Wyżga**

Languages And Communities In Early Modern Europe:

Languages and Communities in Early Modern Europe Peter Burke, 2004-09-16 This book is a cultural history of European languages from the invention of printing to the French Revolution

Languages and Communities in Early Modern Europe Peter Burke, 2014-05-14 This 2004 book is a cultural history of European languages from the invention of printing to the French Revolution

Early Modern European Diplomacy Dorothee Goetze, Lena Oetzel, 2023-12-31 New Diplomatic History has turned into one of the most dynamic and innovative areas of research especially with regard to early modern history It has shown that diplomacy was not as homogenous as previously thought On the contrary it was shaped by a multitude of actors practices and places The handbook aims to characterise these different manifestations of diplomacy and to contextualise them within ongoing scientific debates It brings together scholars from different disciplines and historiographical traditions The handbook deliberately focuses on European diplomacy although non European areas are taken into account for future research in order to limit the framework and ensure precise definitions of diplomacy and its manifestations This must be the prerequisite for potential future global historical perspectives including both the non European and the European world

Managing Mobility in Early Modern Europe and its Empires Katja Tikka, Lauri Uusitalo, Mateusz Wyzga, 2023-12-16 This book examines how migration and mobility were controlled supported and restricted in early modern Europe and European colonies The aim of the book is to investigate how different actors such as rulers regional lords local authorities and corporations tried to regulate different forms of mobility and how those on the move reacted to these attempts The book examines the agency of both the authorities and the migrants shifting focus between the macro and the micro level The chapters will also illuminate the ways gender religion language ethnicity occupation and socioeconomic status were entangled in the regulations concerning mobility Control of migration is inextricably linked with power relations In this book mobility is seen as a wide social process which covers daily or seasonal movement as well as less or more stable migration

Multilingual Texts and Practices in Early Modern Europe Peter Auger, Sheldon Brammhall, 2023-02-15 This collection offers a cross disciplinary exploration of the ways in which multilingual practices were embedded in early modern European literary culture opening up a dynamic dialogue between contemporary multilingual practices and scholarly work on early modern history and literature The nine chapters draw on translation studies literary history transnational literatures and contemporary sociolinguistic research to explore how multilingual practices manifested themselves across different social cultural and institutional spaces The exploration of a diverse range of contexts allows for the opportunity to engage with questions around how individual practices shape national and transnational language practices and literatures the impact of multilingual practices on identity formation and their implications for creative innovations in bilingual and multilingual texts Taken as a whole the collection paves the way for future conversations on what early modern literary studies and present day multilingualism research might learn from one

another and the extent to which historical texts might supply precedents for contemporary multilingual practices This book will be of particular interest to students and scholars in sociolinguistics early modern studies in history and literature and comparative literature Bilingual Europe Jan Bloemendal,2015-03-13 Bilingual Europe makes clear that Latin played an

important role in European culture for a much longer period than we thought and it explores how and why this was so A Political Philosophy of Language and State Xing Yu,2025-02-12 This book is a study of political philosophy concerning the relationship between language and state It argues that language gives origin to the state Its main idea is that while humans communicate using language they create and use media Media extend the distance of communication These media include humans themselves materials human behaviour and consciousness Humans then interact on a large scale and form a large community This leads to the dissolution of the tribe and the formation of the state Then people seek and provide information give interpretations display attitudes and make promises in organizing the state Some people also issue commands They all act through the various types of linguistic communication Language is also the key to realizing freedom equality peace democracy and justice This book can be a reference book of political philosophy or political science or political linguistics to be read by university students and professors alike **Latin at the Crossroads of Identity** Gábor Almási,Lav

Šubarić,2015-07-14 From the late 18th century in the multi ethnic Kingdom of Hungary new language based national identities came to dominate over those that had previously been constructed on legal territorial or historical basis While the Hungarian language struggled to emancipate itself the roles and functions of Latin the official language until 1844 were changing dramatically Latin held a different significance for varying segments of society from being the essential part of an individual identity to representing an obstacle to national survival from guaranteeing harmony between the different linguistic communities to hindering change social and political justice This pioneering volume aims to highlight the ways language debates about Latin and Hungarian contributed to the creation of new identities and ideologies in Central Europe Contributors include G bor Alm si Per Pippin Aspaas Piroska Balogh Henrik H nich L szl Kontler Istv n Marg csy Alexander Maxwell Ambrus Miskolczy Levente Nagy Nenad Ristovi Andrea Seidler Teodora Shek Brnardi Zvezdana Sikiri Assouline and Lav ubari **Vernacular Languages and Dialects: Oxford Bibliographies Online Research Guide** Oxford University

