

The background of the book cover is a photograph of a mountainous landscape. In the foreground, there is a village with many small, light-colored buildings, possibly made of stone or mud-brick, clustered together. The middle ground shows a steep, dark slope leading up to the mountains. The background features rugged, snow-capped mountain peaks under a clear sky. The overall scene suggests a high-altitude, mountainous region, likely in the Caucasus.

Language Aspects of Ethnic Patterns and Processes in the North Caucasus Ronald Wixman, 1980 The Peoples of the USSR Ronald Wixman, 1988-06 Language Aspects of Ethnic Patterns and Processes in the North Caucasus R. Wisman, 1987 *The Oxford Handbook of Languages of the Caucasus* Maria Polinsky, 2020-11-21 The Oxford Handbook of Languages of the Caucasus is an introduction to and overview of the linguistically diverse languages of southern Russia Georgia Azerbaijan and Armenia Though the languages of the Caucasus have often been mischaracterized or exoticized many of them have cross linguistically rare features found in few or no other languages This handbook presents facts and descriptions of the languages written by experts The first half of the book is an introduction to the languages with the linguistic profiles enriched by demographic research about their speakers It features overviews of the main language families as well as detailed grammatical descriptions of several individual languages The second half of the book delves more deeply into theoretical analyses of features such as agreement ellipsis and discourse properties which are found in some languages of the Caucasus Promising areas for future research are highlighted throughout the handbook which will be of interest to linguists of all subfields Endangered Languages of the Caucasus and Beyond , 2016-11-01 According to UNESCO it is believed that at least half of the nearly 7 000 languages spoken around the world will cease to be used within the next 100 years If this issue is neglected people will lose not only their cultural heritage but also invaluable understandings about the history of all humankind *Endangered Languages of the Caucasus and Beyond* includes the manuscripts of 19 papers that were presented at the 1st International CUA Conference on Endangered Languages organized by the Caucasus University Association CUA at Ardahan Turkey on 13 to 16 October 2014 The articles address issues such as the state of the field of documentation conservation and revitalization of endangered languages with special reference to the endangered languages in the Caucasus region and beyond The Chechens Amjad M. Jaimoukha, 2005 This volume provides a ready introduction and practical guide to the Chechen people including chapters on history religion politics economy culture literature and media *Sociolinguistic Perspectives on Soviet National Languages* Isabelle T. Kreindler, 2015-09-25 No detailed description available for Sociolinguistic Perspectives on Soviet National Languages *Intensive language contact in the Caucasus* Jesse Wichers Schreur, 2025-05-20 Tsova Tush is an East Caucasian language spoken in one single village in Eastern Georgia by approximately 300 speakers Since its early description scholars have been intrigued by the high degree of linguistic influence from the Georgian language This book has a threefold goal 1 To contribute to the overall description of the Tsova Tush language by filling gaps in the previous literature in absence of a reference grammar 2 To contrast Tsova Tush constructions with functionally equivalent constructions in Chechen and Ingush its closest relatives and with Georgian the language of wider communication which all Tsova Tush speakers speak as a second language in order to form hypotheses concerning which Tsova Tush construction is inherited and which has arisen under influence of Georgian 3 To provide the

most probable diachronic scenario of language contact by looking at historical Tsova Tush language data as well as at its historical sociolinguistics This book provides a basic description of Tsova Tush in particular in the domain of spatial cases which exhibit a two slot system similar to Daghestanian languages TAME categories indentifying a Iamitive and a Past Subjunctive developing indirect evidential semantics complex verbs and subordination and clause chaining which in Tsova Tush is finite In terms of language contact this book concludes that 1 Tsova Tush conforms to most established borrowing hierarchies and theories surrounding intensity of contact except for the borrowing of a verbal inflection marker in a remarkably early stage of contact 2 The Georgian influence that Tsova Tush shows in sources from the 1850 suggest that a notable increase in bilingualism occured already at a point where there was little institutional or numeral dominance of surrounding the Georgian language population A change in ethnic self identification can be the underlying factor for the early instances of contact induced change

Linguistic Diversity in Space and Time Johanna Nichols,2018-12-14 In this ground breaking book Johanna Nichols proposes means of describing comparing and interpreting linguistic diversity both genetic and structural providing the foundations for a theory of diversity based upon population science This book will interest linguists archaeologists and population specialists An awe inspiring book unequalled in scope originality and the range of language data considered Anna Siewierska Linguistics Fascinating A brilliant pioneering study Journal of Indo European Studies A superbly reasoned book John A C Greppin Times Literary Supplement

perfective paradigm and extensive use of spatial encoding for experiencers Although Mehweb is clearly close to the northern varieties of Dargwa it has been long isolated from the main body of Dargwa varieties by speakers of Avar and Lak As a result of both independent internal evolution and contact with its neighbours Mehweb developed some deviant properties including accusatively aligned egophoric agreement a split in the feminine class and the typologically rare grammatical categories of verificative and apprehensive But most importantly Mehweb is where our friends live

Nation, State, and Territory George W. White, 2007-04-26 Globalization seems to be making nation states increasingly irrelevant yet their number has continued to grow in recent years New nation states emerged out of the ruins of the Soviet Union and Yugoslavia more still may come as Palestinians Kurds Chechens and other peoples struggle tenaciously to establish their own Nation State and Territory shows that national identities are as potent as ever Today many conflicts rage over places and territories of historical linguistic and religious significance Many analyses however only consider the economic and geostrategic value of territory George W White shows that national identity is intimately bound to specific places and territories Nation state and territory are mutually defining and reinforcing phenomena and through careful analysis White examines their origins evolutions and relationships to provide a better understanding of the interactions and conflicts of the world's nation states

Research Guide to the Russian and Soviet Censuses Ralph S. Clem, 2016-11-01 Taken together the Russian census of 1897 and the Soviet censuses of 1926 1959 1970 and 1979 constitute the largest collection of empirical data available on that country but until the publication of this book in 1986 the daunting complexity of that material prevented Western scholars from exploiting the censuses fully This book is both a guide to the use of and a detailed index to these censuses The first part of the book consists of eight essays by specialist on the USSR six of them dealing with the use of census materials and the availability of data for research on ethnicity and language marriage and the family education and literacy migration and organization age structure and occupations The second part a comprehensive index for all the published census presents more than six hundred annotated entries for the census tables a keyword index that enables researchers to find census data by subject and a list of political administrative units covered in each census

Nationalism and Territory George W. White, 2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation's identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war
