Fog Is Secret:

The Fog is Secret ,1968 **The Secret** Regan Taylor, After leading a pretty staid and frankly boring life Drusilla Montgomery lands the job of her dreams working as an assistant to her all time forever favorite romance writer Gabrielle George Gabrielle s assistant Justin Hunt is also a slice of Dru s dreams tall dark handsome and with a nice set of pecs and buns Night after night they work side by side answering fan mail proofreading manuscripts and keeping up the famed author s social media sites For Dru this is more than a job With the death of her strict and controlling mother a woman very much like the starchy housekeeper in a dark gothic Dru finally has a chance to pursue the life of her own dreams Traveling from the sleepy cities of Marin County California over the Golden Gate bridge to Gabrielle s Victorian seems like entering an entire new world Like the fog lifting over San Francisco bay Dru s life takes on new color Even when her mother reaches out from the grave in the guise of her attorney who threatens to take her home from her Dru remains undaunted As she gets deeper into the job however questions are raised about her oh so handsome co worker Justin He is never seen in daylight he doesn t eat and there are no mirrors in the elegant Victorian they work in Is she working with a vampire or just a guy with a quirky personality And if he is a vampire is Dru ready to say bite me **The Secret Foe** Ellen Pickering,1845 *Secret Histories*

Kathleen Diffley,Caroline Gebhard,Cheryl Torsney,2025-03-15 The eighteen essays in this volume explore Constance Fenimore Woolson s prodigious range of place from the Great Lakes to the defeated South and across storied Europe to the Mediterranean Her achievements come alive in this enlightening collection shedding light on the full scope of her professional writing career The first section A Writer s Experiments reveals that Woolson s play with familiar genres and unfamiliar characters began during the 1870s and extended until she died in 1894 Consistently she tested the limits of representing women s labor and their erotic desires The second section Postbellum Souths follows Woolson s travels through a land ravaged by war and injustice Drawing on theories of travel collective memory the Lost Cause religious controversy and a race bound region these essays expose both the smugness of visitors and the agendas of residents that Woolson was among the first postwar writers to portray The third section Through an International Lens considers expatriate perceptions of European and Mediterranean cultures as well as misconceptions about the Gilded Age United States Here and throughout this volume accounts of Woolson s travel sketches mingle with those of her fiction and poetry while her encounters with the writing of other Americans demonstrate how regularly Woolson made her century s literary terrain more subtle and complex

The Secret World of Weather Tristan Gooley,2023-02-28 Learn to see the forecast in the hidden weather signs all around you from the New York Times bestselling author of *How to Read a Tree* and *The Lost Art of Reading Nature s Signs* In *The Secret World of Weather* bestselling author Tristan Gooley turns his gaze up to the sky bringing his signature brand of close observation and eye opening deduction to the fascinating world of weather Every cloud every change in temperature every raindrop every sunbeam every breeze reveals something about our weather if you know what to look for Before you

know it you ll be able to forecast impending storms sunny days and everything in between all without needing to consult your smartphone But The Secret World of Weather goes far beyond mere weather prediction changing the very way we think about weather itself Weather is not something that blankets an area rather it changes constantly as you walk through woods or turn down a street The weather is never identical on two sides of a tree or even beneath it Take for example Gooley s remarkable discovery that breezes accelerate beneath a tree To Gooley this is weather a tiny microclimate that explains why people sit beneath a tree to cool down not only for the shade but subconsciously for cooler breeze And so Gooley shows us not only what the weather will be like five days from now but also what to expect about the weather around every corner By carefully observing the subtle interplay of wind cloud fog temperature rain and many other phenomena we not only form a deeper understanding of weather patterns but also unlock secrets about our environment Weather forms our landscape and landscape forms our weather Everything we see in the sky reflects where we are When we learn to read weather s signs Gooley shows us the weather becomes our map revealing to us how it has made our towns cities woods and hills what they are You ll never see your surroundings the same way again **Secret Soldiers of the Second Army** Leslie A.

Chapman,2011-04-29 The book starts out picturing a young man who foolishly wants to go to war where he in visions himself receiving all these high class medals for heroism but never once taking into account what it is going to take physically and mentally to get those medals Hes constantly playing a head game within himself and those that surround him He like so many other young men of past eras are trying to be something that theyre not and that small initial lie grows into a tremendous reputation that he has to live with and soon regrets that hes known by such Come walk with the author and his brothers of the sword through the dark humid unforgiving jungles of Vietnam and experience the death destruction and mental sacrificial anguish they had to endure Come see why you fear being alone in the denseness of a jungle or a forest that you have never entered before Feel the heat of the Asian jungle floor intermixed with the leaches ants mosquitoes snakes and humans searching you out only to destroy you at any cost You see our author starts out innocently enough but soon finds out that war is not only a physical hardship demanding its pounds of flesh but also is a horrendous mental agonizing hazard from which there is only one means of escape and or retreat That means to an end is death Yes the author and his brothers of the sword will take their heroic missions and sacrificial allegiances to the grave with them But the real tragedy of it all is no one really cares about them in the first place For they were and still are the Secret Soldiers of the Second Army willing to go anywhere any time to do the impossible for the ungrateful The Hidden Sovereign 3 Ethan,2024-12-24 **The Quest**

The National Security Sublime Matthew Potolsky,2019-03-27 Why do recent depictions of government secrecy and surveillance so often use images suggesting massive size and scale gigantic warehouses remote black sites numberless security cameras Drawing on post War American art film television and fiction Matthew Potolsky argues that the aesthetic of the sublime provides a privileged window into the nature of modern intelligence a way of describing the curiously open secret of covert operations The book tracks the development of the national security sublime from the Cold War to the War on Terror and places it in a long history of efforts by artists and writers to represent political secrecy
