Fern L. Johnson, 2000 *Speaking Culturally* examines the changing cultural demographics of the United States from a linguistic perspective. [Affirming Language Diversity in Schools and Society](#) Pierre Orelus, 2014-01-10 Language is perhaps the most common issue that surfaces in debates over school reform and plays a vital role in virtually everything we are involved in. This edited volume explores linguistic apartheid or the disappearance of certain languages through cultural genocide by dominant European colonizers and American neoconservative groups. These groups have historically imposed hegemonic languages such as English and French on colonized people at the expense of the native languages of the latter. The book traces this form of apartheid from the colonial era to the English only movement in the United States and proposes alternative ways to counter linguistic apartheid that minority groups and students have faced in schools and society at large. Contributors to this volume provide a historical overview of the way many languages labeled as inferior, minority, or simply savage have been attacked and pushed to the margins, discriminating against and attempting to silence the voice of those who spoke and continue to speak these languages. Further, they demonstrate the way and the extent to which such actions have affected the cultural life, learning process, identity, and the subjective and material conditions of linguistically and historically marginalized groups, including students. Major versus Minor? - Languages and Literatures in a Globalized World Theo D'haen, Iannis Goerlandt, Roger D. Linguistic Genocide or Superdiversity? Reetta Toivanen, Janne Saarikivi, 2016-07-26 Are we facing an immense wave of language death or a period of remarkable new linguistic variation Or both This book answers this question by analysing studies of language endangerment and loss along with those of language change revitalization and diversity Using case studies from Russia and the EU the authors compare historical language variation to that of the present day arguing that accelerated language extinction can be considered a result of colonization modernization and globalization but so too can many new creoles intertwined and mixed languages new ethnic identities new groups of urban dwellers or migrant groups all with their own distinct cultural traits The book therefore surmises that the linguistic heritage of today is simultaneously more endangered and more diverse than ever before
