Acrostic poem
write your own poem
space

Example:

Stars that twinkle, glow

Planets spinning night and day

Adventurers waiting in space

Comets streaking as they pass

Endless wonders beyond

Galactic Voyage

Sailing through the Milky Way,
A galaxy brightens the traveler's day.
Nebulas bloom in colors so rare,
Painting the cosmos with artistry and flair.

Comets streak like silver streams,
Chasing the edge of cosmic dreams.
Wonders endless, sights unknown,
In the galaxy, we're never alone.

Directions:

- ☐ Read the poem out loud.
- ☐ Circle the descriptive words about the galaxy and space phenomena (like "nebula," "comets").
- ☐ Imagine you're an astronaut—write a short paragraph about what you'd see on your voyage.

Journey among
the stars

As the engines roar,
Earth's gentle shore
Fades to black, stars align,
And their light divine.

In cosmic dance,
Of endless chance,
With a cratered face,
Explore its space.

Directions:

- ☐ Circle the words that describe the scene.
- ☐ Write a short story about where you'd go if you were an astronaut.

Language Of A Small Space Poetry:

Language of a Small Space Deirdre Sharett, 1980 *The Idea of the Avant Garde* Marc James Léger, 2019-10-15 The concept of the avant garde is highly contested whether one consigns it to history or claims it for present day or future uses The first volume of *The Idea of the Avant Garde And What It Means Today* provided a lively forum on the kinds of radical art theory and partisan practices that are possible in today's world of global art markets and creative industry entrepreneurialism This second volume presents the work of another 50 artists and writers exploring the diverse ways that avant gardism develops reflexive and experimental combinations of aesthetic and political praxis The manifest strategies temporalities and genealogies of avant garde art and politics are expressed through an international intergenerational and interdisciplinary convocation of ideas that covers the fields of film video architecture visual art art activism literature poetry theatre performance intermedia and music

Material Poetics in Hemispheric America Kosick Rebecca Kosick, 2020-09-04 Reconsiders the lyrical norm that predominates in Anglophone accounts of poetry through a multilingual and transnational lens A bold project that departs from a tradition heavily dominated by the lyric to question the very nature of what counts as poetry A visually exciting text that draws on poetry and art from a wide array of late twentieth and early twenty first century practitioners An interdisciplinary approach to poetry and poetics that opens new avenues for understanding how poetry intersects with philosophies of the object media theory and visual studies A transnational frame that responds to a growing scholarly push to situate American studies within the broader context of the American hemisphere This book examines poets and artists in the Americas during the late twentieth and early twenty first centuries to show how they worked to make language into material objects and material objects into language It builds a theory of material poetics that provides an alternative account of poetry in hemispheric America Rebecca Kosick argues that by reframing American poetry to prominently include object oriented practices within and beyond the United States material poetry can be seen as representing a significant branch of the American poetic tradition *Rewriting Early America* Christopher K. Coffman, 2018-11-27 Recent poems and fictions set in the early Americas are typically read as affirmations of cultural norms as evidence of the impossibility of genuine engagement with the historical past or as contentious repudiations of received histories Inspired particularly by Mihai Spărosu's arguments regarding literary playfulness as an opening to peace *Rewriting Early America: The Prenational Past in Postmodern Literature* adopts a different perspective with the goal of demonstrating that many recent literary texts undertake more constructive and hopeful projects with regard to the American past than critics usually recognize While honoring writers' pervasive critiques of hegemony this volume trades a preoccupation with antagonism for an interest in restoration and recuperation It describes how texts by John Barth John Berryman Susan Howe Toni Morrison Paul Muldoon Thomas Pynchon and William T Vollmann harness the ambiguities of the colonial past to find sociocultural possibilities that operate beyond the workings of power and outside the politics of

difference Throughout this book remains devoted to uncovering the moments at which contemporary writers proffer visions of American communities defined not by marginalization and oppression but by responsive understanding and inclusion

Finkin,2015-06-19 In literary modernism time and space are sometimes transformed from organizational categories into aesthetic objects a transformation that can open dramatic metaphorical and creative possibilities In *An Inch or Two of Time* Jordan Finkin shows how Jewish modernists of the early twentieth century had a distinct perspective on this innovative metaphorical vocabulary As members of a national ethnic religious community long denied the rights and privileges of self determination with a dramatically internalized sense of exile and landlessness the Jewish writers at the core of this investigation reimagined their spatial and temporal orientation and embeddedness They set as the fulcrum of their imagery the metaphorical power of time and space Where non Jewish writers might tend to view space as a given an element of their own sense of belonging to a nation at home in a given territory the Jewish writers discussed here spatialized time they created an as if space out of time out of history They understood their writing to function as a kind of organ of perception on its own Jewish literature thus presents a particularly dynamic system for working out the implications of that understanding and as such this book argues it is an indispensable part of the modern library Pope, Print, and Meaning J.
