French Symbolist Poetry An Anthology:

French Symbolist Poetry John Porter Houston, Mona Tobin Houston, 1980 French Symbolist Poetry, 1958 **French Symbolist Poetry, 50th Anniversary Edition, Bilingual Edition**, 2007-12-17 Whether viewed as an influence or in and for themselves the Symbolists are a tantalizing group Paralleling similar movements in art and music their intensely personal poetry leans more heavily on oblique suggestions and evocation than on overt statement It sets its perceptions intuitive and nonrational squarely against intellectual and scientific thinking and this with a music that is flexible intrepid and subtle sometimes even dissonant and jazzy But the poetry itself is the movement's best definition Here with bilingual text en face an introduction and illuminating notes are some forty carefully selected poems of that movement They range from the remote beginnings in Nerval and Baudelaire through the humor and irony of Corbi re and Laforgue to the technical brilliance of Val ry who died as recently as 1945 For those who wish an overall view of the movement this is a generous sampling **An Anthology of Modern French Poetry**, 1927 *A Study Guide for "Symbolism"* Gale, Cengage Learning, 2016 A Study Guide for Symbolism excerpted from Gale's acclaimed Literary Movements for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Literary Movements for Students for all of your research needs **Hoffman's Index to Poetry** Herbert H. Hoffman, 1985 No descriptive material is available for this title Encyclopedia of American Poetry: The Nineteenth Century Eric L. Haralson, 2014-01-21 With contributions from over 100 scholars the Encyclopedia of American Poetry The Nineteenth Century provides essays on the careers works and backgrounds of more than 100 nineteenth century poets It also provides entries on specialized categories of twentieth century verse such as hymns folk ballads spirituals Civil War songs and Native American poetry Besides presenting essential factual information each entry amounts to an in depth critical essay and includes a bibliography that directs readers to other works by and about a particular poet

Anthology of French lyric poetry Charles Edmund Young, 1925 *The Symbolist Poem* Edward Engelberg, 1967 **The Symbolist Movement in the Literature of European Languages** Anna Balakian, Anna Elizabeth Balakian, 1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and

amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today

Encyclopedia of American Poetry: The Twentieth Century Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author's career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States
