Demythologizing Celibacy William

Skudlarek, 2017-06-15 When St Benedict compiled his Rule for Monasteries in the early decades of the sixth century the Buddhist monastic code had already been in existence for about nine hundred years Since monastic life is shaped by spiritual practices that are very similar across different religious traditions it should not be too much of a stretch to suggest that Christians can learn from the accumulated wisdom of Buddhist monasticism For Buddhists celibacy accompanied by skillful reflection on their personal reactions to it is a means of letting go of attachment to sensory pleasure Buddhist monks do not marry they strive to relinquish the desire for sexual pleasure because this form of gratification obstructs the one pointed stillness that leads to insight For Christians celibacy like marriage is ultimately about love responding to God's love for us and expressing selfless love for others In light of the Christian understanding of marriage as an authentic indeed the ordinary path to holiness Skudlarek proposes a demythologized view of celibacy presenting it as an alternate and equally valid spiritual practice for those who choose not to accept the demands of a committed sexual relationship Drawing on the monastic interreligious dialogue Skudlarek considers the Buddhist view of celibacy which is not mythologized as a response to a divine call or as a superhuman way of life He examines their regard for it as simply and profoundly a path to freedom peace and happiness As Christians become aware of the benefits of celibacy for monks who observe it without reference to the Gospel they may be able to appreciate all the more its importance and value for those who wish to follow Christ as celibates and in this way come to share in the freedom of the children of God

Theology as Autobiography Colby

Dickinson, 2020-03-17 Autobiographical writings on faith frequently come from the lives of ordinary persons whose struggles with faith are often lived at the margins of the church academy and society Yet these voices have the potential to reshape the ways in which each of these fields function To find out what it means to stand before God with all of one's humanity on display is to engage in not only the act of confession but to demonstrate a bold theological reflection that needs to be more explicitly understood By turning to spiritual autobiographies as theological source texts we learn to place our emphasis where it matters most on the people whose lives of faith move us deeply and cause us to re-examine our own lives in light of their witness Moving through a range of ancient early modern and contemporary spiritual writers in order to demonstrate a profound connection that unites them all this book portrays how a critical self-examination of one's most personal internal fractures our poverty as it were is the only way to develop a life of faith the dual meaning of the word confession which expresses both a revealing of one's sins or brokenness and the articulation of what one believes
