**The Myth of the Jewish Race** Alain F. Corcos, 2005 As a youth the author who had two Jewish grandparents was defined as a Jew by Vichy France his parents however refused to register the family as Jews In March 1944 Corcos and his brother fled to Spain and joined the Allied Forces in North Africa States that antisemites consider Jewishness to be inherited and to embody inferior evil traits This view is based on two false biological premises that there are pure races of humans and that some races are superior to others Rejects these premises by considering modern biology and Jewish history The latter indicates that the Jews cannot be a race due to their lack of sexual isolation diversity among Jews is a result of both intermarriage and proselytism Sees the Spanish limpieza de sangre statutes and the Inquisition as precursors of Nazi racism Observes that sometimes Jews have joined antisemites in accepting biological determinism Intermarriage in countries such as China India and the USA has led to considerable biological diversity among Jews and to the reduction of diversity between Jews and non Jews if such diversity existed at all Stresses that if antisemites have worried about contamination of their race by the Jews they have already missed the boat since Jews have mixed with non Jews for many centuries
