Ecclesial Leadership as Friendship Chloe Lynch, 2019-03-01 When it comes to talking about the activity of directing the church the language of leadership and leaders is increasingly popular Yet what is leadership and how might theological narratives better resource the discourse and practice of leadership in ecclesial contexts In identifying and critiquing managerialism as a dominant narrative of leadership in the Western church this book calls for an alternative approach founded on the concept of friendship Engaging with the wider field of leadership studies the book establishes an understanding of leadership activity and brings it into conversation with an incarnational ecclesiology The result is a prophetic reimagining of ecclesial leadership in terms of a relational kenotic praxis This praxis of mutuality and love is framed here in the rich language of Christian friendship The book also wrestles deeply with the embodiment of such a praxis making explicit the power behaviours typical of friendship leadership and offering constructive guidance for practitioners in the task of implementation within a complex and fractured world This book offers a new vision of the centrality of friendship to leadership of a healthy church community As such it will be of great use to scholars of practical theology ecclesiology and leadership as well as practitioners in church ministry

The Spirit-Driven Leader Carnegie Samuel Calian, 2010-01-01 What do Bill Gates King Solomon Abraham and Lincoln have in common They re all excellent examples of how leaders under pressure manage to succeed Former Pittsburgh

seminary president Sam Calian outlines seven keys to effective leadership under pressure creativity competence commitment character collegiality compassion and courage Filled with telling anecdotes Calian s book asks readers to look not only within themselves but to reach out to others to inspire hope and build stronger communities in trying times **Building Bridges, Leading Hearts** Ronald R. Rojas,2024-04-17 Its easy to learn and then apply secular leadership models into the pastoral and ministry sector But is it the best alternative to form Church leaders What is missing when business models are used in ministry This book is about creating more sensitivity on how some of the secular models can unintentionally limit pastoral and ministry effectiveness It suggests a competency approach to address leadership influences that are missing yet essential to ministry and the faith based sector In many ways this book is a guide for securing and developing a more engaging ministry leadership one that emerges from the intersection of the leadership and pastoral theology disciplines Its guiding principle is Leadership is a Spiritual Practice This book is a must have for leadership training programs and anyone engaged in forming for ministry leadership roles **Work** Lars Fredrik Svendsen,2014-12-05 Work is one of the most universal features of human life virtually everybody spends some part of their life at work It is often associated with tedium and boredom in conflict with the things we would otherwise love to do Thinking of work primarily as a burden an activity we would rather be without is a thought that was shared by the philosophers in ancient Greece who generally regarded work as a terrible curse And yet research shows that it prolongs life and is generally good for people s physical and mental health This is perhaps why work is increasingly recognized as a crucial source of meaning and social identity And our attitudes to work have been changing significantly in the last decades with an increased demand for meaning and self realization in the workplace In this book Lars Svendsen argues that we need to complete this reorientation of our feelings about work and collapse the differences between leisure and work Work like the poor is always with us But to overcome the sense of being burnt out we must think of work as not only productive but recreative in other words a lot more like leisure **Systems Theory and Practice in the Knowledge Age** Gillian Ragsdell,Daune West,Jennifer Wilby,2012-12-06 Welcome to the proceedings of the Seventh International Conference of the UK Systems Society being held at York University United Kingdom from July 7th to 10th 2002 It is a pleasure to be able to share with you this collection of papers that have been contributed by systems thinkers from around the world As with previous UKSS conferences the aim of this conference is to encourage debate and promote development of pertinent issues in systems theory and practice In current times where the focus has moved from information to knowledge and where knowledge management of everyday speak it seemed fitting to knowledge assets and so on have become part offer a conference title of Systems Theory and Practice in the Knowledge Age In keeping with another tradition of previous conferences the UKSS Conference 2002 Committee decided to compile a collection of delegates papers before the event as a platform from which to launch discussions in York Ideas presented in the following papers will undoubtedly be developed during the dialogue generated at the conference and new papers will emerge

In his abstract for his plenary at this conference Professor Peter Checkland throws down the gauntlet to systems thinking and its relevance in the knowledge age with the following statement 30 Years In The Systems Movement Disappointments I Have Known and Hopes for the Future Springing from a lunchtime conversation at an American University the Systems Movement is now nearly 50 years old *First and Second Chronicles* Andrew E. Hill, 2003 The Chronicles are more than a history of ancient Israel under the ascent and rule of the Davidic dynasty They are a story whose grand theme is hope Great battles are fought heroes and tyrants vie for power Israel splits into rival kingdoms and the soul of God's holy nation oscillates between faithlessness and revival Yet above this tossing sea of human events God's covenant promises reign untroubled and supreme First and Second Chronicles are a narrative steeped in the best and worst of the human heart but they are also a revelation of Yahweh at work forwarding his purposes in the midst of fallible people God has a plan to which he is committed Today as then God redirects our vision from our circumstances in this turbulent world to the surety of his kingdom and to himself as our source of confidence and peace Exploring the links between the Bible and our own times Andrew E Hill shares perspectives on 1 and 2 Chronicles that reveal ageless truths for our twenty first century lives Most Bible commentaries take us on a one way trip from our world to the world of the Bible But they leave us there assuming that we can somehow make the return journey on our own They focus on the original meaning of the passage but don't discuss its contemporary application The information they offer is valuable but the job is only half done The NIV Application Commentary Series helps bring both halves of the interpretive task together This unique award winning series shows readers how to bring an ancient message into our postmodern context It explains not only what the Bible meant but also how it speaks powerfully today *Political Leadership* Michael Foley, 2013-11 This authoritative volume analyses the practice and impact of political leadership aiming to position it within a more integrated framework
