## **Language Processing In Bilingual Children:**

Language Processing in Bilingual Children Ellen Bialystok, 1991-05-09 A collection of papers that explore bilingual children coping with two language systems *Language Processing in Bilingual Children* Ellen Bialystok, 1994

**Language Processing in Bilinguals (RLE Linguistics C: Applied Linguistics)** Jyotsna Vaid, 2014-01-10 For decades bilingualism has resisted definition If bilingualism is defined as habitual fluent correct and accent free use of two languages few individuals would qualify as bilinguals A more viable approach may be to concede that bilingual can be seen instead as a range of points on a continuum that allows for differences The psychological study of bilingualism encompasses a wide range of phenomena including the organization and representation of the grammar the perception and production of language mixing cerebral lateralization of language functions and patterns of recovery of aphasic patients This book collects together an international array of researchers in experimental psychology linguistics and neuropsychology who bring their expertise to bear on the critical issues that are raised by the bilingual phenomena **Language and Literacy in Bilingual Children**

D. Kimbrough Oller, Rebecca E. Eilers, 2002-01-01 This book sets a high standard for rigor and scientific approach to the study of bilingualism and provides new insights regarding the critical issues of theory and practice including the interdependence of linguistic knowledge in bilinguals the role of socioeconomic status the effect of different language usage patterns in the home and the role of schooling by single language immersion as opposed to systematic training in both home and target languages The rich landscape of outcomes reported in the volume will provide a frame for interpretation and understanding of effects of bilingualism for years to come The Listening Bilingual François Grosjean, Krista Byers-Heinlein, 2018-08-07 A vital resource on speech and language processing in bilingual adults and children The Listening Bilingual brings together in one volume the various components of spoken language processing in bilingual adults infants and children The book includes a review of speech perception and word recognition syntactic semantic and pragmatic aspects of speech processing the perception and comprehension of bilingual mixed speech code switches borrowings and interferences and the assessment of bilingual speech perception and comprehension in adults and children in the clinical context The two main authors as well as selected guest authors Mark Antoniou Theres Gr ter Robert J Hartsuiker Elizabeth D Pe a and Lisa M Bedore and Lu Feng Shi introduce the various approaches used in the study of spoken language perception and comprehension in bilingual individuals The authors focus on experimentation that involves both well established tasks and newer tasks as well as techniques used in brain imaging This important resource Is the first of its kind to concentrate specifically on spoken language processing in bilingual adults and children Offers a unique text that covers both fundamental and applied research in bilinguals Covers a range of topics including speech perception spoken word recognition higher level processing code switching and assessment Presents information on the assessment of bilingual children s language development Written for advanced undergraduate students in linguistics cognitive science psychology and speech language

pathology as well as researchers The Listening Bilingual offers a state of the art review of the recent developments and approaches in speech and language processing in bilingual people of all ages      **Cognitive Processing in Bilinguals** R.J. Harris,1992-01-23 This collection of 33 papers represents the most current thinking and research on the study of cognitive processing in bilingual individuals The contributors include well known figures in the field and promising new scholars representing four continents and work in dozens of languages Instead of the social political or educational implications of bilingualism the focus is on how bilingual people mostly adults think and process language      **The Study of Bilingual Language Processing** Nan Jiang,2023-03-15 This book offers a detailed account of the issues models and outcomes of research into the cognition of bilingualism The first chapter identifies the most important characteristics of this research and its historical developments before the main part of the book explores studies of four bilingual processing topics The first of these is lexico semantic representation and organization in bilinguals which deals with how words and meanings are represented and connected in the bilingual mind The second cross language priming explores the bilingual lexicon by examining how exposure to words in one language may affect word recognition in another and leads to the discovery of an asymmetry in translation priming The third topic is selective lexical access in bilinguals which examines whether bilinguals can selectively activate one language while suppressing the other while the fourth is code switching focussing on language control and language regulation mechanisms in bilinguals The book concludes with a chapter that reviews research in three areas beyond lexical processing autobiographical memory the representation and interaction of syntactic knowledge and the consequences of bilingualism The volume demonstrates the theoretical significance and real world practical implications of research into bilingual language processing and will be a valuable resource for seminars and courses from advanced undergraduate level upwards      **Language Processing in Bilingual Children and Adults** George Pontikas,2019

