shock through the story of urban renewal and its effect on the African American community Between 1949 and 1973 this federal program spearheaded by business and real estate interests destroyed 1 600 African American neighborhoods in cities across the United States But urban renewal didn't just disrupt the black community The anger it caused led to riots that sent whites fleeing for the suburbs stripping them of their own sense of place And it left big gashes in the centers of U S cities that are only now slowly being repaired Focusing on three very different urban settings the Hill District of Pittsburgh the Central Ward in Newark and the small Virginia city of Roanoke Dr Fullilove argues powerfully that the twenty first century will be one of displacement and of continual demolition and reconstruction Acknowledging the damage caused by root shock is crucial to coping with its human toll and building a road to recovery Astonishing in its revelations unsparing in its conclusions Root Shock should be read by anyone who cares about the quality of life in American cities and the dignity of those who reside there From the Hardcover edition *The American Catalogue*, 1905 American national trade bibliography
