Academic Freedom in a Democratic South Africa John Higgins, 2014-09-02 How do we understand academic freedom today Does it still have relevance in a global reconfiguring of higher education in the interests of the economy rather than the public good And locally is academic freedom no more than an inconvenient ideal paid lip service to South Africa's Constitution as an individual right but neglected in institutional practice This book argues that the core content of academic freedom the principle of supporting and extending open intellectual enquiry is essential to realizing the full public value of higher education John Higgins emphasizes the central role that the humanities and the particular forms of argument and analysis they embody bring to this task Each chapter embodies the particular force of a critical literacy in action one which brings into play the combined force of historical inquiry theoretical analysis and precise attention to the textual dynamics of all statement so as to challenge and confront the received ideas of the day These provocative analyses are complemented by probing interviews with three key figures from the Critical Humanities Terry Eagleton who discusses the deforming effects of managerialism in British universities Edward W Said who argues for increased recognition of the democratizing force of the humanities and Jakes Gerwel who presents some of the most recent challenges for the realization of a humanist politics in South Africa

Polyphony Embodied - Freedom and Fate in Gao Xingjian's Writings Michael Lackner, Nikola Chardonnens, 2014-06-23 Like artists important writers defy unequivocal interpretations Gao Xingjian winner of the Nobel Prize in literature is a cosmopolitan writer deeply rooted in the Chinese past while influenced by paragons of Western Modernity The present volume is less interested in a general discussion on the multitude of aspects in Gao's works and even less in controversies concerning their aesthetic value than in obtaining a response to the crucial issues of freedom and fate from a clearly defined angle The very nature of the answer to the question of freedom and fate within Gao Xingjian's works can be called a polyphonic one there are affirmative as well as skeptical voices But polyphony as embodied by Gao is an even more multifaceted phenomenon Most important for our contention is the fact that Gao Xingjian's aesthetic experience embodies prose theater painting and film Taken together they form a Gesamtkunstwerk whose diversity of voices characterizes every single one of them
