## **Language Contact And Bilingualism:**

**Language Contact and Bilingualism** René Appel, Pieter Muysken, 2005 What happens sociologically linguistically educationally politically when more than one language is in regular use in a community How do speakers handle these languages simultaneously and what influence does this language contact have on the languages involved Although most people in the world use more than one language in everyday life the approach to the study of language has usually been that monolingualism is the norm The recent interest in bilingualism and language contact has led to a number of new approaches based on research in communities in many different parts of the world This book draws together this diverse research looking at examples from many different situations to present the topic in any easily accessible form Language contact is looked at from four distinct perspectives The authors consider bilingual societies bilingual speakers language use in the bilingual community finally language itself do languages change when in contact with each other Can they borrow rules of grammar or just words How can new languages emerge from language contact The result is a clear concise synthesis offering a much needed overview of this lively area of language study

**Language Contact and Bilingualism** Rene? Appel, Pieter Muysken, 2023 What happens sociologically linguistically educationally politically when more than one language is in regular use in a community How do speakers handle these languages simultaneously and what influence does this language contact have on the languages involved Although most people in the world use more than one language in everyday life the approach to the study of language has usually been that monolingualism is the norm The recent interest in bilingualism and language contact has led to a number of new approaches based on research in communities in many different parts of the world This book draws together this diverse research looking at examples from many different situations to present the topic in any easily accessible form *Bilingualism and Language Contact* James E. Alatis, 1970

The Routledge Handbook of Language Contact Evangelia Adamou, Yaron Matras, 2020-07-26 The Routledge Handbook of Language Contact provides an overview of the state of the art of current research in contact linguistics Presenting contact linguistics as an established field of investigation in its own right and featuring 26 chapters this handbook brings together a broad range of approaches to contact linguistics including experimental and observational approaches and formal theories a focus on social and cognitive factors that impact the outcome of language contact situations and bilingual language processing the emergence of new languages and speech varieties in contact situations and contact linguistic phenomena in urban speech and linguistic landscapes With contributions from an international range of leading and emerging scholars in their fields the four sections of this text deal with methodological and theoretical approaches the factors that condition and shape language contact the impact of language contact on individuals and language change repertoires and formation This handbook is an essential reference for anyone with an interest in language contact in particular regions of the world including Anatolia Eastern Polynesia the Balkans Asia Melanesia North America and West Africa **Language Contact and**

**Linguistic Aspects of Bilingualism** Longxing Wei, 2024-07-24 This book consolidates earlier insights and proposes a model of contact linguistics and an innovative approach to the study of bilingualism. It explores the nature of major language contact phenomena especially lexical borrowing, mixed languages, bilingual lexical and grammatical processing and representations, second language acquisition, codeswitching and interlanguage. It examines the universal principles governing grammatical structures of languages in contact and differentiates the lexical and grammatical features of morphemes as outcomes of language contact. The proposed approach describes and explains some outstanding linguistic aspects of bilingualism with a focus on the mechanisms of the bilingual mind during bilingual processing and production at several levels of abstract lexical structure. Abundant naturally occurring examples support the claim that the languages in contact are never equally activated and that language specific abstract entries in the bilingual mental lexicon are in contact resulting in mutual influence during codeswitching, second language learning and interlanguage development. Dynamics of Language Contact Michael G. Clyne, 2003-03-20 The past decade has seen an unprecedented growth in the study of language contact associated partly with the linguistic effects of globalization and increased migration all over the world. Written by a leading expert in the field, this much needed account brings together disparate findings to examine the dynamics of contact between languages in an immigrant context. Using data from a wide range of languages including German, Dutch, Hungarian, Italian, Spanish, Croatian and Vietnamese, Michael Clyne discusses the dynamics of their contact with English. Clyne analyzes how and why these languages change in an immigration country like Australia and asks why some languages survive longer than others. The book contains useful comparisons between immigrant vintages, generations and between bilinguals and trilinguals. An outstanding contribution to the study of language contact, this book will be welcomed by students and researchers in linguistics, bilingualism, the sociology of language and education. **Bilingualism in Ancient Society** James Noel Adams, Mark Janse, Simon Swain, 2002 Bilingualism: the field of language contact has seen an explosion of work in recent years yet relatively little of this has focused on written texts. This volume aims to introduce classicists, ancient historians and other scholars interested in sociolinguistic research to the evidence of bilingualism in the ancient Mediterranean world. Language contact intruded into virtually every aspect of ancient life and topics which have been fashionable in sociolinguistics for some time have now begun to attract the attention of scholars working in Graeco-Roman studies. The fifteen original essays in this collection, which have been written by well-regarded experts, cover theoretical and methodological issues and key aspects of the contact between Latin and Greek and among Latin, Greek and other languages. The collection is held together by a wide-ranging introduction which discusses the many important topics recurring in the volume in the light of current work in classics and sociolinguistics. Heritage Languages Suzanne Aalberse, Ad Backus, Pieter Muysken, 2019-11-28 Heritage languages such as the Turkish varieties spoken in Berlin or the Spanish used in Los Angeles are non-dominant languages often with little prestige. Their speakers also speak the dominant language of the

