

A black and white portrait of Langston Hughes. He is shown from the chest up, looking slightly to the right. He has dark hair, a mustache, and is wearing a dark jacket over a light-colored shirt. He is holding a lit cigarette in his right hand, which is raised towards his mouth. The background is out of focus, showing what appears to be a street scene with a car.

*Parisian Fields* Michael Sheringham, 1996. Perhaps no world city has so many resonances on so many levels as Paris. Café society, demi monde, the intellectual life, film makers and writers: Paris has fragmented socially, sexually, intellectually, and linguistically into many fields. *Parisian Fields* sets out to investigate some of these. The writers investigate how Paris has been both seen and shaped by tourist guides, how its topography has been represented and allegorized by film makers like Godard, Clair, Vigo, and Renoir, how the city has responded to new Parisians, for example, Afro American musicians and dancers such as Josephine Baker, and to previously marginalized Parisians, gays and women. Literary analysis, film, social and gender theory, perspectives on urbanism: here are many provocative and innovative views of the open field of Paris which will appeal to anyone interested in French cultural and literary studies or just in the City of Light herself. With essays by Roger Clark, Nicholas Hewitt, Jon Kear, Tom Conley, Michael Sheringham, Alex Hughes, Adrian Rifkin, Belinda Jack, Verena Andermatt Conley, and Marc Aug.

*The Development of Black Theater in America* Leslie Catherine Sanders, 1989-08-01. In *The Development of Black Theater in America*, Leslie Sanders examines the work of the American black theater's five most productive playwrights: Willis Richardson, Randolph Edmonds, Langston Hughes, LeRoi Jones, and Ed Bullins. Sanders sees the history of black theater as the process of creating a black stage reality while at the same time transforming conventions borrowed from white European culture into forms appropriate to black artists and audiences. The author argues that only when these things were accomplished could the aim of black playwrights, often articulated as the realistic portrayal of the Negro, be fully realized. This study also examines the changing nature of the dialogue black playwrights have held with the dominant tradition and how that dialogue has shaped their imaginations. Sanders' discussion of Richardson, Edmonds, Hughes, Jones, and Bullins provides a context for approaching the work of other black playwrights such as James Baldwin, Lorraine Hansberry, and Owen Dodson. And her argument provides a concrete way of understanding how the context of a dominant culture influences the artistic imagination of writers not of that culture who must come to terms with its influences and transform it into a vehicle of their own.

**The Communist** Paul Kengor, 2012-07-17. I admire Russia for wiping out an economic system which permitted a handful of rich to exploit and beat gold from the millions of plain people. As one who believes in freedom and democracy for

all I honor the Red nation FRANK MARSHALL DAVIS 1947 In his memoir Barack Obama omits the full name of his mentor simply calling him Frank Now the truth is out Never has a figure as deeply troubling and controversial as Frank Marshall Davis had such an impact on the development of an American president Although other radical influences on Obama from Jeremiah Wright to Bill Ayers have been scrutinized the public knows little about Davis a card carrying member of the Communist Party USA cited by the Associated Press as an important influence on Obama one whom he looked to not merely for advice on living but as a father figure Aided by access to explosive declassified FBI files Soviet archives and Davis s original newspaper columns Paul Kengor explores how Obama sought out Davis and how Davis found in Obama an impressionable young man one susceptible to Davis s worldview that opposed American policy and traditional values while praising communist regimes Kengor sees remnants of this worldview in Obama s early life and even ultimately his presidency Is Obama working to fulfill the dreams of Frank Marshall Davis That question has been impossible to answer since Davis s writings and relationship with Obama have either been deliberately obscured or dismissed as irrelevant With Paul Kengor s **The Communist Americans** can finally weigh the evidence and decide for themselves **American Poetry** David

