Perna, Edward J. Smith, 2020-03-20 Also known as free tuition and free college programs college promise programs are an emerging approach for increasing higher education attainment of people in particular places To maximize the effectiveness of their efforts and investments program leaders and policymakers need research based evidence to inform program design implementation and evaluation With the goal of addressing this knowledge need this volume presents a collection of research studies that examine several categories and variations of college promise programs

These theoretically grounded empirical investigations use varied data sources and analytic techniques to examine the effects of college promise programs that have different design features and operate in different places. Individually and collectively the results of these studies have implications for the design and implementation of promise programs if these programs are to create meaningful improvements in attainment for people from underserved groups. The authors' efforts also provide a useful foundation for the next generation of college promise research.

Reducing the Risk, Increasing the Promise Sherrell Bergmann, Judith Brough, 2013-10-02 In their new book Bergmann and Brough provide a clear path to follow for helping your at risk students achieve success in and out of the classroom. Packed with classroom tested practical strategies and lesson plans for teaching respect, responsibility, resilience, reading and other essential skills to at risk students, this is a must have book for educators at all levels. Use the plans alone or as part of a unit. Either way, the tools for success in this book will help you positively impact the lives of at risk students every day. Each chapter is dedicated to a different skill and offers easy to implement activities and strategies based on achieving success in that essential skill. For example, Strategies for establishing positive peer relationships, Cooperative treasure hunting for resilience building, Keys to structured role playing for conflict resolution. Each chapter includes a component about what parents and caregivers can do to help their at risk children achieve success and provides a basis for effective communication between educator and parent, an important piece of the puzzle often overlooked.

The Trident, 1891 *Promise and Dilemma* Eugene Y. Lowe, Jr., 2021-02-09 Issues of diversity and affirmative action have turned elite higher education in the United States into contested terrain. Rights revolutions in the country have raised hopes that have proved difficult to fulfill. Most particularly, expectations about access and opportunity, redressing the unfairness of the past, have collided with widely held beliefs that educational institutions should treat each person fairly as an individual and should promote high academic standards. *Promise and Dilemma* gathers the reflections of a group of leading educators on whether and how objectives of diversity, equity, and excellence can be simultaneously pursued. Empirical in orientation, these essays focus on constructive proposals and on the role of social and political consensus. Furthermore, they contrast what we believe we know with what empirical data and institutional experience can teach us. Eugene Lowe's substantive introduction reviews the history of the practice of affirmative action in colleges and universities. The other essays are by L. Scott Miller of The College Board, Mamphela Ramphele, vice chancellor of the University of Cape Town, Neil J. Smelser of the Center for Advanced Study in the Behavioral Sciences, Stanford, and Claude M. Steele of Stanford University. Also included are commentaries by Randall Kennedy, Harvard Law School; Richard J. Light, John F. Kennedy School of Government, Harvard University; Chang Lin Tien, the University of California, Berkeley; and Philip Uri Treisman, the University of Texas.

From At-Risk to At-Promise Amy E. Vecchione, Cathlene E. McGraw, 2022-11-07 Academic library workers will learn how to collaborate with staff in academic advising and student services to improve undergraduate student belonging, retention rates, and graduation rates for at promise students. As the demographics of

student populations change many students require additional or different support to be successful in their college careers Meanwhile higher education is under pressure to reduce budgets and serve more students within certain areas of the university including the library academic advising and other student services Academic librarians and student success administrators can collaborate to create additional pathways for students who struggle to succeed Authors Vecchione and McGraw provide a roadmap for library employees and student success administrators to initiate and develop discussions on college campuses to define and address these emergent student needs Through a selection of case studies and historical context readers will learn how to define what student success looks like and how to design custom services to address student barriers to that success Library employees and student success professionals both serve students at the margins These readers will acquire skills to enhance student success initiatives and strengthen collaborations with one another

Walking in Footsteps of Promise Kiran H. J. Dellimore, 2018-12-31 Barbadian born writer Kiran Dellimore takes you on an enthralling trek with his intimate memoir *Walking in Footsteps of Promise* From growing up in a sheltered privileged environment on the Eastern Caribbean island of Barbados to being left for dead at the roadside in Washington D C Kiran weaves a compelling tale of his relentless up and down struggle to achieve his grand dreams *Walking in Footsteps of Promise* is a refreshing take on the age old tale of the triumph of the human spirit over adversity This book is a must read if you feel stuck in life or are in need of inspiration to persevere against all odds in the pursuit of your dreams It is an inimitable honest account of Kiran s remarkable personal journey of healing and redemption penned in a witty anecdotal style As Kiran eloquently points out Dreams are not an end unto themselves They are merely stepping stones to achieving our higher selves *Walking in Footsteps of Promise* will leave you with a new perspective on life **Fulfilling the Promise of an Affordable College Education** United States. Delivering on the Promise of High-Impact Practices John Zilvinskis, Jillian Kinzie, Jerry Daday, Ken O'Donnell, Carleen Vande Zande, 2023-07-03 Research shows that enriching learning experiences such as learning communities service learning undergraduate research internships and senior culminating experiences collectively known as High Impact Practices HIPs are positively associated with student engagement deep and integrated learning and personal and educational gains for all students particularly for historically underserved students including first generation students and racially minoritized populations While HIPs potential benefits for student learning retention and graduation are recognized and are being increasingly integrated across higher education programs much of that potential remains unrealized and their implementation frequently uneven Colleges are eager to use the HIP nomenclature for recruitment promoting equity for traditionally underserved student populations and preparing lifelong learners and successful professionals However HIPs defy easy categorization or standardized implementation They rely on fidelity quality and consistency being done well to achieve their learning outcomes and above all require attention to access and equity if they are to fulfill their promise of

benefitting all student populations equally The goal of Delivering on the Promise of High Impact Practices is to provide examples from around the country of the ways educators are advancing equity promoting fidelity achieving scale and strengthening assessment of their own local high impact practices Its chapters bring together the best current scholarship methodologies and evidence based practices within the HIPs field illustrating new approaches to faculty professional development culture and coalition building research and assessment and continuous improvement that help institutions understand and extend practices with a demonstrated high impact For proponents and practitioners this book offers perspectives data and critiques to interrogate and improve practice For administrators it provides an understanding of what s needed to deliver the necessary support The Yale Alumni Weekly ,1925 **Yale Alumni Weekly** ,1905
