Arms Control, the FRG, and the Future of East-West Relations Wolfram F. Hanrieder, 2019-04-05 The political dimension of arms control has always had special significance for the Federal Republic of Germany not only because of the issue of a divided Germany and a partitioned Europe but also because of the country's key position in the Western security alliance In the wake of NATO's recent decision to deploy more nuclear weapons on German soil and in the absence of progress on arms control it has become clear that arms control measures and negotiations have assumed an importance far beyond their military technical components fundamental questions about the nature of East West relations and the future shape of the transatlantic alliance and the European political order also have been raised These essays explore the implications of arms control negotiations for the Federal Republic of Germany and consider why Germany has traditionally found it impossible to divorce considerations of arms control from their larger political context

Counting on Computers Carmen Flury, 2024-11-18 Counting on Computers New Information Technologies and Curricular Change in East Germany 1960s to 1990 is a compelling exploration of socialist ambitions for a computerised future and how computer technology was imagined to reshape education and socialist society in the German Democratic Republic GDR It delves into the positive visions of a computerised future embraced by the country's one party

leadership and examines how these visions influenced educational policy and curricula as computers were introduced into workplaces and schools The book provides readers with a comprehensive perspective on the historical development of computer education in the GDR highlighting the crucial links between the integration of computers in different sectors of the educational system as well as in society and the socialist economy at large By uncovering this lesser known aspect of East German history the book sheds light on the intricate and multifaceted relationship between technology ideology and education
