Women in Philosophy Katrina Hutchison,Fiona Jenkins,2013-11 Why are professional philosophers today still overwhelmingly male Often it is assumed that women need ot change to fit existing institutions This book instead offers concrete reflections on the way in which philosophy needs to change to benefit from the important contribution women s full participation makes to the discipline

Founders of Constructive Postmodern Philosophy David Ray Griffin,John B. Cobb,Marcus P. Ford,Pete A. Y. Gunter,Peter Ochs,1993-01-01 In presenting Peirce James Bergson Whitehead and Hartshorne as members of a common and distinctively postmodern trajectory this book casts the thought of each of them in a new light It also suggests a new direction for the philosophical community as a whole now that the various forms of modern philosophy and even the deconstructive form of postmodern philosophy are widely perceived to be dead ends This new option offers the possibility that philosophy may recover its role as critic and guide within the more general culture a recovery that is desperately needed in these perilous times

That They be One Michael Joseph Schuck,1991 The social teaching of the Roman Catholic Church has aroused publicinterest in recent years

with the increased involvement of North American bishops in matters of civic morality with the growth of liberation theology in Central and South America and with the ongoing political and economic statements of Pope John Paul II A vital ingredient of Roman Catholic social teaching is the papal encyclical literature Debate grows however over exactly what the papal letters teach Noteworthy encyclical commentaries exist but none has attempted a comprehensive historical analysis of the complete content and overall coherence of Roman Catholic encyclical social teaching This book appearing in advance of the 1991 centennial of Rerum novarum provides the kind of analysis that concerned Roman Catholics public officials social ethicists theologians and students are looking for a textually inclusive and topically broad gauged study of Catholic social teaching in its historical development with a forthright assessment of the teaching s contradictions and consistencies **The Idea of**

the State Peter J.