Press,2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of

European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com

The Place of the Social Margins, 1350-1750 Andrew Spicer, Jane L. Stevens Crawshaw, 2016-08-12 This interdisciplinary volume illuminates the shadowy history of the disadvantaged sick and those who did not conform to the accepted norms of society It explores how marginal identity was formed perceived and represented in Britain and Europe during the medieval and early modern periods It illustrates that the identities of marginal groups were shaped by their place within primarily urban communities both in terms of their socio economic status and the spaces in which they lived and worked Some of these groups such as executioners prostitutes pedlars and slaves performed a significant social and economic function but on the basis of this were stigmatized by other townspeople Language was used to control and limit the activities of others within society such as single women and foreigners as well as the victims of sexual crimes For many such as lepers and the disabled marginal status could be ambiguous cyclical or short lived and affected by key religious political and economic events Traditional histories have often considered these groups in isolation Based on new research a series of case studies from Britain and across Europe illustrate and provide important insights into the problems faced by these marginal groups and the ways in which medieval and early modern communities were shaped and developed

The Dutch Language in Japan (1600-1900) Christopher Joby, 2020-12-29 In The Dutch Language in Japan 1600 1900 Christopher Joby offers the first book length account of the knowledge and use of the Dutch language in Tokugawa and Meiji Japan For most of this period the Dutch were the only Europeans permitted to trade with Japan Using the analytical tool of language process this book explores the nature and consequences of contact between Dutch and Japanese and other language varieties The processes analysed include language learning contact and competition code switching translation lexical syntactic and graphic interference and language shift The picture that emerges is that the multifarious uses of Dutch especially the translation of Dutch books would have a profound effect on the language society culture and intellectual life of Japan

Nationalism Eric Storm, 2024-10-29 A global perspective on the nature and evolution of nationalism from the early modern era to the present The current rise of nationalism across the globe is a reminder that we are not after all living in a borderless world of virtual connectivity In Nationalism historian Eric Storm sheds light on contemporary nationalist movements by exploring the global evolution of nationalism beginning with the rise of the nation state in the eighteenth century through the revival of nationalist ideas in the present day Storm traces the emergence of the unitary nation state which brought citizenship rights to some while excluding a multitude of others and the pervasive spread of nationalist ideas through politics and culture Storm shows how nationalism influences the arts and humanities mapping its dissemination through newspapers television and social media Sports and tourism too have helped fashion a world of discrete nations each with its own character heroes and highlights Nationalism saturates the physical environment not only in the form of national museums and patriotic statues

but also in efforts to preserve cultural heritage create national parks invent ethnic dishes and beverages promote traditional building practices and cultivate native plants Nationalism has even been used for selling cars furniture and fashion By tracing these tendencies across countries Storm shows that nationalism's watershed moments were global He argues that the rise of new nation states was largely determined by shifts in the international context that the relationships between nation states and their citizens largely developed according to global patterns and that worldwide intellectual trends influenced the nationalization of both culture and environment Over the centuries nationalism has transformed both geopolitics and the everyday life of ordinary people *Polyglot Texts and Translations in Early Modern Europe*, 2025-02-27

Early modern culture was multilingual and so were many of the works produced across Europe and beyond its borders The contributors to this volume draw new interrelations between different humanistic traditions and multilingual and translational writing practices using a wide range of primary sources documents produced in Norwich scientific treatises by Galileo and Stevin travel accounts and dictionaries by James Howell translations and retranslations of Antoine de Nervèze's moral letters Aljamiado documents and short comic plays in Spain Jesuit pedagogical theater in New France grammars dictionaries and historiographical accounts in missionary contexts and a mining law code in South Central Europe that highlight the significance of polyglossia in early modern cultural production and transmission Covering a wide range of languages including Latin Nahuatl and Turkish their analysis invites comparison with today's polyglot practices in a globalized world as we also adapt to new technologies and ever changing realities **The Oxford Handbook of the**

History of Nationalism John Breuilly, 2013-03-07 The Oxford Handbook of the History of Nationalism comprises thirty six essays by an international team of leading scholars providing a global coverage of the history of nationalism in its different aspects ideas sentiments and politics Every chapter takes the form of an interpretative essay which by a combination of thematic focus comparison and regional perspective enables the reader to understand nationalism as a distinct and global historical subject The book covers the emergence of nationalist ideas sentiments and cultural movements before the formation of a world of nation states as well as nationalist politics before and after the era of the nation state with chapters covering Europe the Middle East North East Asia South Asia Southeast Asia sub Saharan Africa and the Americas Essays on everyday national sentiment and race ideas in fascism are accompanied by chapters on nationalist movements opposed to existing nation states nationalism and international relations and the role of external intervention into nationalist disputes within states In addition the book looks at the major challenges to nationalism international socialism religion pan nationalism and globalization before a final section considering how historians have approached the subject of nationalism Taken separately the chapters in this Handbook will deepen understanding of nationalism in particular times and places taken together they will enable the reader to see nationalism as a distinct subject in modern world history Language and State Xing Yu, 2021-12-21 Language and State A Theory of the Progress of Civilization Second Edition argues that the state

takes form because of language It argues that since humans began to use language they have been able to create and use media Media include materials human behavior human consciousness and humans themselves Media extend the distance of linguistic communication and then humans interact with one another on a large scale and form themselves into a large community This leads to the formation of the state and the dissolution of tribes Linguistic communication then structures human interactions in the formation of the state Humans exchange information with one another give interpretations display attitudes and make promises to one another They even allow for one person to issue commands to all others Humans organize the state in various types of linguistic interaction which further create a condition for the formation of the common interest of all a foundation for the building of the state Then humans rationalize the organization of the state in extending the distance of linguistic communication Humans realize freedom equality peace democracy and justice in their mutual linguistic interactions Language gives origin to the state and sustains the development of the state Language has preset the whole process of the progress of human civilization

