Nairne,2002-07 The new edition of James Nairne s highly respected text offers all the content pedagogy and visual appeal that professors and students have come to expect from a successful introductory psychology text The third edition offers a comprehensive look at how psychology works in our everyday lives

This practical motivating text presents the standard subjects covered in an introductory course but connects them in a way that adds meaning and consistency to students study of psychology How does he do this By introducing students to the adaptive mind a theme based on the fact that our thoughts and actions stem from our need to adapt to our surroundings This unique framework supports practical applications and helps students understand how we use psychology to deal with everyday challenges Nairne emphasizes the ways particular behaviors thought processes and emotions help us solve problems from memorizing a telephone number to ducking under cover as a building begins to shake to producing a quick physical response in the face of traffic hazards Beneath the innovative approach you ll find ample coverage of all the traditional topics around which you build your course *Resources in Education* ,1999-10 Introduction to Psychology Dennis Coon,1998-08 In this revitalized redesigned and thoroughly updated Eighth Edition of his best selling text Dennis Coon once again presents psychology in a way readers will find fascinating relevant and above all accessible Professors and readers alike have found Coon s text not only interesting and easy to read but exceptionally easy to learn from Built into every chapter are a number of features that help readers grasp major concepts develop a broad understanding of psychology s diversity and see for themselves how psychology relates to the practical problems of everyday life Professors and readers appreciate the way that Dennis Coon speaks to his them His delight in the subject matter of psychology and in his own readers curiosity insights imagination and interest is apparent on every page While Coon reports the latest research the latest controversies and the key scientific content important to the course he does so with a sense of humor and an awareness of readers learning needs that set his book apart from any other in the field In a course where professors are frequently confronted by readers who haven t actually read their textbooks Coon s text offers a solution Coon effectively presents an approach that involves readers and gets them hooked on psychology and eager to read on Because readers become actively involved with the material they develop a basic understanding of psychology that they take with them into their future courses and careers Dennis Coon was the first textbook author to make effective use of cognitive principles to teach psychology by building each chapter around the SQ3R study reading formula survey question read recite and review Because SQ3R has been a part of the underlying structure of the text from its inception this proven method works better in Coon s text than in any of the many texts that have emerged over the years that have incorporated the SQ3R structure as and add on Curricular Needs of Slow Learners W. K. Brennan,2018-09-03 First published in 1979 This report discusses the existing practices of over 500 primary secondary and special schools with their special needs pupils The study outlines the variety of provisions facilities and equipment in the schools and the extent of use with slow learners It maps out the curricular activities in many organisational contexts and across all subject areas and discusses comparative strengths and weaknesses It relates the findings to the problems of improving the quality of education offered to slow learning pupils suggesting areas where improvement is needed and outlining possible new approaches **National Library of Medicine**

the language Through combining Complexity Science and Conversation Analysis this book explains how to simultaneously analyse spoken interaction on micro and macro scales Detailed analyses of L2 learners reveal them to be simultaneously expert in using the interaction engine and inexperienced in using the specific language The study shows that the basic characteristics of the interaction engine are the same as for other life related complex systems and that it is possible to access the perspectives of participants inside this complex adaptive system as it is evolving

**Sociocultural Theory and the Pedagogical Imperative in L2 Education** James P. Lantolf, Matthew E. Poehner, 2014-03-05 Explicating clearly and concisely the full implication of a praxis oriented language pedagogy this book argues for an approach to language teaching grounded in a significant scientific theory of human learning a stance that rejects the consumer approach to theory and the dichotomy between theory and practice that dominates SLA and language teaching This approach is based on Vygotsky's sociocultural theory according to which the two activities are inherently connected so that each is necessarily rooted in the other practice is the research laboratory where the theory is tested From the perspective of language education this is what is meant by the pedagogical imperative Sociocultural Theory and the Pedagogical Imperative in L2 Education Elaborates a new approach to dealing with the relationship between theory and practice an approach grounded in praxis the dialectical unity of theory and practice Presents an analysis of empirical research illustrating praxis based principles in real language classrooms Brings together cognitive linguistics and sociocultural theory the former provides the theoretical knowledge of language required of praxis and the latter furnishes the theoretical principles of learning and development also called for in a praxis approach Offers recommendations for redesigning teacher education programs Its timely focus on the theory practice gap in language education and its original approach to bridging it put this book at the cutting edge of thinking about Vygotskian sociocultural theory in applied linguistics and SLA