country they live in. Often heritage languages undergo changes due to their special status. They have received a lot of scholarly attention and provide a link between academic concerns and educational issues. This book takes a language contact perspective; we consider heritage languages from the perspective of their history, their structural properties, and their interaction with other surrounding languages.

**Language Contact and Bilingualism** René Appel, Pieter Muysken, 2006-01 Spanish in Four Continents Carmen Silva-Corvalán, 1997-04-01 This collection is the first to examine the effects of bilingualism and multilingualism on the development of dialectal varieties of Spanish in Africa, America, Asia, and Europe. Nineteen essays investigate a variety of complex situations of contact between Spanish and typologically different languages, including Basque, Bantu languages, English, and Quechua. The overall picture that evolves clearly indicates that although influence from the contact languages may lead to different dialects, the core grammar of Spanish remains intact. Silva Corvalán's volume makes an important contribution both to sociolinguistics in general and to Spanish linguistics in particular. The contributors address theoretical and empirical issues that advance our knowledge of what is a possible linguistic change, how languages change, and how changes spread in society in situations of intensive bilingualism and language contact, a situation that appears to be the norm rather than the exception in the world.

*Boundaries and Bridges* Kofi Yakpo, Pieter C. Muysken, 2017-06-26 Multidirectional language contact involving more than two languages is little described. However, it probably represents the most common type of contact in the world where colonization, rapid socioeconomic and demographic change, and society-wide multilingualism have led to dramatic linguistic change. This book presents fascinating cases of multidirectional contact and convergence between highly diverse languages in an emerging linguistic area in Suriname and the Guianas and proposes a framework for comparable studies.

**Language Contact and Bilingualism** René Appel, 1993 **Contact Languages** Peter Bakker, Yaron Matras, 2013-06-26 This volume deals with several types of contact languages: pidgins, creoles, mixed languages, and multi-ethnolects. It also approaches contact languages from two perspectives: an historical linguistic perspective, more specifically from a viewpoint of genealogical linguistics (language descent and linguistic family tree models), and a sociolinguistic perspective (identifying specific social contexts in which contact languages emerge).

**The Handbook of Language Contact** Raymond Hickey, 2012-09-17 The Handbook of Language Contact offers systematic coverage of the major issues in this field, ranging from the value of contact explanations in linguistics to the impact of immigration on dialectology, combining new research from a team of globally renowned scholars with case studies of numerous languages. An authoritative reference work exploring the major issues in the field of language contact, the study of how language changes when speakers of distinct speech varieties interact. Brings together 40 specially commissioned essays by an international team of scholars. Examines language contact in societies which have significant immigration populations and includes a fascinating cross-section of case studies drawing on languages across the world. Accessibly structured into sections exploring the place of contact studies within linguistics as a whole, the

value of contact studies for research into language change and language contact in the context of work on language and society Explores a broad range of topics making it an excellent resource for both faculty and students across a variety of fields within linguistics     Language Contact and Bilingualism René Appel, Pieter Muysken, 1990     **Contact Linguistics** Carol Myers-Scotton, 2002 Contact linguistics provides an account of contact outcome theories including the author's own It has coursebook potential for advanced undergraduates and graduates     *Bilingualism and Identity* Mercedes Niño-Murcia, Jason Rothman, 2008-04-02 Sociolinguists have been pursuing connections between language and identity for several decades But how are language and identity related in bilingualism and multilingualism Mobilizing the most current methodology this collection presents new research on language identity and bilingualism in three regions where Spanish coexists with other languages The cases are Spanish English contact in the United States Spanish indigenous language contact in Latin America and Spanish regional language contact in Spain This is the first comparativist book to examine language and identity construction among bi or multilingual speakers while keeping one of the languages constant The sociolinguistic standing of Spanish varies among the three regions depending whether or not it is a language of prestige Comparisons therefore afford a strong constructivist perspective on how linguistic ideologies affect bi multilingual identity formation     Bilingualism and Language Contact Florence Barkin, Elizabeth A. Brandt, Jacob Ornstein-Galicia, 1982  
       *Languages in Contact* Uriel Weinreich, 1964     *Language Contact* Yaron Matras, 2009-09-10 An introduction to language contact which occurs when speakers of different languages interact and their languages influence each other
