

The background of the book cover is a detailed painting of the interior of a large Gothic cathedral. The view is from the nave looking towards the choir and apse. The architecture features high vaulted ceilings, pointed arches, and massive piers. Light streams in from large windows, including a prominent stained-glass window in the distance. A few small figures of people are visible on the floor, emphasizing the scale of the space.

## Introducing Radical Orthodoxy:

*Introducing Radical Orthodoxy* James K. A. Smith, 2004-12 Provides a helpful overview of Radical Orthodoxy highlights its areas of agreement with Reformed theology and assesses its value as a truly postmodern theology **Radical Orthodoxy** Steven Shakespeare, 2007 Radical Orthodoxy exploded on to the theological scene in the early 1990s Since then it has become a significant factor in how many Christian thinkers and leaders are addressing the place of theology and the Church in the twenty first century This book offers Radical Orthodoxy's key arguments and an explanation and critique of its theology x Radical Orthodoxy Simon Oliver, 2007-01 Simon Oliver explores the origins and context of Radical Orthodoxy He explains the arguments of the key thinkers with whom Radical Orthodoxy engages and examines the contributions made to the field by leading theologians as well as Radical Orthodoxy's understanding of the nature of the theological challenge in our own time Topics include God and truth faith and reason language and praise desire and the human person Christ and reconciliation politics and theology culture and the Church An essential text across denominations and academic disciplines this is a far reaching and stimulating discussion on the impact and implications of this exciting area of contemporary theology **Nature, Grace, and Secular Culture** Christian C. Irby, 2024-09-13 The relationship between nature and grace is a key debate in Fundamental theology The understanding of how nature and grace relate to each other is also a critically important part in comprehending the underpinnings of Western secular culture and therefore how best to evangelise it This book compares John Milbank and Joseph Ratzinger two relatively recent theologians who have both drawn from the insights of Henri de Lubac and have attempted to address the challenge that secular culture presents to the mission of the church In demonstrating and comparing how each author's approach to the nature grace couplet consequently determines their respective approach to secular culture it is hoped that responses to the challenge of secular culture might be more comprehensively considered **Radical Orthodoxy and the Reformed Tradition** James K. A. Smith, James H. Olthuis, 2005 Leading scholars highlight the growing dialogue between proponents of Radical Orthodoxy and thinkers in the Reformed tradition **The Many and the One** Yonghua Ge, 2021-05-03 How God relates to the world lies at the heart of the most intense debates in modern theology and philosophy Movements of Nouvelle Théologie process theology radical orthodoxy modern Trinitarian theology and postmodern theology i.e. Jean Luc Marion all seek to reconsider God's relation to the world as a corrective of what they perceive as problematic Of particular significance is the recent revival of the theology of participation as promoted by Radical Orthodoxy in UK and Hans Boersma in North America Facing excessive secularism and fragmentation of the modern Western world Radical Orthodoxy and Boersma resort to the pre modern theology of participation as the way forward Relying heavily on Platonism however their participatory theology as critics pointed out tends to compromise the intrinsic goodness of the creation In this book Ge proposes that a distinctively Christian theology of participation anchored in creatio ex nihilo developed by Augustine and brought to the fore by Aquinas provides a more

promising solution which not only secures the unity of things in God but also the goodness of creaturely plurality Since participation in its origin is a solution to the problem of the One and the Many Ge employs Gunton's framework of the one and the many in his discussion of Augustine and Aquinas's theologies of participation By reshaping their concepts of participation in the light of the doctrine of creation Ge argues these thinkers have profoundly transformed the metaphysics of participation making it finally more suitable for describing the unique relationship between God's unity and creaturely plurality This Christian metaphysics of participation is not only an advance on Radical Orthodoxy and Boersma but also superior to competing theories of reality such as pluralism and reductionist physicalism The book will also bring out implications for modern science religion dialogues the core of which concerns how God relates to the world

*The Gift of Difference* Chris K. Huebner, Tripp York, 2018-07-10 what I gather from the excellent essays in the current volume is that modern Mennonites would tend to say that they offer not the path of misguided purism not the illusion of beautiful souls but rather their own middle way between apoliticism and political compromise This is because as they rightly say they see the Church itself as the true polity and unlike most of the magisterial Reformation they see the possibility of living beyond the law in terms of a new sort of social and political practice John Milbank University of Nottingham from the Foreword What hath the Radical Reformation to do with Anglo Catholics especially Anglicans who have a lingering penchant for Christendom The answer from this book a lot more than you might expect Huebner and York have staged a mutually critical interaction between Radical Orthodoxy and Mennonite theology illuminating both as a result James K A Smith Calvin College author of *Introducing Radical Orthodoxy* editor of *Radical Orthodoxy and the Reformed Tradition* This book is breath of fresh air Retrieving central themes of classical theology it is both faithful to tradition and innovative offering a third way between liberalism and conservatism one which sees theology as critical for public life without privatizing Christianity on the one hand or slipping into Constantinianism on the other A James Reimer Conrad Grebel University College author of *Mennonites and Classical Theology* *Dogmatic Foundations for Christian Ethics* *The Dogmatic Imagination* *The Dynamics of Christian Belief*

