Jewish Philosophy A Study In Personalism:

Jewish Philosophy Leon D. Stitskin, 1976 *Reappraisals and New Studies of the Modern Jewish Experience* Brian Smollett, Christian Wiese, 2014-10-30 *Reappraisals and New Studies of the Modern Jewish Experience* brings together twenty scholars of Modern Jewish history and thought The essays provide a fresh perspective on several central questions in Jewish intellectual social and religious history from the eighteenth century to the present in the contexts of Russia Western and Central Europe and the Americas **Martin Buber and His Critics (Routledge Revivals)** Willard Moonan, 2016-02-05 First published in 1981 Martin Buber has been acclaimed as one of the major philosophical and religious thinkers of the twentieth century with his influence and achievements spanning numerous fields however in each of these areas his work has also been severely criticised and his influence called into question This volume brings together in a systematic arrangement all the significant material by and about Martin Buber published in English up to the centenary of his birth in 1978 To make the bibliography as useful as possible the critical material was annotated and various indexes were constructed including an extensive subject index to both Buber's works and the criticism **Jewish Faith and Modern Science** Norbert M. Samuelson, 2008-10-17 In *Jewish Faith and Modern Science* renowned Jewish philosopher and rabbi Norbert Samuelson argues that modern Jewish philosophy has died_ that it has failed to address the challenges to traditional beliefs posed by scientific advances and is therefore no longer relevant to Jews today Samuelson confronts these challenges head on critically reflecting on how all of the forms of contemporary Judaism from orthodox to liberal to secular to new age can address questions raised by the latest scientific advances Considering questions ranging from the existence of the soul to the relationship between God and particle physics to the debate over when life begins and ends Samuelson paves the way for a rebirth of Jewish philosophy applicable to life in the modern world **Pondering the Imponderable** Martin Sicker, 2010-03-25 *Pondering the Imponderable* explores the philosophical and theological problems of God and their implications from a Judaic perspective including the attempts at knowing the unknowable and naming the unnamable that have been articulated over the course of some two millennia as well as how the chasm between man and God is bridged through revelation and the implications of these ideas for the ultimate question of what takes place after death resurrection immortality of the soul or transmigration or reincarnation In discussing these issues the non specialized reader will be introduced to the vast corpus of rabbinic literature written over a period of some two millennia to the present day and to many works that have never been translated into English **Ethical Prophets along the Way** Rufus Burrow Jr., 2019-12-27 The Hebrew prophets of ancient Israel strove to convey God's point of view to the people and the powers at a time when injustice deceit malfeasance and crushing the poor and the oppressed was prominent much like today The prophets spoke courageously and emphatically about God's profound and unrelenting concern and compassion for human beings Much influenced by the theology of prophecy developed by Rabbi Abraham Joshua Heschel this book discusses the nature meaning

and relevance of ethical prophecy at a time when democracy in the United States of America and elsewhere is under vicious assault from the religious and secular right and authoritarian politicians who openly flirt with and support murderous dictators sexism homophobia racial bigotry anti-Semitism and hatred of Muslims both in word and practice An examination of the contributions of eight powerful personalities from the period of American slavery through the post civil rights era Angelina Grimke Ida B Wells Abraham J Heschel James Baldwin Malcolm X Martin Luther King Jr Oscar Romero and Alice Walker offers a recipe for addressing this state of affairs **The Jewish Quarterly Review** ,1977 **The Journal of Jewish Studies** ,1997 **Eight Jewish Philosophers** Leon D. Stitskin,1979 Between Man and God Martin Sicker,2001-06-30 Sicker presents a personal attempt to come to grips with the awesome question Where was God at Auschwitz and with it some of the related central issues of Jewish thought and belief There is a tendency among many writers of contemporary work of theology to argue that the very fact of the Holocaust invalidates traditional Jewish theory and that its long held ideas about God must therefore be revised radically However Jewish thinkers have long asked the equivalent of this troubling question albeit in reference to other places and times in Israel s history and have offered possible answers just as we do today The big difference between then and now is not the enormity of the Holocaust but the readiness of earlier thinkers to search for meaning without almost cavalierly discarding traditionally cherished ideas and beliefs The author argues that modern advocates of radical theological revision actually have little to add to our understanding of the ways of God and even less to a meaningful Judaic perspective on the universe and the relationship between man and God A second concern is the contemporary argument that because there is no universally accepted theology of Judaism one is not bound by any particular conception of God whether of biblical or rabbinic origin Jewish theology has thus come to be viewed essentially as an equal opportunity field of intellectual endeavor an approach Sicker considers fundamentally and fatally flawed Traditional non dogmatic thought does not require radical revision What is required is a sympathetic understanding of the theological assumptions and ideas of the past coupled with a sincere and respectful attempt to reformulate them in terms more attuned to the modern temper **Between Faith and Reason** Dr. Martin Sicker,2020-07-13 The studies in this volume discuss some of the issues implicit but not resolved in the Hebrew Scriptures including the problems inherent in the topics of theology and religious philosophy as discussed and argued by scholars for more than two millennia The studies address the problem of philosophy the troublesome issues of moral autonomy and divine omniscience and theodicy from a Judaic perspective In addition it includes a study of the biblical story of the Golden Calf and its religious implications that are more complex than a cursory reading of the biblical text will suggest Finally it includes a discussion of the often misunderstood concepts of the prophet and prophecy as set forth in the biblical texts Although this book does not and cannot resolve the philosophical and theological issues that have persisted through the millennia it hopes to make clear how these issues have been wrestled with from a Judaic perspectives which will have relevance with regard to the perspectives on these

matters of other monotheistic faiths **Communings of the Spirit** Mel Scult, 2016-10-10 With honesty and vivid detail Kaplan explores his evolving beliefs on religious naturalism and his uncertainties and self doubts as he grapples with a wide range of theological issues **Spinoza in English** Wayne I. Boucher, 1991 Spinoza in English is the first bibliography to bring together the entire 325 year record of books monographs dissertations and articles in English on Benedict de Spinoza 1632 1677 including translations of his works into English Well over 2100 citations are presented bringing this record through early 1991 Arranged alphabetically by author or editor and internally cross referenced for ease of use this bibliography also cites its own sources where appropriate and in many cases provides guidance on how to obtain unpublished or out of print titles Additionally it restores or corrects a good deal of earlier bibliographic detail identifies dozens of publications hitherto overlooked and beginning with titles from the mid 1800 s presents the citations in a uniform style
