Marks, 2021-03-09 For many Southern men living in or close to rural landscapes hunting is a passion But it is not a timeless activity in a cultural void Whether pursuers of fox or raccoon deer or rabbits quail or dove Southern hunters reveal for Stuart Marks complex patterns of male bonding social status and relationships with nature Marks who has written two outstanding books on hunting in Africa was born and has long lived in the South Examining Southern hunting from frontier times through the antebellum era to the present day he shows it to be a litmus test of rural identity Drawing on the latest anthropological theory statistical sources extensive interviews and historical research Marks has crafted a multifaceted account of Southern hunting Relations of race property

gender and region appear in fresh guises in this innovative and intriguing study The portrayal of the contemporary state of hunting is especially interesting revealing both the continuities with the past and the new pressures on the sport Virginia Quarterly Review     The Lifeways of Hunter-Gatherers Robert L. Kelly, 2013-04-15 In this book Robert L Kelly challenges the preconceptions that hunter gatherers were Paleolithic relics living in a raw state of nature instead crafting a position that emphasizes their diversity and downplays attempts to model the original foraging lifeway or to use foragers to depict human nature stripped to its core Kelly reviews the anthropological literature for variation among living foragers in terms of diet mobility sharing land tenure technology exchange male female relations division of labor marriage descent and political organization Using the paradigm of human behavioral ecology he analyzes the diversity in these areas and seeks to explain rather than explain away variability and argues for an approach to prehistory that uses archaeological data to test theory rather than one that uses ethnographic analogy to reconstruct the past
