

Highway Is Opened

**No entry is removed,
Highway is opened,
Journey is started,
Lorries are running.**

**Weather is cloudy,
Rain has to come,
For crossing far miles,
Drivers are in hurry.**

**Daily life is busy life,
Life's highway is eternal,
Souls are drivers,
Bodies are like vehicles.**

**Never ending this journey is,
Obeying cosmic laws soon,
Carefully driving is important,
Beauty is seen in unity.**

**Green garden of God is lovely,
Highway is made to heaven,
Carefully driving in this,
We have to cross the gate ahead.**

Freeway Driving Poems:

Freeway Driving Kathleen Wiegner, 1981 **Highway Madness - the Plain Truth** Terrance T. Maddox, 2003-08-01 I had planned to write a few poems and send them and slogans in to the ATA American Trucking Association or maybe the NSC National Safety Council but all that changed and turned into this book I sincerely hope you enjoy and benefit from it If you get even one half of the safety tips and use them in everyday life I will feel I have succeeded in my goal for writing this book I feel this book will open the eyes of a lot of drivers just knowing the hazards so you can avoid them while youre traveling Some of the poems contained in this book have a few paragraphs of inspiration I did not write this book to downgrade or offend anyone If any part of this book hits home with you then that probably was its meaning I wrote this book hoping to share knowledge with everyone concerned I think everyone should know the plain truth about highway hazards So enter my world and I hope that you get as much enjoyment out of reading it as I had in writing it Before I started driving tractor trailers I didnt know anything about them I knew they were big and as a kid I guess I had my share of encouraging truckers to blow the big truck air horns From the back seat of my mothers car It would tickle me to excitement the louder the horn the more excited I became Then I heard my first train horn on a big truck I was so excited I almost wet my pants This was about as good as it gets As an over the road truck driver I have been operating a commercial vehicle for many many years In these years of driving I have seen drivers do things that were so incredibly stupid childish and irresponsible that I am still amazed Now to define the word DRIVER in this book it would be anyone who operates a motor vehicle of any kind whether car truck motorcycle etc Everyone on the road and even some that are not are subject to hazards from the highway You do not have to be a driver to become part of a highway catastrophe Accidents happen everyday involving innocent people such as construction workers roadside mowers even people working in their own yards and children playing outside I could go on and on No one seems to be safe anymore from hazards of the highways On how we all like to live in the fast lane and wed all like to be where were going before even getting into our vehicle However it just doesnt work that way There is only one way to get where you are going and that consists of traveling time One way or the other whatever mode you get you will have to travel Traveling is as safe as we allow it to be We are in control of our own safety as well as others in our charge Safety is controlled by the mind of each person It is up to you to make the right decisions Here are a few ideas that have helped me along the way Above all keep your eyes on the road always be alert this is the number one key to safety This is very important as your surroundings could change without notice Secondly drive defensively Do not assume that everyone sees you Always keep a good distance between you and the vehicle in front of you Never over ride your stopping distance You never know when the only option you have is to stop You can never predict what hazards await you minutes even seconds down the road People you need to get your minds out of the gutter and put them back on the road where they belong The highway is a killer but as long as you are focused on the road then its mainly someone elses bad judgment or stupidity that

