Language, Identity, and Social Division Eliezer Ben Rafael, 2023 Focuses on linguistic resources and symbols which reflect and reveal the complex structure of class ethnic religious and national identities and cleavages in Israeli society The book draws on sociolinguistics to give a sociological account of social aspects of language Language, Identity, and Social Division Eliezer Ben Rafael, 1994 The shift to Hebrew as a national language is at the root of the creation of Israel yet many Jewish immigrants still use the language of their country of origin Ultra orthodox communities retain their own codes and the use of Arabic remains a clear marker of the Israeli Arab town and village At the same time Israel's position in international affairs has encouraged a wide penetration of the society along class lines by languages of world wide communication These very same languages for example English and French have different values in their local context and play active and different roles in the formation of social boundaries In his analysis Ben Rafael focuses on linguistic resources and symbols which reflect and reveal the complex structure of class ethnic religious and national identities and cleavages in Israeli society More generally he uses the Israeli case to show how sociolinguistic ideas may be related to sociological approaches to test some general sociological propositions about social aspects of language use **Language and Society in the Middle East and North Africa** Yasir Suleiman, 2013-12-19 This book investigates issues of central importance in understanding the role of language in society in the Middle East and North Africa In particular it covers issues of collective identity and variation as they relate to Arabic Berber English Persian and Turkish in the fields of gender national affiliation the debate over authenticity and modernity language reforms and language legislation In addition the book investigates how some of these issues are realized in the diaspora at both the micro and macro levels The Linguistic Landscape In Israel Through Palestinian Eyes Rawia Hayik, 2025-07-24 This book uses a sociolinguistic framework to explore how language serves as a marker of national identity in conflict zones focusing on the dystopian representation of Arabic as a minority language in Israel through the perspectives of Israeli Palestinian students Using a documentary photography research tool PhotoVoice minoritized college students from Northern Israel were invited to document and reflect on the signage in their area Content analysis of students reflections revealed not only a problematic linguistic reality in which the presence of Arabic was limited and inaccurate but also their experience of the space as local inhabitants The book chapters shed light on their profound perceptions and aspirations as passers by toward the mis representation of their native language in the country The contribution of the book lies in demonstrating the potential of the innovative tool PhotoVoice in developing awareness of the explicit and implicit messages delivered through linguistic landscapes It encourages action for achieving utopian more inclusive linguistic realities where minority languages are appropriately represented **The Languages of Israel** Bernard Spolsky, Elana Goldberg Shohamy, 1999 The practice and ideology of the treatment of the languages of Israel are examined in this book It asks about the extent to which the present linguistic pattern may be attributed to explicit language planning
