culture and politics of contemporary south east Europe expanding scholarship on the post Yugoslav conflicts by going on to encompass significant social and political changes into the present day The outbreak of war in 1991 saw almost every professional musician in Croatia take part in a wave of patriotic music making and the powerful state television system strive to bring popular music under its control As the political imperative shifted from securing national survival to consolidating a homogenous nation state the music industry responded with several strategies for creating a national popular music producing messages about the nation and in the ongoing debates over the origins of the folk music that inspired many songs a way to define the nation by expressing what Croatia was not The war on ethnic ambiguity which cut through individuals social and creative lives played out across the airwaves sales racks and gossip columns of a small country that imagined itself a historical and cultural borderland These explicit and implicit narratives of nationhood connect many political phases the months of fiercest fighting the stabilised front the uneasy post war years when the symbolic frontline region of eastern Slavonia had still not returned to Croatian sovereignty the euphoria and instability after the end of the Tudjman regime in 2000 and Croatia's fraught journey towards the European Union Baker's book provides valuable insight into the role of music in a wartime and post conflict society and will be essential reading for researchers and students interested in south east Europe or the transformation of entertainment during and after conflict

Talk of the Nation Zsuzsa Csergo, 2018-07-05

How can democratization coupled with transnational integration resolve conflicts over cultural difference in places that are marked by legacies of nationalist competition This book explores that question through a comparative study of contestations over language use in the heart of the post Communist region Zsuzsa Csergo notes that newly independent governments looked to rejoin the West in particular the European Union while at the same time asserting control over the institutions they considered key to the reproduction of national cultures These national projects resulted in renewed salience for minority language rights and a complicated politics triggering EU concerns about the treatment of regional cultural minorities Csergo's field research in Romania Hungary and Slovakia leads her to make a bold claim about the primacy of domestic politics in the construction of democratic solutions to the conundrum of nation building and minority rights Talk of the Nation breaks new ground by focusing on both majority and minority political elites and parties in interethnic relations Csergo challenges arguments about the overwhelming importance of international influence Her book demonstrates that the role of domestic political actors in interethnic reconciliation is not merely that of compliance with international requirements or effectiveness in responding to external pressure they are largely guided by the internal democratic process

Baker, 2012-11-30 Analysing the issues of language that faced international forces carrying out peace operations in Bosnia Herzegovina in the 1990s this book examines how differences of language were an integral part of the conflicts in the country and in what way the multinational UN and NATO forces faced their own problems of communication and language support

In pursuit of societal harmony Ludmilla A?Beckett, Theodorus du Plessis, 2017-12-20 In pursuit of societal harmony Reviewing the experiences and approaches in officially monolingual and officially multilingual countries contains a selection of papers on language legislation that were presented at the International Conference on Language Policy in Multicultural and Multilingual Settings Mandalay Myanmar 8 11 February 2016 The editors both members of the International Academy of Language Law Acad mie internationale de droit linguistique brought together presentations that deal with language legislation and practices in Europe Asia Africa and North America The contributions show that the post communist trend in language policy has been vastly represented by attempts to eliminate the language and even the cultural legacy of the formerly hegemonic nation s in countries emerging after the collapse of the system In doing so officials in these countries tend to link the harmonisation of a diverse society with the idea of homogenising its population and prioritising the cultural legacy of the titular nation In contrast some post colonial countries are more tolerant of the language of their colonisers but consequently do not sufficiently promote the institutionalisation of their indigenous languages Furthermore the absence of visible efforts to follow any legal pattern in this regard often result in a communication gap between government and the various communities In pursuit of societal harmony therefore challenges from different perspectives the populist notion of one nation one language revealing the inherent shortcomings of attempting to establish unity through something as abstract as language without constructively addressing the actual and mostly gross inequalities and resulting divisions in many societies The contributions to this Proceedings suggest that by pursuing social harmony through an alleged common language many countries unwittingly emphasise social inequalities and division and even cultivate the basis for resistance Scholars that work in the field of language legislation and the sociology of language and readers interested in comparative studies will find the collection of papers presented in this Proceedings an interesting read
