

Revived languages

- revived language is one that, having experienced near or complete extinction as either a spoken or written language, has been intentionally revived and has regained some of its former status.
- The most frequent reason for extinction is the marginalization of local languages within a wider dominant nation state, which might at times amount to outright political oppression.
- This process normally works alongside economic and cultural pressures for greater centralization and assimilation.
- Once a language has become marginalized in this way, it is often perceived as being "useless" by its remaining speakers, who associate it with low social status and poverty, and consequently fail to pass it on to the next generation.
 - Examples: Ainu, Belarusian, Hawaiian, Cornish, Hebrew, Latin, Maori, Sanskrit, Wampanoag

Global Portuguese Luiz Paulo Moita-Lopes, 2014-12-17 This book aims at deconstructing and problematizing linguistic ideologies related to Portuguese in late modernity and questioning the theoretical presuppositions which have led us to call Portuguese a language. Such an endeavor is crucial when we know that Portuguese is a language which is increasingly internationalized, used as the official language in four continents in ten countries and which has come to play a relevant role in the so-called linguistic market on the basis of the geopolitical transformations in a multipolar world. The book covers a wide range of social, political, and historical contexts in which Portuguese is used in Brazil, Canada, East Timor, England, Portugal, Mozambique, and Uruguay and considers diverse linguistic practices. Through this critique, contributors chart new directions for research on language ideologies and language practices, including research related to Portuguese and to other languages and consider ways of developing new conceptual compasses that are better attuned to the sociolinguistic realities of the late modern era in which people, texts, and languages are increasingly in movement through national borders and those of digital networks of communication.

Paradise Regain'd John Milton, 1795 Milton's Late Poems Lee Morrissey, 2022-08-25 Upending conventional scholarship on Milton and modernity, Lee Morrissey recasts *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes* as narrating three alternative responses to a world in upheaval, adjustment, avoidance, and antagonism. Through incisive engagement with narrative form and genre, Morrissey shows how each work, considered specifically as a fiction, grapples with the vicissitudes of a modern world characterised more by paradoxes, ambiguities, subversions, and shifting temporalities than by any rigid historical periodization. The interpretations made possible by this book are as invaluable as they are counterintuitive, opening new definitions and stimulating avenues of research for Milton students and specialists as well as for those working in the broader field of early modern studies. Morrissey invites us to rethink where Milton stands in relation to the greatest products of modernity and, in particular, to that most modern of genres, the novel.

The News Media At War Tarek Cherkaoui, 2017-01-30 Tarek Cherkaoui reveals how geo-political and ideological legacies of the past, which divide the world into a dichotomy of us against them, play a dominant role in reinforcing the ensuing polarisation of our media.

Poetry Kaleidoscope Nicolae Sfetcu, 2014-05-12 Introduction in poetry: nature of poetry, tools, history, terms, periods, styles, and movements; technical means, tropes, measures of verse, verse forms; national poetry. Poetry, ancient Greek *poiēō*. I create is traditionally a written art form, although there is also an ancient and modern poetry which relies mainly upon oral or pictorial representations in which human language is used for its aesthetic qualities in addition to, or instead of, its notional and semantic content. The increased emphasis on the aesthetics of language and the deliberate use of features such as repetition, meter, and rhyme are what are commonly used to distinguish poetry from prose, but debates over such distinctions still persist while the issue is confounded by such forms as prose poetry and poetic prose. Some modernists such as the Surrealists

approach this problem of definition by defining poetry not as a literary genre within a set of genres but as the very manifestation of human imagination the substance which all creative acts derive from

Sacramental Poetics at the Dawn of Secularism Regina Mara Schwartz, 2008-05-30 Sacramental Poetics at the Dawn of Secularism asks what happened when the world was shaken by challenges to the sacred order as people had known it an order that regulated both their actions and beliefs When Reformers gave up the doctrine of transubstantiation even as they held onto revised forms of the Eucharist they lost a doctrine that infuses all materiality spirituality and signification with the presence of God That presence guaranteed the cleansing of human fault the establishment of justice the success of communication the possibility of union with God and another and love These longings were not lost but displaced Schwartz argues onto other cultural forms in a movement from ritual to the arts from the sacrament to the sacramental Investigating the relationship of the arts to the sacred Schwartz returns to the primary meaning of sacramental as sign making noting that because the sign always points beyond itself it participates in transcendence and this evocation of transcendence of mystery is the work of a sacramental poetics