**Turning to the World** Carl N. Still, Gertrude Rompré, 2018-12-30 The Second Vatican Council 1962-1965 was a watershed event in the history of the Catholic Church a critical self examination that sought at once to rediscover the most ancient sources of Christian thought and practice and to bring these traditions into the modern world While few question the idealism and vision of Vatican II its legacy is contested Has the Catholic Church fulfilled the promise of the council Has it successfully reclaimed the scriptural call to justice Has it truly shifted its gaze to the joys and hopes grief and anguish of our troubled world Reflecting on both the vision of the council and its uneven reception *Turning to the World* ponders the impact of Vatican II on interreligious dialogue peace building and care for the environment Focusing specifically on the Canadian and Latin American experiences contributors work from diverse disciplinary perspectives to examine developments in the Catholic Church's understanding of freedom conscience and the common good The volume also appraises the effects of the

Church's turn to the world in its hope to voice the pressing needs of the human family especially in contexts of great poverty and injustice and among peoples adversely affected by the modern and postmodern economies of greed Exploring the legacy of Vatican II Turning to the World offers a unique perspective on the influence reception developments and applications of the council from the 1960s to the teachings of Pope Francis Canonical Theology Peckham,2016 What are the roles of canon and community in the understanding and articulation of Christian doctrine Should the church be the doctrinal arbiter in the twenty first century In Canonical Theology John Peckham tackles this complex ongoing discussion by shedding light on issues surrounding the biblical canon and the role of the community for theology and practice Peckham examines the nature of the biblical canon the proper relationship of Scripture and tradition and the interpretation and application of Scripture for theology He lays out a compelling canonical approach to systematic theology including an explanation of his method a step by step account of how to practice it and an example of what theology derived from this canonical approach looks like

**Liturgy, Theurgy, and Active Participation** Kjetil Kringlebotten,2023-09-08 Providing a metaphysical grounding for liturgical participation this book argues that active participation in the liturgy must be understood principally as our participation in God's act particularly in the act of Christ and only secondarily as our ritual involvement Utilizing Neoplatonist philosophy Kjetil Kringlebotten proposes that this should be understood in terms of theurgy which is the human participation in divine action which finds its consummation in the incarnation of Christ Without the incarnation all acts will remain extrinsic and imposed but acts can become real and intrinsic precisely because the incarnation makes possible true union with the divine a metaphysical union in distinction without confusion because this union is not extrinsic Through union with Christ as the one common focus of the divine human relation we can have true union with God and may offer true worship In order to make sense of active participation then we need to understand theology in theurgic terms where theurgy is understood not as a mechanical coercion of God but as a participation in His act in creation and through Christ as the true theurgist the master theurgist Whose work transforms our act and the liturgy *Communion with the Triune God* Dick O. Eugenio,2014-03-03 The revival of Trinitarian studies in the twentieth century ushered in a new era of theological innovation The renewed and dedicated articulation of the Trinity as a doctrine in its own right is indeed noteworthy but more important and praiseworthy are the recent endeavors of theologians in integrating the doctrine of the Trinity with other Christian doctrines and with the many variegated aspects of the life and ministries of the church Today it is common to encounter the term Trinitarian being used as a modifier Trinitarian worship Trinitarian ecclesiology etc This book presents Thomas F Torrance as a participant theologian in this integrative paradigm Because Torrance argues that the Trinity is the ground and grammar of theology his doctrine of salvation is consistently Trinitarian But how did he formulate his unique Trinitarian soteriology This book attempts to spell this out **SCM Studyguide: Theology in the Contemporary World** Ben Pugh,2017-11-30 No sooner have they mastered the basics than students of theology can quickly find themselves in over

their heads They are bombarded with claim and counter claim as soon as they want to tackle anything topical The contentious subjects tend to be the historical Jesus gender and sexuality or the atonement Other subjects might be less contentious but attract an astonishing excess of literature Take the vast literature tackling the subject of the Church for instance or the bloated body of tomes on various aspects of Pneumatology This book tries to provide the bewildered and intimidated student with a primer that is at once introductory and incisive approachable and informative It will help those training for ministry to recover their fascination for the subject of theology and how it could apply to their future ministry Subjects covered include The Quests for the Historical Jesus Third Article Theology The Missional Church Liberation Theology Feminist LGBT and Queer Approaches Postmodern Faith and the Emerging Church Nonviolent Atonement     *The Routledge Companion to the Christian Church* Gerard Mannion, Lewis S. Mudge, 2007-12-12 The nature and story of the Christian church is immensely important to theology students and scholars alike Written by an international team of distinguished scholars this comprehensive book introduces students to the fundamental historical systematic moral and ecclesiological aspects of the study of the church as well as serving as a resource for scholars engaging in ecclesiological debates on a wide variety of issues It divides into six parts the church in its historical context the different denominational traditions global perspectives methods and debates in ecclesiology key concepts and themes ecclesiology and other disciplines social sciences philosophy literature and film Authoritative accessible and easily navigable this book is indispensable for everyone interested in the nature and history of the Christian Church     *A Politics of Grace* Christiane Alpers, 2018-04-19 Christiane Alpers discusses the contribution and role Christian theology plays in developing of the democratic life in post Christendom societies She discusses the three major approaches to this debate public theology Radical Orthodoxy and post liberal Protestantism in order to illustrate the shared assumption that such an enhancement should be understood in terms of solving existing political problems The volume builds on and combines public theology s aspiration to craft a non triumphant political theology fit for a post Christendom context Radical Orthodoxy s hesitancy to embrace secularism as neutral centre for present democracies as well as post liberalism s Christocentric outlook Alpers engages with a wide variety of thinkers such as John Milbank Graham Ward John Howard Yoder Kathryn Tanner and Edward Schillebeeckx to suggest that a political theology in the post Christendom context could build on the faith that Christ alone has redeemed the whole world     *Mapping Modern Theology* Kelly M. Kapic, Bruce L. McCormack, 2012-04 A team of international scholars assesses the field of modern theology thematically covering classic topics in Christian theology over the last 200 years     *Church, Sacrament, and American Democracy* Adam S. Borneman, 2011-03-07 John Williamson Nevin architect of the nineteenth century movement the Mercersburg Theology has increasingly gained respect as one of the most important theologians of American history and the broader Reformed tradition Accompanied by the great historian Philip Schaff Nevin faced a headwind of American individualism subjectivism and sectarianism but nevertheless forged ahead in