Caplan, 2021-10-02 A leading critic explains what makes American poetry a vast genre covering diverse styles techniques and form distinctive In this short and engaging volume David Caplan proposes a new theory of American poetry With lively writing and illuminating examples Caplan argues that two characteristics mark the vast contentious literature On the one hand several of America s major poets and critics claim that America needs a poetry equal to the country s distinctiveness They advocate for novelty and for a break with what is perceived to be outmoded and foreign On the other hand American poetry welcomes techniques styles and traditions that originate from far beyond its borders The force of these two competing characteristics American poetry s emphasis on its uniqueness and its transnationalism drives both individual accomplishment and the broader field These two characteristic features energize American poetry quickening its development into a great national literature that continues to inspire poets in the contemporary moment **American Poetry A Very Short Introduction** moves through history and honors the poets artistry by paying close attention to the verse forms meters and styles they employ Examples range from Anne Bradstreet writing a century before the United States was founded to the poets of the Black Lives Matter movement Individual chapters consider how other major figures such as T S Eliot Phillis Wheatley Walt Whitman Emily Dickinson W H Auden and Langston Hughes emphasize convention or idiosyncrasy and turn to American English as an important artistic resource This concise examination of American poetry enriches our understanding of both the literature s distinctive achievement and the place of its most important writers within it **Revolutionary Memory** Cary Nelson, 2013-10-11 **Revolutionary Memory** is the most important book yet to be published about the vital tradition of leftwing American Poetry As Cary Nelson shows it is not only our image of the past but also our sense of the present and future that changes when we recover these revolutionary memories Making a forceful case for political poetry as poetry

Nelson brings to bear his extraordinary knowledge of American poets radical movements and social struggles in order to bring out an undervalued strength in a literature often left at the canon's edge. Focused in part on the red decade of the 1930s, *Revolutionary Memory* revitalizes biographical criticism for writers on the margin and shows us for the first time how progressive poets fused their work into a powerful chorus of political voices. Richly detailed and beautifully illustrated with period engravings and woodcuts, *Revolutionary Memory* brings that chorus dramatically to life and sets a cultural agenda for future work.

**Mourning Modernity** Seth Moglen, 2007-08-13 In *Mourning Modernity* Seth Moglen argues that American literary modernism is at its heart an effort to mourn for the injuries inflicted by modern capitalism. He demonstrates that the most celebrated literary movement of the 20th century is structured by a deep conflict between political hope and despair between the fear that alienation and exploitation were irresistible facts of life and the yearning for a more just and liberated society. He traces this conflict in the works of a dozen novelists and poets ranging from Eliot, Hemingway, and Faulkner to Hurston, Hughes, and Tillie Olsen. Taking John Dos Passos' neglected U.S.A. trilogy as a central case study, he demonstrates how the struggle between reparative social mourning and melancholic despair shaped the literary strategies of a major modernist writer and the political fate of the American Left. *Mourning Modernity* offers a bold new map of the modernist tradition as well as an important contribution to the cultural history of American radicalism and to contemporary theoretical debates about mourning and trauma.

*Racial Discourse and Cosmopolitanism in Twentieth-Century African American Writing* Tania Friedel, 2010-06-21 This book engages the critical mode of cosmopolitanism through racial discourse in the work of several major twentieth-century African American authors such as W. E. B. Du Bois, Jean Toomer, Jessie Fauset, Langston Hughes, and Albert Murray.

[The 20th Century Go-N](#) Frank N. Magill, 2014-03-05 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a "who's who." Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

**Word of Mouth** Chad Bennett, 2018-05-15 *Word of Mouth* brings together the insights of queer and lyric theory to tell the story of how gossip modeled forms of sociality and voice that poets experimented with over the course of the twentieth century. Through a set of case studies of culturally diverse American poets, Gertrude Stein, Langston Hughes, Frank O'Hara, James Merrill, and others who absorbed and contended with the loose talk that swirled about them and their work, the book argues that gossip became a vehicle for the performance of alternative sexualities and concomitant meditations on alternative modes of poetic practice. At the heart of this argument is a queer revaluation of modern lyric poetry. Attending to gossip's key role in modern and contemporary poetry enables a recognition of the unpredictable ways

that conventional understandings of the modern lyric poem as for example an utterance smudging the lines between private and public knowing and unknowing intimacy and strangeness have been shaped by and afforded a uniquely suitable space for the expression of queer sensibilities More than simply mapping a curious poetic mode then Word of Mouth contributes a crucial and largely neglected queer perspective to current lyric studies and its renewed scholarly debate over the practices and forms of lyric poetry The book presents new and instructive queer contexts for understanding the influential formal achievements of Stein Hughes O Hara and Merrill and uncovers the unexpected ways that the history of the modern lyric intertwines with histories of sexuality

**Repression and Recovery** Cary Nelson, 1989 A poststructuralist literary history Nelson's premise that the history of modernist culture is one we no longer know we have forgotten and he aims to recover the political questions many forgotten modern poets looked straight in the eye
