For this purpose, the volume continues to develop the sociological knowledge of Islam that began in the 1980s. appropriate ways to defend their claims to truth in the context of Islam Dr Suheil Madanat proposes that the answer lies neither in the antagonization of polemics nor apologetic arguments rooted in Western legal systems but instead in utilizing the authority of Islamic law itself While evidence for the resurrection has been legally examined since the seventeenth century legal apologetics has primarily utilized secular law systems such as Anglo American common law In this study Dr Madanat tests evidence for the crucifixion and resurrection against Islam s fixed theocratic law of Sharia Offering an overview of the evolution and constitution of Islamic law Dr Madanat examines how eyewitness testimonies and confessions in the New Testament hold up against Islam s strict standards for evidence Authenticating the Gospels using the same standards Islamic scholars use to defend the authenticity of the Qur an and Sunna Madanat examines the testimonies of the four evangelists the confessions of James and Paul and the circumstantial evidence offered by archeology church history and the Christian impact on civilization This book engages with Islam and its sacred texts seriously and with respect providing a powerful resource for those interested in apologetics and comparative religion

M. Ravi Krishna, 2004 Examination is as old as education itself. The examination process is the past phase of teaching and learning. Traditionally, the examination has been a very tough exercise, fearful enough for students. However, with changing times, the procedure of conventional examination has changed. Now, the modern concept of examination is quite progressive and scientific. The educationists have introduced new terms like evaluation and measurement. Under evaluation, the level of knowledge and learning is weighted, and under measurement, a learner is gauged and allotted a score of marks. **From**

But in a modern context of intercultural sensitivity, what the Qur'an says and means are perhaps more urgent questions than ever before. This major new book by one of the world's finest Islamic scholars responds to that urgency. Building on his earlier

groundbreaking work the author challenges misinterpretations of particular Qur'anic verses from whatever quarter He addresses the infamous sword verse frequently cited as a justification for jihad He also questions the tribute verse associated with the Muslim state subjugating Jews and Christians and the idea of Paradise in the Qur'an often viewed by the West as emphasising merely physical pleasures or used by Islamic fighters as their just reward for holy war The author argues that wrenching the verses out of the context of the whole has led to dangerous ideologies being built on isolated phrases which have then assumed afterlives of their own This nuanced holistic reading has vital interfaith ramifications
