James W. Tollefson,Amy B.M. educational issue of choice of language s of instruction medium of instruction policies are also linked to a range of important sociopolitical issues including globalization migration labor policy elite competition and the distribution of economic resources and political power The contributors to this volume examine the tension between the educational agendas and other social and political agendas underlying medium of instruction policies in different countries around the world and unravel the connections between these policies and the related critically important educational social political and economic issues Medium of Instruction Policies Which Agenda Whose Agenda is intended for scholars and specialists in education language policy sociolinguistics applied linguistics and language teaching and is intended for use in graduate and advanced undergraduate courses on language education and language policy

*From Foreign Language Education to Education for Intercultural Citizenship* Michael Byram,2008-05-27 This collection of essays and reflections starts from an analysis of the purposes of foreign language teaching and argues that this should include educational objectives which are ultimately similar to those of education for citizenship It does so by a journey through reflections on what is possible and desirable in the classroom and how language teaching has a specific role in education systems which have long had and often still have the purpose of encouraging young people to identify with the nation state Foreign language education can break through this framework to introduce a critical internationalism In a globalised and internationalised world the importance of identification with people beyond the national borders is crucial Combined with education for citizenship foreign language education can offer an education for intercultural citizenship
