Making Slow Food Fast in California Cuisine Victor W. Geraci,2017-03-02 This book follows the development of industrial agriculture in California and its influence on both regional and national eating habits Early California politicians and entrepreneurs envisioned agriculture as a solution to the food needs of the expanding industrial nation The state s climate geography vast expanses of land water and immigrant workforce when coupled with university research and governmental assistance provided a model for agribusiness In a short time the San Francisco Bay Area became a hub for guaranteeing Americans access to a consistent quantity of quality foods To this end California agribusiness played a major role in national food policies and subsequently produced a bifurcated California Cuisine that sustained both Slow and Fast Food proponents Problems arose as mid twentieth century social activists battled the unresponsiveness of government agencies to corporate greed food safety and environmental sustainability By utilizing multidisciplinary literature and oral histories the book illuminates a more balanced look at how a California Cuisine embraced Slow Food Made Fast City of Well-being Hugh Barton,2016-11-10 City of Well being provides a radical and holistic introduction to the science and art of town planning It starts from the premise that the purpose of planning is the health well being and sustainable quality of life of people Drawing on current and historic examples it offers inspiration information and an integrated perspective which challenges all professions and decision makers that affect the urban environment It is both authoritative and readable designed for students practitioners politicians and civil society The science Summarizing the most recent research the book

demonstrates the interrelationships between the huge issues of obesity unhealthy lifestyles inequality mental illness climate change and environmental quality The radical implications for transport housing economic social and energy policies are spelt out The art and politics The book examines how economic development really happens and how spatial decisions reinforce or undermine good intentions It searches for the creative strategies urban forms and neighbourhood designs that can marry the ideal with the real The relationship of planning and politics is tackled head on leading to conclusions about the role of planners communities and development agencies in a pluralistic society Healthy planning principles could provide a powerful logical motivation for all practitioners
