Language In The Judicial Process:

Language in the Judicial Process Judith N. Levi, Anne Graffam Walker, 2013-11-11 Legal realism is a powerful jurisprudential tradition which urges attention to social conditions and predicts their influence in the legal process. The relatively recent social science in the law phenomenon in which social research is increasingly relied on to decide court cases is a direct result of realistic jurisprudence which accords much significance in law to empirical reports about social behavior. The empirical research used by courts has not however commonly dealt with language as an influential variable. This volume of essays coedited by Judith N. Levi and Anne Graffam Walker will likely change that situation. **Language in the Judicial Process** is a superb collection of original work which fits well into the realist tradition and by focusing on language as a key variable it establishes a new and provocative perspective on the legal process. The perspective it offers and the data it presents make this volume a valuable source of information both for judges and lawyers who may be chiefly concerned with practice and for legal scholars and social scientists who do basic research about law.

Language in the Legal Process J. Cotterill, 2002-10-09 Linguists and lawyers from a range of countries and legal systems explore the language of the law and its participants beginning with the role of the forensic linguist in legal proceedings either as expert witness or in legal language reform. Subsequent chapters analyze different aspects of language and interaction in the chain of events from a police emergency call through the police interview context and into the courtroom as well as appeal court and alternative routes to justice. A broad based coherent introduction to the discourse of language and law.

Sociolinguistics and the Legal Process Diana Eades, 2010-04-06 Sociolinguistics and the Legal Process is an introduction to language law and society for advanced undergraduate and postgraduate students. Its central focus is the exploration of what sociolinguistic research can tell us about how language works and doesn't work in the legal process. Written for readers who may not have prior knowledge of sociolinguistics or the law, the book has an accessible style combined with discussion questions and exercises as well as topics for assignments, term papers, theses and dissertations. A wide range of legal contexts are investigated including courtroom hearings, police interviews, lawyer interviews as well as small claims courts, mediation, youth justice conferencing and indigenous courts. The final chapter looks at how sociolinguists can contribute to the legal process as expert witnesses through legal education and through investigating the role of language in the perpetuation of inequality in and through the legal process.

Language and Legal Proceedings Endurance Midinette Koumassol Dissake, 2021-06-17 This book investigates language related problems which arise in courtroom discourse in the Republic of Cameroon in Central Africa. While Cameroon has over 250 national languages, court cases are conducted in the two official languages, English and French. This is despite the fact that 40% of the adult population is illiterate in these languages and means that lay litigants often encounter language related problems during trials. In this study, the author makes use of Speech Act Theory and Interactional Sociolinguistics to analyse the speech acts of both legal professionals and lay litigants as observed in 37 legal

cases demonstrating how the use of exoglossic languages in a highly multilingual nation constitutes a serious issue The book will be of interest to students and scholars of Forensic Linguistics Language Policy and Planning and Discourse Analysis particularly those with an interest in the African context **Language and Social Justice in Practice** Netta Avineri, Laura R. Graham, Eric J. Johnson, Robin Conley Riner, Jonathan Rosa, 2018-12-12 From bilingual education and racial epithets to gendered pronouns and immigration discourses language is a central concern in contemporary conversations and controversies surrounding social inequality Developed as a collaborative effort by members of the American Anthropological Association's Language and Social Justice Task Force this innovative volume synthesizes scholarly insights on the relationship between patterns of communication and the creation of more just societies Using case studies by leading and emergent scholars and practitioners written especially for undergraduate audiences the book is ideal for introductory courses on social justice in linguistics and anthropology Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense *Trial Language* Gail Stygall, 1994-11-10 This study of Anglo American legal discourse is the first comprehensive discourse analysis of American legal language in its prototypical setting the trial by jury With ethnographic data gathered in a civil jury trial the book compares the discourse processing of the legal participants and the lay jurors in the trial This study examining an entire trial finds that it is constraints at the level of a Foucauldian discursive formation that prevent lay understanding Those constraints include the allocation of narrative speaking roles primarily to legal speakers in genres in which no sworn evidence is given the suppression of narrative in ordinary witnesses a set of restraints on witnesses use of certain categories of evidentials the legal topic originating in textual authority unknown to the lay participants specific distribution of verb forms by legal genre and a linguistic burden accompanying the legal burden of proof in the requirement that the lawyer of the moving party also use and explain technical legal terms to the jury at the same time as he or she presents evidence All of these factors contribute to the incomprehensibility of legal discourse to lay auditors resulting in the jury making their decision based on a commonsense script of the events precipitating the trial The study concludes by arguing for a Foucauldian discourse analysis of institutional languages a social theory powerful enough to account for the power and tenacity of these languages where traditional linguistic explanation has failed **Language and the Law in Deaf Communities** Ceil Lucas, 2003 Three attorneys and three linguistics scholars contribute five essays focusing on the intersection of language and law in deaf communities Coverage includes the language problems of minorities in legal settings the interrogation of deaf people interpretation issues for juries that include deaf people *Interpreting in Legal and Healthcare Settings* Eva N.S. Ng, Ineke H.M. Crezee, 2020-06-15

The importance of quality interpreting in legal and healthcare settings can never be stressed enough when any mistake no matter how small can compromise the delivery of justice or put someone's health at risk. This book addresses issues arising from interpreting in legal and healthcare settings by presenting cutting edge research findings in interpreting and interpreter education in a number of countries around the world including those which are relatively new to the field. It contains selected papers from a conference dedicated to such themes: the First International Conference on Legal and Healthcare Interpreting as well as other invited papers related to the fields of legal and healthcare interpreting. This book is useful not only to scholars and educators, interpreters and translators working in legal or healthcare settings but also to legal and healthcare professionals who work with interpreters in their day to day work including judges, lawyers, police officers, doctors, midwives and nurses.