**Bilingual Cognition and Language** David Miller,Fatih Bayram,Jason Rothman,Ludovica Serratrice,2018-02-15 This collection brings together leading names in the field of bilingualism research to celebrate the 25th anniversary of the Studies in Bilingualism series Over the last 25 years the study of bilingualism has received a tremendous amount of attention from linguists psychologists cognitive scientists and neuroscientists The breadth of coverage in this volume is a testament to the many different aspects of bilingualism that continue to generate phenomenal interest in the scholarly community The bilingual experience is captured through a multifaceted prism that includes aspects of language and literacy development in child bilinguals with and without developmental language disorders language processing and mental representations in adult bilinguals across the lifespan and the cognitive and neurological basis of bilingualism Different theoretical approaches from generative UG based models to constructivist usage based models are brought to bear on the nature of bilingual linguistic knowledge The end result is a compendium of the state of the art of a field that is in constant evolution and that is on an upward trajectory of discovery      *Language Disorders in Bilingual Children and Adults, Third Edition* Kathryn

Kohnert, Kerry Danahy Ebert, Giang Thuy Pham, 2020-08-26 *Language Disorders in Bilingual Children and Adults Third Edition* provides speech language pathologists advanced students in communication disorders programs and clinical language researchers with information needed to formulate and respond to questions related to effective service delivery to bilingual children and adults with suspected or confirmed language disorders The bilinguals of interest represent varying levels of first and second language proficiency across the lifespan That is bilingualism is not determined here by proficiency in each language but rather by the individual's experience or need for two languages In separate chapters the book synthesizes the literature on bilingual children and adults with typical and atypical language skills These chapters give the reader a deep understanding of the multiple factors that affect language development and disorders in those who rely on two languages for meaningful interactions Chapters on assessment and intervention issues and methods are then presented for each population For children the text focuses on developmental language disorder but also discusses secondary language disorders such as autism spectrum disorder in bilingual populations For adults the focus is on aphasia with additional discussion of dementia traumatic brain injury and right hemisphere disorder Although child and adult typical and atypical populations are presented separately all are considered within a unifying Dynamic Interactive Processing perspective and within a new Means Opportunities Motives framework for understanding language disorders in bilinguals This broad theoretical framework emphasizes interactions between social cognitive and communicative systems to form the basis for very practical implications related to assessment and intervention This third edition has been completely updated to reflect the current research on bilingual populations and the best practices for working with them Studies at the intersection of bilingualism and language disorders have expanded to include additional disorders and new language combinations The authors synthesize the current literature and translate it for clinical use New to the Third Edition Coauthors Kerry Danahy Ebert PhD CCC SLP and Giang Thuy Pham PhD CCC SLP Updated literature review and references to reflect new research on bilingualism cultural competence cognitive advantages and clinical practice with linguistically diverse populations Case studies on assessment with bilingual children and adults Additional tables and figures summarizing key information Available evidence on additional child and adult language disorders in bilinguals Updated extension activities and resource supplement

**Cross-language Influences in Bilingual Processing and Second Language Acquisition** Irina Elgort, Anna Siyanova-Chanturia, Marc Brysbaert, 2023-04-15 A great majority of people around the world know more than one language So how does knowing one language affect the learning and use of additional languages The question of cross language influences is the focus of this book Do bilinguals hear understand and produce language and meaning differently because of the languages they speak How well can theoretical and computational models of language processing and acquisition explain and predict bilingual use patterns and acquisition trajectories What learner language and context characteristics influence bilingual comprehension and production This book provides a state of the art review and critique of research into cross

language influences in phonology lexicon and morphosyntax and suggests directions for future research The interdisciplinary nature of the book bridges the gap between research on bilingualism and second language acquisition The book will be of interest to graduate students teachers and researchers in linguistics and second language acquisition cognitive psychology and language education

**Multilingual Perspectives on Child Language Disorders** Janet L. Patterson, Barbara L. Rodríguez, 2016-01-05 This book investigates language disorders in children who speak languages other than or in addition to English The chapters in the first section of the volume focus on language disorders associated with four different syndromes in multilingual populations and contexts This section discusses language disorders associated with autism spectrum disorders Down syndrome fetal alcohol syndrome and Williams syndrome The chapters in the second section of the book relate to language impairment in children who speak diverse languages although the issues they address are relevant across languages and cultural contexts The book also reviews assessment procedures and intervention approaches for diverse languages including Bengali Cantonese French Spanish and Turkish The volume aims to stimulate thoughtful clinical practice and further research in language disorders in multilingual populations
