**The Miracle on Washington Square** Joan Marans Dim,Nancy Murphy Cricco,2001-01-01 At the millennium one wonders What would the founders of New York University think of the modern rendering of their great notion Could they have even in their wildest dreams envisioned a University of such complexity of such spirit of such immense reach and resource while still fulfilling the determined destiny of its founders More than likely

they would be amazed and proud to see how much their dream has been realized especially considering the numerous travails New York University has weathered The reasons for this Miracle on Washington Square are complicated and many Without question however the University's recent successes rest in great part on the shoulders of the able leaders who have led the University especially during the past forty years These men and women with a firm and focused grasp on the University's direction had the courage to make critical even painful choices in the quest for a secure and healthy future To mark the millennium and the University's many achievements this volume provides a pictorial panorama of the way we were the way we are and the way we hope to be The real story is in the faces Look at them Study them The photographs are a testament to the dreams ideas and convictions behind the contributions New York University has made and will ever continue to make to the development and advancement of knowledge

and the Property Tax David Listokin, 2017-07-12 Historic preservation is an issue of growing importance and public commitment Federal and state mechanisms have been established to identify and support historic buildings sites while local governments have been active in supporting and protecting historic resources Communities across the country have established designation programs whereby individual buildings or districts of historical architectural significance are accorded landmark status Designation activity has been accompanied by growing interest in other local incentives disincentives to the support of historic buildings In this regard the property tax is viewed as either a possible powerful drawback to or a catalyst of preservation This study examines the relationship between historic preservation and the property tax focusing on the question of how designated buildings should be assessed for real taxation purposes Listokin focuses on New York City in considering the effects of historic status on property value and in evaluating assessment practices But this book's findings are transferrable to other communities because the base conditions are similar Many other cities have designation programs modeled on New York City's In addition New York's property tax system and administrative processes resemble those found in communities across the nation To enhance the transferability of this study's findings Listokin refers to the national experience and literature typically on a side by side basis with the New York City counterpart