Lost in Translation, Found in Transliteration Alex Kerner, 2018-06-12 In *Lost in Translation Found in Transliteration* Alex Kerner examines London's Spanish Portuguese Jews congregation in the seventeenth and eighteenth centuries as a community that delineated its identity not only along ethnic and religious lines but also along the various languages spoken by its members By zealously keeping Hebrew and Spanish for prayer and Portuguese for community administration generations of wardens attempted to keep control over their community alongside a tough censorial policy on book printing Clinging to the Iberian languages worked as a bulwark against assimilation adding language to religion as an additional identity component As Spanish and Portuguese speaking generations were replaced with younger ones English permeated daily and community life intensifying assimilationist trends His focus on books as an indicator of the importance of language in the London community is well presented and Kerner's clear description of the varying uses of Spanish Portuguese and Hebrew and later English by the Sephardim in London gives a good survey of the changes in the community over the 150 years covered by the book Highly recommended Michelle Chesner Columbia University in Association of Jewish Libraries News and Reviews 1 1 2019 Alex Kerner's admirable study is a valuable contribution to our knowledge of the interrelationships between language and censorship and their maintenance of community identity Barry Taylor The British Library London in *Bulletin of Spanish Studies* 96 2019 This volume is a significant contribution to the well researched history of the Spanish and Portuguese Jews of London providing a clear and nuanced in depth analysis of the reasons for and history of its censorship policy Wendy Filer King's College London UK in *Journal of Jewish Studies* 70 2 2019

The Ashgate Research Companion to the Counter-Reformation Dr Alexandra Bamji, Dr Geert H Janssen, Dr Mary Laven, 2013-04-28 The *Ashgate Research Companion to the Counter Reformation* presents a comprehensive examination of recent scholarship on early modern Catholicism in its many guises It examines how the Tridentine reforms inspired conflict and conversion and evaluates lives and identities spirituality culture and religious change

This wide ranging and original research guide is a unique resource for scholars and students of European and transnational history **The roots of nationalism** Lotte Jensen, 2016-04-15 This collection brings together scholars from a wide range of disciplines to offer perspectives on national identity formation in various European contexts between 1600 and 1815 Contributors challenge the dichotomy between modernists and traditionalists in nationalism studies through an emphasis on continuity rather than ruptures in the shaping of European nations in the period while also offering an overview of current debates in the field and case studies on a number of topics including literature historiography and cartography

Linguistics, Language Education, and Language Contact Barbara Lewandowska-Tomaszczyk, **The Oxford Handbook of Language Policy and Planning** James W. Tollefson, Miguel Pérez-Milans, 2018-05-07 This Handbook provides a state of the art account of research in language policy and planning LPP Through a critical examination of LPP the Handbook offers new direction for a field in theoretical and methodological turmoil as a result of the socio economic institutional and discursive processes of change taking place under the conditions of Late Modernity Late Modernity refers to the widespread processes of late capitalism leading to the selective privatization of services including education the information revolution associated with rapidly changing statuses and functions of languages the weakening of the institutions of nation states along with the strengthening of non state actors and the fragmentation of overlapping and competing identities associated with new complexities of language identity relations and new forms of multilingual language use As an academic discipline in the social sciences LPP is fraught with tensions between these processes of change and the still powerful ideological framework of modern nationalism It is an exciting and energizing time for LPP research This Handbook propels the field forward offering a dialogue between the two major historical trends in LPP associated with the processes of Modernity and Late Modernity the focus on continuity behind the institutional policies of the modern nation state and the attention to local processes of uncertainty and instability across different settings resulting from processes of change The Handbook takes great strides toward overcoming the long standing division between top down and bottom up analysis in LPP research setting the stage for theoretical and methodological innovation Part I defines alternative theoretical and conceptual frameworks in LPP emphasizing developments since the ethnographic turn including ethnography in LPP historical discursive approaches ethics normative theorizing and transdisciplinary methods and the renewed focus on socio economic class Part II examines LPP against the background of influential ideas about language shaped by the institutions of the nation state with close attention to the social position of minority languages and specific communities facing profound language policy challenges Part III investigates the turmoil and tensions that currently characterize LPP research under conditions of Late Modernity Finally Part IV presents an integrative summary and directions for future LPP research

Unveiling the Magic of Words: A Review of "**Languages And Communities In Early Modern Europe**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring. Enter the realm of "**Languages And Communities In Early Modern Europe**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book's central themes, examine its distinctive writing style, and assess its profound affect on the souls of its readers.
