Footprints Benjamin Grossman, 2013-02-01 The Land Without Footprints Shadows Amongst Shadows is set in the Modern Middle Ages the age after the ages of Earth when humans inhabit a planet where unbeknownst to them the moons control every action What remains of the Earth is confined to books In fact many have decided to live by the rules of those books once called fiction But no fiction or reality rules over the Mystic He rules by only two laws obey his desires and obey your desires His desires are twofold virgins and immortality However the desires of his subjects are as wicked as ever known But the Dagens a family rooted in the old ways of society cannot give into their desires They cannot kill just to kill hate just to hate destroy just to destroy Yet if society is to become what it once was the Dagens must destroy freedom and place chains around those who no longer wish to be chained **Introduction to Remote Sensing** James B. Campbell, 2002 This

comprehensive introductory text presents a timely overview of the most widely used forms of remote sensing imagery and their applications in plant sciences hydrology earth sciences and land use analysis Wallace Stevens and Pre-Socratic Philosophy Daniel Tompsett, 2012-09-10 This book studies Wallace Stevens and pre Socratic philosophy showing how concepts that animate Stevens poetry parallel concepts and techniques found in the poetic works of Parmenides Empedocles and Xenophanes and in the fragments of Heraclitus Tompsett traces the transition of pre Socratic ideas into poetry and philosophy of the post Kantian period assessing the impact that the mythologies associated with pre Socratism have had on structures of metaphysical thought that are still found in poetry and philosophy today This transition is treated as becoming increasingly important as poetic and philosophic forms have progressively taken on the existential burden of our post theological age Tompsett argues that Stevens poetry attempts to play its audience into an ontological ground in an effort to show that his reduction of metaphysics is not dry philosophical imposition but is enacted by our encounter with the poems themselves Through an analysis of the language and form of Stevens poems Tompsett uncovers the mythology his poetry shares with certain pre Socratics and with Greek tragedy This shows how such mythic rhythms are apparent within the work of Friedrich Nietzsche Martin Heidegger and Hans Georg Gadamer and how these rhythms release a poetic understanding of the violence of a reduction of metaphysics **The Travel Book** Lonely Planet, 2016-10-01 Lonely Planet The world's leading travel guide publisher Take a journey through every country in the world 850 images 230 countries One complete picture With details of every United Nations approved country in the world and a few more principalities and dependencies besides

Neighborhoods Reed Ueda, 2017-09-21. A unique panoramic survey of ethnic groups throughout the United States that explores the diverse communities in every region, state, and big city. Race, ethnicity, and immigrants' lives and identity: these are all key topics that Americans need to study in order to fully understand U.S. culture, society, politics, economics, and history. Learning about place through our own historical and contemporary neighborhoods is an ideal way to better grasp the important role of race and ethnicity in the United States. This reference work comprehensively covers both historical and contemporary ethnic and immigrant neighborhoods through A-Z entries that explore the places and people in every major U.S. region and neighborhood. *America's Changing Neighborhoods: An Exploration of Diversity* uniquely combines the history of ethnic groups with the history of communities, offering an interdisciplinary examination of the nation's makeup. It gives readers perspective and insight into ethnicity and race based on the geography of enclaves across the nation, in regions, and in specific cities or localized areas within a city. Among the entries are nearly 200 neighborhood biographies that provide histories of local communities and their ethnic groups. Images, sidebars, cross-references at the end of each entry, and cross-indexing of entries serve readers conducting preliminary as well as in-depth research. The book's state-by-state entries also offer population data and an appendix of ancestry statistics from the U.S. Census Bureau details ethnic and racial diversity.

Masonic Voice and Review, 1859. *The Politics of Translating Sound Motifs in African Fiction* Laurence Jay-Rayon Ibrahim Aibo, 2020-02-15. Starting with the premise that aesthetic choices reveal the ideological stances of translators, the author of this research monograph examines works of fiction by postcolonial African authors writing in English or French. The

genesis and reception of their works and the translation of each one into French or English Texts include those by Nuruddin Farah from Somalia Abdourahman Ali Waberi from Djibouti Jean Marie Adiaffi from C te d Ivoire Ayi Kwei Armah from Ghana Chenjerai Hove from Zimbabwe and Assia Djebar from Algeria and their translations by Jacqueline Bardolph Jeanne Garane Brigitte Katiyo Jean Pierre Richard Josette and Robert Mane and Dorothy Blair The author highlights the aural poetics of these works explores the sound motifs underlying their literary power and shows how each is articulated with the writer s literary heritage She then embarks on a close examination of each translator s background followed by a rich analysis of their treatments of sound The translators strategies for addressing sound motifs are contextualized in the larger framework of postcolonial literatures and changing reading materialities

Land without chimneys; or, the byways of Mexico Alfred Oscar Coffin, 2023-07-09 In *Land Without Chimneys or The Byways of Mexico* Alfred Oscar Coffin embarks on a vivid exploration of Mexico s lesser known landscapes and cultures deftly intertwining lyrical prose with insightful observations This travelogue presents an immersive account of Coffin s journey through the heart of Mexico showcasing its rich tapestry of traditions geography and folklore The literary style is characterized by eloquent descriptions and a keen sensitivity to the subtleties of human experience which situates the work within the broader context of early 20th century travel literature where colonial attitudes often overshadowed authentic voices Alfred Oscar Coffin a passionate traveler and astute observer drew upon his diverse experiences in both academic and field settings to craft this deeply reflective narrative His background in geography and anthropology informed his nuanced appreciation for the intricate dynamics present in rural Mexico The desire to illuminate the often overlooked aspects of Mexican life and to connect with the spirit of its people is palpable throughout this work making it an essential read for those interested in the complexities of culture and identity I highly recommend *Land Without Chimneys* to scholars travelers and anyone curious about the diverse landscapes of Mexico Coffin s engaging narrative style and thoughtful reflections provide not just a travel account but a lens through which readers can appreciate the profound beauty and cultural richness of a country often misunderstood This book stands as a testament to the enduring allure of adventure and the significance of understanding the lives that flourish beyond the tourist paths
