*Everyday Life in Medieval England* captures the day to day experience of people in the middle ages the houses and settlements in which they lived the food they ate their getting and spending and their social relationships The picture that emerges is of great variety of constant change of movement and of enterprise Many people were downtrodden and miserably poor but they struggled against their circumstances resisting oppressive authorities to build their own way of life and to improve their material conditions The ordinary men and women of the middle ages appear throughout *Everyday life in Medieval England* is an outstanding contribution to both national and local history Daily Life in the Middle Ages Paul B. Newman, 2018-01-16 Although life in the Middle Ages was not as comfortable and safe as it is for most people in industrialized countries today the term Dark Ages is highly misleading The era was not so primitive and crude as depictions in film and literature would suggest Even during the worst years of the centuries immediately following the fall of Rome the legacy of that civilization survived This book covers diet cooking housing building clothing hygiene games and other pastimes fighting and healing in medieval times The reader will find numerous misperceptions corrected The book also includes a comprehensive bibliography and a listing of collections of medieval art and artifacts and related sites across the United States and Canada so that readers in North America can see for themselves some of the matters discussed in the book Instructors considering this book for use in a course may request an examination copy here **Everyday Life in Medieval**

Broderick, Idoia Grau-Sologestoa,2016 Artefacts and environmental remains are abundant from archaeological excavations across Europe but until now they have most commonly been used to accompany broader narratives built on historical sources and studies of topography and buildings rather than being studied as important evidence in their own right The papers in this volume aim to redress the balance by taking an environmental and artefact based approach to life in medieval Europe The contributions included here address central themes such as urban identities the nature of towns and their relationship with their hinterlands provisioning processes and the role of ritual and religion in everyday life Case studies from across Europe encourage a comparative approach between town and country and provide a pan European perspective to current debates The volume is divided into four key parts an exploration of the processes of provisioning an assessment of the dynamics of urban population an examination of domestic life and a discussion of the status quaestionis and future potential of urban environmental archaeology Together these sections make a significant contribution to medieval archaeology and offer new and unique insights into the conditions of everyday life in medieval Europe
