South Slavic Discourse Particles Mirjana N. Dedai?, Mirjana Mićković?, Luković?, 2010-05-19 Discourse particles discourse markers and pragmatic markers refer to phenomena that linguists have begun to probe only since the mid 1980s Long ignored in traditional linguistics and textbook grammars and still relegated to marginal status in South Slavic these linguistic phenomena have emerged as invaluable devices for cutting edge theories of the semantics pragmatics interface This book which is a pioneering study in such linguistic phenomena in South Slavic languages is also among the first of its kind for a related group of languages It builds on the recent findings of some of the most influential linguistically oriented theories such as Relevance Theory Argumentation Theory and coherence based approaches to explain the meaning and use of certain discourse pragmatic particles markers in Bulgarian Macedonian Serbian Bosnian Croatian

and Slovene These particles markers are part of the contemporary and historical lexicons of the South Slavic languages varying across regions and time but also differing in origin This book which draws from naturally occurring data written media and constructed examples aims at a wider audience including scholars working in semantics pragmatics and Slavic languages and applied specialists interested in this area of research The authors hope that this book will be conceived as a starting point for a structured inquiry into the flourishing field of discourse particles in South Slavic

Language, History, Ideology Camiel Hamans, Hans Henrich Hock, 2024-05-16 This volume presents twelve in depth case studies that critically examine the ways in which historical linguistics and language change interact with ideology These varying interactions have been present since the birth of historical comparative linguistics as a field of study Work in historical linguistics may be appropriated or rejected for ideological reasons most notably in the debates surrounding the Indo European homeland it can also be influenced by ideological biases as in the alternative histories that have been proposed for Moldovan and Maltese The development of linguistically defined nation states may itself fuel linguistic change for instance through the suppression of minority languages or the division of existing languages to mirror political divisions as occurred in the Balkans or it may lead to the formulation of pseudo histories designed to give a nation a more prestigious past The book will be of interest not only to historical linguists but also to anthropologists historians and all those interested in language policy
