crimes such as groundwater or soil pollution Historical Pollution presents and compares national legal approaches including the most interesting and effective mechanisms for managing environmental problems in relation with historical pollution It features interdisciplinary and international comparisons of traditional and alternative justice mechanisms This book will be of interest to researchers in criminology and criminal justice and related areas such as politics law and economics those in the public and private sectors dealing with environmental protection including international institutions corporations specialized national agencies those involved in the criminal justice system and policymakers **Deciphering the European Investment Bank** Lucia Coppolaro, Helen Kavvadia, 2022-06-07 Deciphering the European Investment Bank History Politics and Economics examines the European Investment Bank EIB the European Union's financial institution and the largest lender and borrower among the International Financial Institutions Since its establishment in 1958 the EIB has developed without becoming front page news and has remained highly invisible By putting together 14 chapters that analyze topical and meaningful moments and aspects of the bank this edited book offers the first comprehensive analysis of its origins and its evolution in terms of its mandate governance structures policy activity and performance Written by acknowledged experts from various disciplines the chapters weave together history economics law and political science to provide a multidisciplinary examination and capture the complexity of the EIB The book is a timely initiative for understanding the EIB whose role has been ever increasing for contributing to the recent global economic challenges including the economic and financial crisis climate change and COVID

19 pandemic The chapters are written at a level which will be comprehensible to undergraduates in economics history and international political economy It will also be a valuable source of reference for academics policy makers bankers and other practitioners interested in regional development banks and their role in the global economy

Petroleum Geology of the North Sea K. W. Glennie, 2009-06-29 Since the 3rd edition of this publication emphasis within the petroleum industry has shifted from exploration to appraisal and development of existing hydrocarbon resources This change is reflected in this new 4th edition which has been significantly expanded to accomodate additional material The centrepiece of the book however remains a series of descriptions in stratigraphic order of the depositional history and hydrocarbon related rock units of the North Sea

Sequence Stratigraphy on the Northwest European Margin R.J. Steel, V.L. Felt, E.P. Johannesson, C. Mathieu, 1995-07-04 Sequence Stratigraphy presently one of the most rapidly growing areas in geology is concerned with the documentation and prediction of how sandstones potential hydrocarbon reservoirs and shales potential source rocks are distributed in time and space within sedimentary basins The book takes a critical look at some of the sequence stratigraphy concepts and provides an account of how these have been applied recently in NW Europe North Sea mid Norway and E Greenland Barents Sea and Svalbard mainly in connection with the exploration for oil and gas There is currently no similar book available