articulating a churchly sacramental theology rooted in the Incarnation of Jesus Christ Drawing from the well of German Idealism and Romanticism Nevin proposed a theological hermeneutic that was greatly at odds with the prevailing methods of his day Nevertheless Nevin persisted in his efforts confident that the concepts of organic unity catholicity and incarnation offered a vital corrective to the tendencies of the American church and society Hence Nevin s theological polemics while often focused on matters of ecclesiology and sacraments also have much to offer in the way of a much broader theology of history mankind and culture In this latest contribution to studies in the Mercersburg Theology Borneman extracts from the Nevin corpus those writings which speak to the predominant social and political trends of the antebellum era trends which have endured to the present day Nevin s efforts toward a liturgically oriented unified prophetic church stood over and against many of these trends Bringing to the fore the implications of Nevin s efforts Borneman joins a chorus of recent scholars and theologians who insist that Nevin has just as much to say to the church of the present as he did to the church of the nineteenth century

*Secularisations and Their Debates* Matthew Sharpe,Dylan Nickelson,2013-10-30 This volume explores timely topics in contemporary political and social debates including the new atheisms the debate between Habermas and the Pope on the fate of modernity and the impact of new scientific developments on traditional religions This book collects articles first presented at the Deakin University World in Crisis workshop held November 2010 by leading Australasian philosophers and theologians It addresses questions raised by the recent much touted return to religion including possible reasons for the return and its practical political and intellectual prospects *Secularisation and Their Debates* is not afraid to provide answers to such questions as Is religion only ever a force of political reaction in modernity or are there resources in it which progressive even secular social movements could engage with or adopt Are the new atheisms or on the opposite side the new fundamentalisms really novel phenomena or has religion only ever been artificially sidelined in the modern Western states Has modern liberalism only really been kidding itself about its non doctrinal neutrality between different faiths and if so what should follow This book will appeal to researchers in the philosophy of religion social sciences political philosophy and anthropology

*The End of the Law?* David W. Opderbeck,2021-08-12 Does neuroscience show that all our ideas about law and ethics are false David Opderbeck answers this question with a broad and deep survey of the relationship between theology science and ethics He proposes that Christian theology which narrates the humanity and divinity of Christ in conversation with the new Aristotelianism in the philosophy of science provides a path through secular and religious fundamentalisms alike

*Technology and the Philosophy of Religion* David Lewin,2010-09-13 The last one hundred years has seen unimaginable technological progress transforming every aspect of human life Yet we seem unable to shake a profound unease with the direction of modern technology and its ideological siblings global capitalism and massive consumption Philosophers such as Marcuse Borgmann and especially Heidegger have developed important analyses of technological society however in this book David Lewin argues that their ideas have remained limited either by their secular

context or by the narrow conception of religion that they do allow This study guides the reader along the newly formed paths of the philosophy of technology arguing that where those paths come to an abrupt end a religious discourse is needed to articulate the ultimate concerns that drive technological action It calls for a meditation on the central insight of many religious traditions that in an ultimate sense we know not what we do To acknowledge that we know not what we do is the first step towards a theology of technology that draws upon insights from the mystical theological tradition as well as from recent developments in the continental philosophy of religion     *Ontologies of Violence* Maxwell Kennel,2023-07-24

*Ontologies of Violence* provides a new paradigm for understanding the concept of violence through comparative interpretations of French philosopher Jacques Derrida philosophical theologians in the Mennonite pacifist tradition and Grace M Jantzen s feminist philosophy of religion By drawing out and challenging the remarkably similar priorities shared by its three sources and by challenging the assumption that differences necessarily lead to displacement *Ontologies of Violence* provides a critical theory of violence by treating it as a diagnostic concept that implies the violation of value laden boundaries
