illuminating essays on the classic choral masterworks ranging from Handel's Messiah, Bach's Mass in B Minor and Beethoven's Missa Solemnis to works by Haydn, Brahms, Mendelssohn and many others. Steinberg spans the entire history of classical music from such giants of the Romantic era as Verdi and Berlioz to leading modern composers such as Elgar, Rachmaninoff, Vaughan Williams and Stravinsky to contemporary masters such as John Adams and Charles Wuorinen. For each piece Steinberg includes a fascinating biographical account of the work's genesis, often spiced with wonderful asides such as the true story of Mozart's Requiem: Salieri had nothing to do with the composition of it, nor did he poison Mozart, who most likely died of rheumatic fever. The author also includes an astute musical analysis of each piece, one that casual music lovers can easily appreciate and that musicians and more serious fans will find invaluable. The book also includes basic information such as the various movements of the work, the organization of the chorus and orchestra, and brief historical notes on early performances. More than twenty million Americans perform regularly in choirs or choruses. Choral Masterworks will appeal not only to concertgoers and CD collectors but also to this vast multitude of choral performers, an especially engaged and active community.
