Language Of Cannibals:

The Language of Cannibals George C. Chesbro, 2017-10-31 A circus performer turned PI uncovers dark secrets in a Hudson River town in this novel of bloodcurdling adventure and genuine suspense Publishers Weekly With a genius IQ a past career as a circus acrobat and a black belt in karate criminology professor Dr Robert Frederickson better known as Mongo the Magnificent has a decidedly unusual background for a private investigator He also just so happens to be a dwarf When his friend FBI agent Michael Burana suspiciously drowns in the small town of Cairn New York Mongo s pursuit of the truth takes him up the Hudson River to the scene of the crime Long known as a village populated by artists intellectuals and writers Cairn has recently become home to ultraconservative political commentator Elysius Culhane whose autobiography title If You re Not Right You re Wrong is less a pun than a personal manifesto Mongo couldn t care less about politics but there s something about Culhane that just isn t right And as Mongo and his brother Garth attempt to discern the real reason for Agent Burana s death they will uncover a conspiracy that could leave them both swimming with the fishes The Language of Cannibals is the 8th book in the Mongo Mysteries but you may enjoy reading the series in any order

Hitler, Religion and Other Types of Cannibals Dr Donald J. Phillips, 2012-05-09 When the author started writing this book it was to be about living amongst the cannibals of the Kukukuku people of Papua New Guinea Nevertheless the longer he worked in that country he began to realize that there were many types of cannibals there For instance there were those people who ate other people then there were people who dug up their dead and ate them then there were people who only ate the brains of their leaders and so on Many of these people would be horrified by the practices of other types of cannibals and many of them had different reasons for doing what they did As the story emerged the author then realized that other people around the world practised cannibalism in a symbolic way or their actions might be described as all consuming or cannibalistic In all as a result of his research he came up with 11 different types of cannibals and that throughout his life he had actually encountered and suffered from these types of cannibals His twelve years of living amongst the people of Papua New Guinea his university qualifications including a BA Hon Dip Ed MA and a PhD plus 20 years in university teaching and research make him more than adequately qualified to write this book

Reading Sounds Sean Zdenek, 2015-12-23 Imagine a common movie scene a hero confronts a villain Captioning such a moment would at first glance seem as basic as transcribing the dialogue But consider the choices involved How do you convey the sarcasm in a comeback Do you include a henchman s muttering in the background Does the villain emit a scream a grunt or a howl as he goes down And how do you note a gunshot without spoiling the scene These are the choices closed captioners face every day Captioners must decide whether and how to describe background noises accents laughter musical cues and even silences When captioners describe a sound or choose to ignore it they are applying their own subjective interpretations to otherwise objective noises creating meaning that does not necessarily exist in the soundtrack or the script Reading Sounds looks at closed captioning as a potent source

of meaning in rhetorical analysis Through nine engrossing chapters Sean Zdenek demonstrates how the choices captioners make affect the way deaf and hard of hearing viewers experience media He draws on hundreds of real life examples as well as interviews with both professional captioners and regular viewers of closed captioning Zdenek s analysis is an engrossing look at how we make the audible visible one that proves that better standards for closed captioning create a better entertainment experience for all viewers

Cannibal Talk Gananath Obeyesekere, 2005-06-06 In this radical reexamination of the notion of cannibalism Gananath Obeyesekere offers a fascinating and convincing argument that cannibalism is mostly cannibal talk a discourse on the Other engaged in by both indigenous peoples and colonial intruders that results in sometimes funny and sometimes deadly cultural misunderstandings Turning his keen intelligence to Polynesian societies in the early periods of European contact and colonization Obeyesekere deconstructs Western eyewitness accounts carefully examining their origins and treating them as a species of fiction writing and seamen s yarns Cannibalism is less a social or cultural fact than a mythic representation of European writing that reflects much more the realities of European societies and their fascination with the practice of cannibalism he argues And while very limited forms of cannibalism might have occurred in Polynesian societies they were largely in connection with human sacrifice and carried out by a select community in well defined sacramental rituals Cannibal Talk considers how the colonial intrusion produced a complex self fulfilling prophecy whereby the fantasy of cannibalism became a reality as natives on occasion began to eat both Europeans and their own enemies in acts of conspicuous anthropophagy

From Cannibals to Radicals Roger Célestin, 1996 The objective to this study is essentially to arrive at a view of exoticism as a relation between Western Self and exotic Other that is fluctuatingly tenuous or strong depending on the narrating subject s position vis a vis a point of departure and return that I have alternately called Home Center and audience