could cause you to be injured or killed By being focused at all times you will have the advantage over others carelessness You could possibly react quickly enough to avoid or prevent an accident Now you just took a crash course on highway safety I really hope you will practice these methods of safe driving It will pay off for everyone that participates There are things I see on a daily basis that tell professional drivers watch out you're dealing with a person sporting a low I Q Here are some of the acts I am referring to as Rush Hour Traffic Women putting on make up while driving laptop computers being used by drivers and especially now the cell phone users If you are one of these people please you cannot operate a motor vehicle safely and do this **YOU ARE A HAZARD TO THE HIGHWAY GET WITH THE PROGRAM PEOPLE** Why do you gamble with your lives and the lives of others this way Do you have a will Are you secure that upon your death everything will be handled the way you planned Are your children going to be taken care of All these factors should be considered You could just simply protect yourself by participating in the game of **ACCIDENT PREVENTION** and greatly reduce your risk of having an accident If everyone could see it the way I see it the picture would be perfectly clear and speaking of perfectly clear another hazard lies within inches of your face Your windshield and side windows need to be kept clean as much as possible The least bit of dirt glares against the sun or headlights and impairs your vision Anytime your vision is impaired **YOU ARE A HAZARD TO THE HIGHWAY** Maintenance is another key factor to safe operation You should maintain your vehicle by having the correct amount of air pressure in the tires If you are not sure what this should be have a professional check your tires Its a good idea especially for non mechanics to have your cars oil changed at a place where they check all the fluids air pressure in tires etc Many of these places will show you exactly what to do when checking for yourself Another matter of great importance is your lights headlights brake rear and turn signal lights or commercial lights all lights should be checked regularly You want to know whos on the highway with you and they need to see you also If your vision is impaired by weather during the day turn on your lights especially during rain sleet snow or fog Even if you can still see someone else may not be able to see you Think of it as the lighthouse in the storm leading the ships to the shore its a beacon for safety Another dangerous thing to watch for is the mist from underneath a commercial tractor trailer Believe me I know this can blind you for a few seconds this is enough time to drift into another lane of traffic and have an accident The truck driver may not be able to see you either and could even cause you to run off the road maybe even kill you because he never saw you coming **YOU ARE A HAZARD TO THE HIGHWAY WITH IMPAIRED VISION** One of the biggest hazards on the road and with all due respect to the Professional Driver is a tractor trailer These vehicles by law in most states are allowed a maximum weight of 80 000 pounds this is 40 tons coming at you This kind of weight rolling down the highway at 60 miles per hour is a fatal attraction What if the driver did not inspect his vehicle and there was a major problem just looking for a place to happen Every time you get close to a tractor trailer and ride next to him in one spot for more than ten seconds you are bringing on a hazard yourself Now Im not telling you this to scare you but if it does that means you didnt realize the hazard In this book are **FACTS** things mentioned in plain

terms telling you the truth about our highways and their hazards Well enough about that Now what I was saying I knew they the big rigs were big heavy and intimidating Thats not even the half of it now that Ive experienced it first hand A poorly maintained vehicle of any kind is a hazard to the highway but a tractor trailer even empty could weigh 20 000 to 40 000 pounds This can be rolling death if poorly maintained Now more than 80% of the defects on a tractor trailer are hidden They have to be found by the driver during his inspections And unless the driver has done a thorough inspection something

Elizabeth Ward, Ed., **My Diverse Manic Freeways of Thoughts** Kenya McGhee, 2023-01-23 This is just a sample of my formulated thoughts Topics derived from my heart personal experiences throughout my journey in life my family imperfect impressions and more I describe my mind as a diverse mental manic component with a vast amount of speeding freeways My thoughts and visions that arise and flow simultaneously uncontrollably at times I use to perceive my racing thoughts as one of my mental health debilitating insecurities But as of today with the light of my new awakening I am able to channel my thoughts Writing them down into stories poetry or songs Liberating melodized thoughts a fresh therapeutic finding assisting me to relieve the weight off my brain and slow down the speeding freeway traffic With this new light I have been revealed new abilities Given fortitude to face my fears draw boundaries around my dwelling body temple articulate my emotions and view points of this world Without any guilt or shame To flow and express myself boldly and free out of seclusion In hopes to inspire and shed light on unclean substances and circumstances Ive been shifted to step out of my comfort zone Exploring fresh unfamiliar destinations of the unknown Which has presented me this new identity My new best friend whom I cherish deeply today The authentic true Kenya Lanise McGhee

Selected Poems Hélène Aji, Jennifer Kilgore-Caradec, 2013-01-16 Complete poems are bulky and too heavy to carry around Collected poems pretend to be complete but usually are not Selected poems are altogether unpretentious and reader friendly But they can be problematic Who decides what poems are important for inclusion in a volume of selected poems When the selection occurs during the author s lifetime may one assume that the author was involved What motivates the choice of one poem over another How do readers preferences influence this choice How do new readers and familiar readers of a poet negotiate the poems that are left out of the selection The essays in this volume address these questions in a variety of ways and also provide an overview of poetic writing from modernist poets to the present day using selections from the 1940s until now They offer new insight into the uses both pedagogical and critical of selection Because Selected Poems usually address a large general public these essays have also been written for all those who wish to know more about how these slimmer more attractive volumes are produced
